The objects of the federation embodied in the constitution, as yet but partially adopted, are to ob tain fair and just remuneration for the labors of its members; to work for the enactment of laws which will give pro tection to its members and insure the continuance of the fishing industry, now seriously threatened everywhere on the Pacific Coast through over-fishing, lack of effective and regulated enforced clos-ing seasons, and for want of sufficient hatcheries; to secure legislation against fish-traps, detrimental to the industry and dangerous to lives and property of driftnet fishermen, and where such traps oc-cupy grounds that they should be for the on use of all; and to work in fraternal unity with other men earning their G. mental to the industry. A mass meeting of the fishermen of Astoria and vicinity has been arranged for next Friday evening in this city.

BOISE, Idaho, March 11 .- (Staff Corre spondence.)-It will not make any differice whether Vincent St. John, president of the Burke Miners' Union, who is ap plying for a writ of habeas corpus, is liberated tomorrow or not. There will arrive here in the morning Sheriff Rutan, of Telluride, Colo., with extradition papers, and St. John will be taken back to Colorado on the charge of murder and the blowing up of the Independence depot. St. John was arrested soon after the arrest of Moyer, Haywood and Pettibone, on a charge of having had something to do with the assassination of ex-Governor Steunenberg. An effort was made to have the grand jury which brought in the indictments against the Federation offiials indict him.

So far no bill has been returned and the attorneys for the defense began habeas corpus proceedings Saturday. They were argued yesterday and again today, and at the conclusion of the arguments Judga Stewart announced that he would render

a decision tomorrow at II o'clock.

When it became known to the prosecution that the lawyers for the miners were going to apply for habeas corpus proceed-ings for St. John, word was sent to Colo-rado. Governor McDonald at once issued extradition papers for him, and as soon as they arrive in the morning they will be signed by Governor Gooding. Should Judge Stewart deny the writ, however, it is not believed St. John will be taken to Colorado, at least until the prosecution is assured that the grand jury will not in dict him.

Moyer, Haywood and Pettibone were taken to Caldwell this morning. They will be closely guarded, and there was some talk today of establishing 100 members of the state militia near the jail at Caldwell If this is done, the men will be the best marksmen among the Idaho guards. Ad-jutant-General Vickers will select the men and establish the camp, should Governor Gooding decide to have the militia guard the jail.
