

JEROME HITS HARD

Bitter Comment on Insurance Fraud Agitation.

HAS NO MERCY ON PARKER

Calls Sage's Speech Claptrap—Will See That Criminals Are Indicted. Yellow Press Comes In for Scathing Words.

NEW YORK, March 23.—The Delta Upsilon fraternity of New York gave a testimonial banquet tonight to District Attorney Jerome. Amherst '82, and Charles E. Hughes, Brown '81. The 500 fraternity men present represented 27 different colleges and universities.

Mr. Hughes, who spoke briefly, was hailed as the "next Governor of New York." In response to which he said: "I attribute your good wishes to the spirit of fraternity and good-fellowship. I must, however, leave political aspirations where they belong."

Public Opinion in Hysteria.

Mr. Jerome, in his address, said: "Public opinion is a good deal like a ship blown here and there by the winds. Public opinion goes higher and son, but in the end it is swept, east and west, and like the ship it will make its port. It is for us a positive duty to see that the tacks are no longer than necessary. But what do we find today in the streets and the Nation? We find a public opinion of absolute hysteria."

Mr. Jerome referred to the return of Andrew Hamilton, saying:

It was only a few days ago when the newspapers were clamoring for Hamilton to be brought back and imprisoned or electrocuted or punished in some way. He did come back. He did not travel and fight, and struck true according to my own mind. But now the man for whose blood they were crying out to make a hero and his uncorroborated word is taken to brand men, honored men of the community, whom you and I trust is.

Slap at Sage of Esopus.

Alton B. Parker—I believe he ran for President once—went down South and said that the way to convict was to convict. He said there was not a grand jury that would not bring in an indictment. It is because there is not that there is one public official who will not permit an indictment without evidence. So much for cheap claptrap, even if it comes from the "Sage of Esopus." I am going to see that those who violate the criminal law shall be punished, but the way to convict is by evidence.

I was informed the other day by a director of the Mutual Life that \$100,000,000 of policies have lapsed. These were policies of the poor, who had been influenced by the wild outcries of the newspapers. These institutions are as solvent as the United States, but these poor people, clerks and laboring people, were scared by the "yellow" scapings of the hounds of the "yellow press."

ARE GUILTY OF THEFT

Richard A. McCurdy, with Raymond & Co., and the gratuities and the rates of commission received by the firm.

Son's Exorbitant Commissions.

The final cause of action deals with the sum of \$128,841 received by Robert H. McCurdy as commissions from 1886 to November 1, 1905, as superintendent of the insurance department, and charges that by reason of unfaithfulness and neglect by the ex-president the commissions had been allowed at rates which the enormous increase in the foreign business had rendered exorbitant and unnecessary.

Finally, the company demands judgment against ex-President McCurdy for the sum of \$176,342 with interest, as damages for alleged unfaithfulness and neglect.

DENIES LAWSON'S CHARGES

Orr Will Prosecute Those Guilty of Misrepresentation.

NEW YORK, March 23.—A. R. Orr, president of the New York Life, in an interview denied allegations that agencies of that company have been giving rebates on policies and giving away policies in return for proxies. Mr. Orr said: "There is not an iota of truth in the report, and steps will be taken to punish the person by persons guilty of the misrepresentation."

CHARGES AGAINST COLUMBIAN

Insurance Company Accused of Violating Laws of Ohio.

COLUMBUS, O., March 23.—Charges have been filed with State Insurance Commissioner Voorhis against the Columbian National Life Insurance Company, of Boston, the American Agency Company of New Jersey and the American Investment Securities Company of Maine, setting forth that they are violating the insurance laws of Ohio as to rebates and improper inducements.

The charges grew out of the investigation and report of Attorney General Hadley, of Missouri, which show that the parties are virtually one. The Attorney-General is of the opinion that the insurance company was formed to further the interests of the investment companies.

M'CALL'S ESTATE IS SOLD

Syndicate of Millionaires Buys It for Country Club.

NEW YORK, March 23.—For the purpose of a country club, which, it is said, will be the finest of its kind in the world, "Shadow Lawn," the magnificent estate of the late John A. McCall at West End, N. J., has been purchased by interests represented by the following committee: F. Sanford Bass, Government contractor; C. H. McCarter, president of the Fidelity Trust Company, of Newark; M. H. Oppenheim, E. F. C. Young, president of the First National Bank, and S. R. Huggenheim, of the American Smelting & Refining Company.

amous vote the House Committee on Judiciary agreed that insurance should be regarded as interstate commerce and decided to report to the House to that effect. The President's message brought the subject of National control of insurance before the House and the committee.

Fowler Committee's Work.

NEW YORK, March 23.—The Fowler committee of the New York Life said a statement tonight in which it said: "The special committee has no further duty to perform with respect to the Hamilton matters or political contributions. The committee is now engaged in the investigation of the different departments of the company."

ROB OIL TRUST'S LAUNCH

Chinese Pirates Capture Arms and American Gunboat Pursues.

HONGKONG, March 23.—A launch owned by the Standard Oil Company was seized and looted by pirates near Canton yesterday. The pirates secured a few Winchester rifles and 1000 rounds of ammunition. The United States gunboat Callao is proceeding to the scene of the piracy.

(The gunboat Callao is attached to the Asiatic squadron fleet and is commanded by Lieutenant Robert W. Henderson. She is of steel, having a displacement of 200 tons and carries six guns. She has a speed of ten knots an hour. Canton, in the vicinity of which the launch was attacked, near the mouth of the West River, in the Province of Kwangtung, is the great seaport of Southern China.)

Stanford Won't Play Rugby.

STANFORD UNIVERSITY, March 23.—The Stanford University students have received with united disapproval the action of the faculty committee taken yesterday abolishing the annual football match with the University of California, the 1906 variety eleven almost to a man having declared their disgust at the arbitrary action of the faculty, and have expressed their determination not to participate in the Rugby game which the university authorities intend to inaugurate next year.

SHALL TRUSTS DEFY LAW?

THAT IS VITAL PROBLEM, SAYS HADLEY, OF MISSOURI.

Great Enterprises Exist in Defiance of Liberty, and Public Opinion Must Compel Obedience.

NEW YORK, March 23.—With Attorney-General Herbert S. Hadley, of Missouri, as its principal guest, the Missouri Society of New York held its annual banquet tonight at the Waldorf-Astoria. Mr. Hadley made an address in which he said:

The explanation of the unfair railroad freight rate, the midnight tariff, the drawback or rebate, is that some commercial interest represents a power and influence in our industrial life strong enough to demand and secure such unlawful privileges. These commercial or industrial enterprises represent a concentration of wealth and influence along lines which create both the power and the disposition to do these things, which result in evils and abuses, exist and do business in violation of the principles of our common law, which we have inherited along with our civil, religious and political liberty, and in violation of the statute law which our Legislatures have placed upon the statute books of the Nation and of the state.

To my mind the vital problem, that confronts the American people today is the question as to whether these great commercial enterprises shall continue, as they have continued in the past, in open defiance of the laws of the Nation and of the state.

Mr. Hadley looked for relief not to Socialism or Government ownership, but to an aroused public sentiment that would compel honesty and obedience to law.

PARKER REITERATES DENIAL

FROM HEARST TO BRYAN

(Concluded From Page 1.)

the shrewdest thought is being directed as the man to prevent the spread of Hearstism throughout the perturbed country agitated by graft in high places, and in Bryan is seen the aviator who will counteract the Hearst machine, which, operating through the paid agents of its principals, will again conduct a campaign in the same manner as that of two years ago, when there was no such favoring situation to aid the personally conducted propaganda. Plans already are being discussed to make the homecoming of Bryan a great National Democratic event.

In connection with the Hearst movement much significance is likely to be attached to the visit of the labor leaders to President Roosevelt and the Congressional directors of legislation yesterday. The Hearst managers are preparing to seize upon the memorial of labor as capital for their candidate. It already has been made known that it is the intention of the labor leaders to attempt a concerted movement in the approaching elections.

Build Monument to Major Logan.

MANILA, March 23.—Major-General Wood and a party of Army officers will leave here tomorrow to locate the spot where Major John Alexander Logan was killed, and erect a monument thereon.

(Major Logan was the son of Major-General John A. Logan, of Illinois. He was born in 1826, and entered the United States Military Academy at West Point in 1843, graduating with honor. He was honorably discharged on May 17, 1850. When the Philippine war broke out he was made a Major and Assistant Adjutant-General. He fell mortally wounded while leading his troops against the enemy at San Jacinto, P. I., on November 11, 1899. A medal of honor for his distinguished services was sent to his heirs by the Government on May 15, 1902.)

CHEAT THE ROADS

Freight Inspector Says Shippers Are Dishonest.

Describe Goods Falsefully

Valuable Articles Concealed Among Lower-Class Freight to Get Lower Rate--Total of \$4,000 Frauds in One Month.

NEW YORK, March 23.—The Interstate Commerce Commission began an important hearing today on the reported underbilling and misrepresentation of freight by shippers in New York and other Eastern points.

Robert G. Stevenson, a general inspector of the Trunk Line Association in the State of New York, Connecticut and Massachusetts, was examined at length. He said that in one month the association had a total of \$4,000 false classifications. He declared that many large and prominent firms had habitually, persistently and constantly violated the regulations.

In answer to questions, he said that, while the majority of shippers sought to be honest, many prominent ones were notoriously dishonest. He described how shippers would pretend to make honest descriptions of shipments and how they would try to deceive inspectors by packing valuable shipments in the bottom, sides or middle of packages containing lower class freight to avoid scrutiny. He said that the inspectors knew of the persistent violations pretty well and that as a rule few misdescribed shipments got by them.

"Why do they do this, if your inspectors generally detect the false classification?" asked Chairman Clapp.

"They do it to get a lower rate for their customers. They think that, if they get one shipment out of ten through, it will pay them to misdescribe."

He said that the cuts made by the Trunk Line Association inspectors were rarely questioned by the shippers. He was unable to suggest a remedy for the evil.

The hearing will be continued tomorrow.

ELLEN TERRY'S JUBILEE

American and British Actors Will Unite in Testimonial.

NEW YORK, March 23.—It was announced today that a movement had been begun among members of the theatrical profession in America to contribute to an Anglo-American testimonial to Ellen Terry, the actress, on the occasion of a jubilee planned on the fiftieth anniversary of her career as an actress. A banquet in honor of Miss Terry will be held in London on April 23, and a plan has been adopted in England of receiving subscriptions of a shilling each toward a testimonial.

To make it of an international character, Daniel Frohman, of the Lyceum Theatre, New York, has been appointed to receive subscriptions of 25 cents each. Members of every theatrical company in America have been given an opportunity to join in this tribute.

Kootenay Central Contract.

VANCOUVER, B. C., March 23.—The Canadian Pacific Railway has let a contract to the General Contract Company, of Vancouver, for the first 19 miles of the Kootenay Central Railway. The contract provides that this section of the road must be completed by May 1, in order to save the Dominion subsidy of \$60,000. The road is to run from Golden, following the valley of the Columbia River to Fort Steele, and will ultimately be extended to Wardner, on the Crown's Nest Pass Railway. The whole line from Golden to Wardner is expected to be in operation by August 1 next year.

Any one can take Carter's Little Liver Pills, they are so very small. No trouble to swallow. No pain or gripping after taking.

Why do they do this, if your inspectors
