José Vila

AN IMPORTED CIGAR

In July, 1905, the United States Government abandoned the encircling stamp on imported cigar boxes, as it appeared to be a stamp of superiority, thereby mislead-

g consumers.

The fact is that this stamp never signified anything except that the cigars were

The workmen who make Jose Vila Cigars came from Cuba.

The Jose Vila Cigars are made under precisely the same climatic conditions and

methods that prevail in Cuba.

It is really an imported eigar made at Tampa—and its excellence is guaranteed.

There isn't a particle of difference in quality and workmanship between the very best eigar made in Cuba and the Jose Villa. However, there is an important difference.

ence in the import duty paid.

The duty on cigars of medium size is \$45.00 per thousand; on the quantity of tobacco necessary to make them it is only \$5.50.

Nine-tenths of the duty is saved by making the Jose Vila of imported tobacco it Tampa instead of in Cuba, only 319 miles away.

The consumer reaps the benefit of this saving by getting a better value for the ame money he ordinarily pays for cigars.

Why the Jose Vila is Better Than

Campbell & Evans

Most Imported Cigars

In one small district on the Island of Cuba the best tobacco in the world is grown. It is known as the Vuelta Abajo District. The soil is a coral formation, slacked by excessive rains. An air current influenced by the Gulf Stream crosses to the south and caut of the Vuelta Abajo District, circling and recrossing to the northeast, creating a warm mist and fog (similar to the fogs on the Pacific Slope) which irrigate the plant at critical periods of its growth, and produces a short, bony leaf, full of oil and aroma. (The shaded area and the arrows indicate on the map the peculiar action of this warm air current.) Efforts to transplant the famous Vuelta bajo leaf have ignominiously failed,—only the form and appearance are retained when the seed is one learners, the foregroup.

Abajo leaf have ignomialously falled,—only the form and appearance are retained when the seed is grown elsewhere—the fragrance, the aroma and the flavor being lost.

To produce a cigar like the Jose Vila, tobacco as perfect as the Vuelta Abajo product must receive scientreatment. To ferment tobocco to the point where the unwholesome gases and nicotine that cause irria of throat and nose are evaporated, the curers unavoidably lose large quantities through rot and decay, as falls upon the makers and the retailers, for the consumer pays no more than for an ordinary high-grade of the same size. You must get the genuine Vuelta Abajo leaf, properly cured, if you want to enjoy the high flavor, delicious fragrance and soothing aroms so loved by connoisseurs in fine Havana cigars. It is used exclusively in Jose Vila Cigars.

oreign-made, and it was piaced on all sorts of cigars—good, bad and indi The word "imported" applied to cigars has a false value.

ler these points: obacco used in Jose Vila Cigars is imported from Cuba.

Body of Dr. E. L. Irvine, of Portland, Lay on Floor.

CORONER TO INVESTIGATE

Strong Odor of Carbolic Acid on His Clothing, but Cause of Death of Visitor to San Francisco Is Not Apparent.

SAN FRANCISCO, March 12—(Special.)

—Dr. E. L. Irvine, of Portland, Or., was found dead in his room at the Lick House today by one of the beliboys. He was lying an the floor, partly dressed. The Coroner's office was notified and the body taken to the morrue. taken to the morgue.

Dr. Irvine arrived Saturday from Portland, where he had an office at 205 North Twenty-third street, and registered at the Lick House. He did not leave his room all day Sunday, and this morning about 6 clock sent for a pint bottle of whisky.
In the pockets of his clothes two cards of introduction were found. They were from Mrs. George Herron, 12: Twelfth street Portland, introducing Dr. Irvine to William C. Bartlett and Mrs. Mary B.

Whether Dr. Irvine committed suicide or died from natural causes will not be determined till the autopsy is made tomorrow. There was a strong oder of car-bolic acid from his clothing and papers. Dr. Irvine was about 45 years of age.

Dr. Elliah L. Irvine, who died at San Francisco yesterday, was well known in tids city and in the Willamette Valley, having practiced here and at Albany, Or., for years. He was a graduate of Willam-ette University, of Salem, and came to Fortland a number of years ago. He is survived by his wife, who is still a resi-dent of Portland, and one son, Dr. E. Lloyd Irvine, who is surgison for the north ank road at Expansion, Wash.

Dr. Irvine left for San Francisco last

Thursday for a short trip on account of fil-health, and his friends here express regret at his sudden demise.

MULLIN WINS AT WRESTLING Takes Five Falls Out of "Strangler'

Smith in Eight Bouts.

A hard-fought battle from start to finish, was the wrestling match last night at Ringler's Hall between Charles "Strangler" Smith, of Portland, and Dan Mullin, of Butte. The go was for five falls out of nine and it extended into the night until a late hour. Smith came on the mat at 151. looked diminuative alongside of Mullin, who claimed to weigh 168, and looked ten pounds heavier than that figure. The first fall went to the Butte man, who put Smith to the mat in 15 minutes and 46 seconds. Mulith likewise captured the second fall in 14 minutes. In the third go Smith railied and won in 28 minutes and 2 seconds.

Mullip got the fourth fall in three minutes, and Smith captured the two succeeding mills in 19 minutes and 18 minutes and 45 seconds, respectively. Mullin won the seventh and eighth

falls, taking five bouts, and the ninth THE DAY'S HORSERACES.

GREAT DAMAGE

(Continued From Page 1.)

Grain in the south end of the county, near Condon, is under the snow and safe. The weather here is very cold, and it is expected the temperature will go lower night than at any time during the Win-

VERY COLD DAY IN KLAMATH

Stock on Range Suffer, but No Great Losses Are Reported.

KLAMATH FALLS, Or., March 12 --(Special.)—Southeastern Oregon last night experienced the coldest temperature of the Winter, with 19 degrees above zero the west all of yesterday, and 16 inches of snow fell. In the storm the outfit of Mason, Davis & Co., 50 horses and 22 men, made the trip from Pokegama and suffered as a result of the cold. George Duke, driver of the Pokegama stage, had his ears and fingers badly frozen. Stock on the range suffered, but

DEEP SNOW IN GRANT COUNTY

no heavy losses are reported.

Weather Is Very Cold and Some Calves and Lambs Are Lost.

CANYON CITY, Or., March 12 .- (Special.)—It is extremely cold and a very heavy snow has fallen. The roads are blocked, mails are delayed, and travel turned back by the heavy fall of new snow upon two feet of old snow. Ice will bear a man's weight in the valley. Feed is growing short and some loss to caives and early lambs has been caused by zero weather.

Seaside Very Much Upset.

SEASIDE, Or., March 12.-(Special.)-Seaside has been having a variety of weather during the past week. Last Pri-day the mercury stood at 70, and quite a number of persons went in surf bathing. The general impression obtained that Spring had come. Seasiders collected their gardening implements and began to plant seeds. The bluebirds, full-throated, trilled their matin songs, and all na-ture rejoiced that Spring had come. Saturday, a cold wave swept in and snow fell fitfully. This morning the ground was frozen solid. Water pipes refused to give forth their contents, and a great throng of unwashed perambulated the streets. Men flit hastily along the streets, swathed in overcoats, and say

their prayers left-handed. Looks Like Rain at Salem.

SALEM, Or., March 12.-(Special.)-The weather moderated at Salem this evening and the thermometers stand at about the freezing point at 10 P. M. Last night the thermometers registered 4 below freezing. Snow began falling tonight and lies on the ground about an inch deep.
From reports received from fruitgrowers today it seems probable that the injury will extend only to peach and pear trees on the lower ground, where blos-soming was well advanced, and even in

such places it is probable that enough fruit will be left to make a fair crop. In the hills no damage is reported. Prune and apple trees have not been in-jured. The northeast wind, which brought the cold snap, shifted to the northwest onight and then subsided. Rain is ex-pected before morning. Livestock in this part of the Valley will

not suffer on account of the cold, as feed is plentiful and shelter is ample. Almond Trees Were in Bloom.

ASHLAND, Or., March 12 .- (Special.) The heavy blanket of snow in which this section was suddenly wrapped yes-terday afternon and last night causes considerable uneasiness among fruitgrowers and stockmen. Last and much of the time for several weeks past Spring weather conditions, every-where in evidence, advanced fruit rapidly and almond trees reached full

Some peach buds are bursting into bloom, but it will take a pretty heavy freeze to damage the peach crop seriously at this stage or other fruits still in the bud.

Tonight at 9 e'clock it is partly

cloudy at Ashland with the therm ter near the freezing point.

Sheared Sheep Are Suffering.

PENDLETON, Or., March 12.-(Special.) TENDLETON, Or., March 12—(special.)

-The severest cold weather of the year is prevailing throughout Umatilia County and Eastern Oregon in general. Snow-storms and windstorms are sweeping over the entire eastern part of the state. Tonight at Pendleton the thermometer is be ow freezing and sinking as the night ad-

Fruit trees in the McKay Creek and Milton districts have been damaged to some extent. Wheat is not as yet injured, except where it was buried by the wind torms in the light-land sections. Newly sheared sheep are suffering and many will die, but other stock will weath-

er the cold if it is not too long continued.

Some Sheared Goats Killed.

CORVALLIS, Or., March 12.-(Special.) The only crop affected by the cold wave is fruit, which may have suffered slightly, particularly in the earlier varieties. Peaches had begun to blossom, and the earlier cherries and pears were nearly ready to unfold their buds. Some damage is expected in consequence.

Italian prunes in this locality are be-lieved to have entirely escaped. Growing grain crops have not been damaged. In the warm days of last week a num-ber of farmers hereabout sheared their goats, and in all cases these are suffering with some loss of animals. Other live stock is not affected, grass being good and feed abundant.

Rain Will Save the Situation.

INDEPENDENCE, Or. March 12-(Spe cial.)-Polk County is experiencing the coldest snap she has had the past Winter. Peach and pear buds coaxed out by
the warm sun of last week are frozen, as
are budding rose bushes and ornamental
shrubbery. Unless the severe weather continues, the general belief is that the apple and prune crops will not be materially
formared.

The mercury is faining rapidly and
the coldest night of the season is expected. Water pipes all over the city are
frozen and burst.

Fruitgrowers say no damage will be
done north of the Snake River to early
formared.

temperature, ending with dry weather, would doubtless kill even the trees, in which the sap is fairly started.

Growing Colder at Astoria

ASTORIA, Or., March 12.-(Special.)-The cold wave still continues, and the record for the senson was broken at 5

degrees above zero.

This evening the mercury is about 2 degrees lower than at the corresponding hour last night, and the indications are it will be much colder before morning.

sown grain will suffer extensively. With an abundant yield of hay and other feed harvested last season, farmers are excep-tionally well prepared for severe weather conditions, and, with ample shelring quarters, which many Clackamas County stockmen have provided for just such a contengency cattle will not suffer even from a protracted period of unseasonable weather.

Snow Storm on at Dallas.

DALLAS, Or., March 11.-(Special.)-The willamette Valley is experiencing the coldest weather of the year. The lowest temperature was reached early this morning, when the mercury dropped to 24 degrees above zero. The wheat crop is not the collection of the collection injured so far; it is believed that the damage to fruit will be nominal, as the buds are not far advanced.

are not far advanced.

Early peach trees are in bloom and some injury may result. Livestock is doing well and no loss is anticipated. Dry feed is plentiful, and there is an abundance of grass in the valley and surrounding foothills range. Snow is falling tonight.

Tender Buds Nipped in Lane.

EUGENE, Or., March 12.-(Special.)-Snow has continued to fall nearly all day, but has melted nearly as fast as it fell. Stock is in good condition and is not suffering much from the storm and will not unless it should be protracted. It is not believed fruit is damaged to any

great extent, aithough some express fears that pear, peach and cherry buds were far enough advanced to be injured. As far as is known at present, the dam-age is confined to the tenderest vegeta-tion, but a freeze tonight would injure early fruits. early fruits.

GIANT TREES ARE PROSTRATED

Zero Weather Accompanies Gale on Puget Sound.

TACOMA, Wash., March 12-(Special.) -Not since nine years ago has March furnished such frigid temperature as that accompanying a piercing gale that began to blow in this section Saturday morning and continued with almost unabated fury Sunday and today. The lowest temperature was zero at 5 A. M. today.

The damages done to vegetation cannot now be determined, although it is

expected to be serious. Gardeners report that small early vegetables, such as radishes, spinach and cauliflower, are as killed, and the advanced crop will be a to spinach and cauliflower, are all

At Point Defiance Park the storm seemed to vent its worst fury. About 100 giants of the forest, some of them three giants of the forest, some of them three and four feet through at the trunk, were sent crashing down. The boathouse off the pavilion was smashed. Superintendent Roberts says in all his 16 years on the Point he never knew a worse storm. Scores of small fires occurred yesterday and today, and the Tacoma Hotel had a narrow escape.

The French bark Bonehamp dragged her buoy, and was rescued when only a

few feet from shore. SNOW BLANKET OVER WHEAT

Palouse Country Not Greatly Dam-

her buoy, and was rescued when only a

aged by Cold Wave. COLFAX, Wash., March 12.-(Special.)-The Palouse country is experiencing the coldest weather in several years. This morning the mercury registered 3 degrees above zero. Snow fell steadily today, covering the ground to a depth of five inches. This will protect Winter wheat and no damage to this is expected.

Fruit is probably slightly injured, but this cannot be determined for several days. Fears of heavy loss of young lambs are entertained by sheepmen, but other stock will not suffer. The wind, which has blown a gale for three days, has subsided tonight, and the weather is clear and cold, with prospects of several degrees belonw zero being reached before morning. If this weather continues one week, the first ice of the season will be put up in the Palouse coun-

SNOWFALL AT WALLA WALLA Spring Lambs and the Apricot Crop

Will Suffer Loss. WALLA WALLA, Wash, March 12-(Special.)—Three and one-half inches of snow fell in Walla Walla today, and was sanied by a cold northeast wind degrees above zero. The storm and wind abated this evening, but it is predicted tonight will be still colder than last

Wheatraisers state that no possible damage can be done the wheat either around Walla Walla or on the Eureka Fiat, unless the temperature should go far below zero. Sheepmen who make their headquarters in Walla Walla say many of them are now in the midst of the lambing season, and the loss of lambs will be heavy. Fruitralsers have no fear of the results

except as to the apricots unless colder weather prevails.

COLDEST DAY OF THE WINTER Seattle Has a Cold Spell, Following

on Balmy Days. SEATTLE, Wash., March 12.-(Special.) -At 6 o'clock this morning the thermom-eter here registered the coldest day of the Winter, and the coldest March morning the Weather Bureau records have shown for nine years. It was 16 degrees above zero at that time. A prediction of snow was justified during the day by the continual crispness of the atmos-

The cold spell has been creeping up on the city since Saturday, when a period of balmy sunshine gave way before a falling thermometer. It was colder at noo yesterday than at any similar per the day during the Winter, yet at that time it was 41 degrees above zero. Nine years ago there was a March morning when the Weather Bureau records showed 29 degrees above zero,

No Damage, Says Wheat King. GARFIELD, Wash., March 12-(Spe

cial.)—The wind has been blowing a gale throughout the Palouse country for the past 24 hours, the mercury registering 10 above zero today. This has been the coldest of the season. The wind is blowing from the northeast, accompanied by snow. The mercury is falling rapidly and snow. The mercury is falling rapidly and the coldest night of the season is ex-

Should the cold snap terminate with a warm rain, no serious damage is apprehended, but a continuation of the present temperature, ending with done to fall-sown wheat, and he does not anticipate any this season.

Early Fruit Trees Nipped.

cial.)—The damage to fruit in this sec-tion on account of the prevailing cold wave will be considerable. Early fruits, such as cherries and plums, will be practically destroyed. The warm weather prior to the cold spell started the fruit buds rather vigorously, es-pecially of the early varieties. Late fruits will not be totally dam-

aged. Livestock is not suffering to any great degree. Washington Crops Little Affected.

Stock Have Feed and Shelter.

OREGON CITY, Or., March 12—(Special.)—The cold wave of the past three days has not inflicted any serious damage. Close examination shows that the Fall-sown wheat is not at all injured and the damage to fruit affects only peaches, which already blossomed. If the present weather continues for several days, the fall-

pears were getting ready to bloom and these, of course, were injured. Apples and prunes are not injured as yet.

Fall-sown grain was looking better than for years when the cold wave came, and

Off the Day

How to Start

Students of Hygiene All Agree That the Right Kind of a Breakfast Is Essential.

Thinking people are giving more and more earnest thought as to how to start off each new day so as to put themselves off each new day so as to put themselves in the best possible physical and mental condition for the work of the day. It is an interesting subject, so interesting, indeed, that it has attracted the attention of a host of the world's leading scholars and auhors on hygiene, and many different opinions have been written for the guidance of the people. On one point, at least, all are agreed. This is that the right kind of a breakfast is essential.

A perfect breakfast is impossible without Maita-Vita, that delicious, crisp, vitalizing, whole-wheat food.

In making Maita-Vita, the whole of the

in making Malta-Vita, the whole of the wheat, after being cleaned, is thoroughly steamed and cooked in absolute purity and then mixed with malt extract, a powand then mixed with mail extract, a powerful digestive agent, which converts the
starch of the wheat into maltose, or mait
sugar. Maltose is great food and the
weakest stomach digests and assimilates
it without effort. After being rolled into
thin wafer-like flakes, the mailed wheat
is baked under such intense heat that it
comes from the ovens crisp and brownpositively the most delicious, most healthful food in the world. Always ready to
