PRIMARY LAWS IN SOUTH.

ALABAMA—The primary law has been extended to include United States senators, as well as state and county officials. The Legislature is instructed to vote for the candidate receiving the highest number of votes in the fall election.

GEORGIA—United States Senators are voted for at primary elections called by the Democratic State Committee. The Legislature is considered bound by the popular decision.

MISSISSIPPI—Members of the Legislature are bound to abide by the popular choice for United States Senator.

SOUTH CAROLINA—Dark horse has no chance. If at the primary election no candidate receives a majority, a second primary is called. The Legislature has power only to ratify the choice of United States Senator.

TEXAS—Election laws are so drafted that nobody understands them. The Democratic party primary is considered binding on the Legislature.

VIRGINIA—Primaries held at direction of the Democratic State Convention. A Republican Legislature if elected could elect a Republican United States Senator.

KENTUCKY—Primary law does not extend to United States Senator.

TENNESSEE—A "blanket primary" election is to be held this month. When the people will vote for senator at call of the Democratic executive committee. No law to govern choice of senator.

LOUISIANA—New primary law is under consideration.

ARKANSAS—United States Senator voted upon under resolution adopted by the Democratic State Convention.

OREGONIAN NEWS BUREAU.

Washington, April 1.—Investigation among a large number of Senators and Representatives discloses the fact that the direct primary of the South, as it applies to the selection of United States Senators, is very different from the Oregon primary to be tried for the first time this year.

There are many marked differences. The people of the South, where the primary is in vogue, are content to nominate their Senators, leaving the election entirely in the hands of the Legislature. In Oregon, as the new law is understood here, the people will attempt not only to nominate their Senators, but virtually to elect them along with their state ticket. This is the principal difference.

It is true, however, that most Southern States, where primary elections are held, are overwhelmingly Democratic and there is no actual contest for Senatorships between Democrats and Republicans. It is conceded in advance that a Democratic Senator will always be elected.

Oregon, on the other hand, is strongly Republican, but as an overwhelmingly Democratic State, there is a possibility of electing a Democratic Senator from Oregon; there is absolutely no possibility of electing a Republican Senator from the South.

Primaries for Democrats Only.

Another striking thing about the Southern primary is the fact that out of 11 states where the people vote at the primaries for United States Senator, only three have primary laws that apply to Senators, namely, Alabama, Mississippi and Florida. The other eight states hold primaries by direction of the Democratic State committee, or by authority of Democratic state conventions, and the primaries are confined to the Democratic party.

This means that in Alabama, Mississippi and Florida the Republicans can vote at the primary election for their candidate or candidate for Senator, but in the other Southern States the Republicans have no show. The effect is the same, it is true, but three states give the minority party an opportunity, if it cares to avail itself.

Kentucky, Georgia and Texas have primary laws for the nomination and virtual election of state officials, but the law in these states does not extend to United States Senators. In each of the states named the Democrats, by party sanction, vote for United States Senators at the primary election, just as they do in South Carolina, Virginia, Tennessee and Arkansas.

Louisiana is another state of this latter class, but the Louisiana Legislature is now endeavoring to frame some sort of primary law, and there is prospect that Louisiana may join the three states whose primary laws extend to the nomination of Senators.

It is the universal opinion of Southern men in Congress that the Southern primary comes as near the popular election

ARMED FORCE TO DRIVE OUT CASTRO

Venezuela Is to Be Opened to American Capital and Enterprise.

EXPEDITION FROM EUROPE

Five Thousand Volunteers With Guns and Ammunition to Be Carried in Three Large Steamships Now Under Charter.

NEW YORK, April 1.—The World tomorrow will be interested in the largest expedition in New York said last night that arrangements are being perfected here and in Paris for an invasion of Venezuela, which will annihilate Castro and open up the country to American capital and enterprise.

A number of rich New York merchants are said to be interested in the movement, which, the promoters declare, will involve the employment of 15,000 soldiers and the expenditure of \$5,000,000 in the campaign under which President Castro is to be either expelled or destroyed and a native Venezuelan statesman is to be installed as his successor.

In this connection it is said that Castro, anticipating a successful revolution against him sooner or later, has converted some of his alleged \$4,000,000 fortune into cash and has sent it to America and France.

Carlos E. Puigero, Venezuelan Consul in New York, said last night at his home that he had organized such an expedition was being organized or being promoted, but had been unable to learn anything definite about it. He said he had understood shares in the scheme were being sold.

"I would like to get hold of some of those shares," he said, "I will buy all that are offered."

The Consul inquired eagerly as to the point the expedition was to sail from. The expedition is to set out from Europe in three large steamships, which are already under contract. They are to carry about 3000 volunteers, with the following quantities of arms and ammunition: Eight thousand Mauser rifles of the latest pattern, 24,000 rounds of cartridges, 500 shells, 3 rapid guns, 500 army belts, 300 officers' swords, 500 officers' revolvers, 300 machetes and swords, together with other supplies.

SENATOR DEPEW A WRECK

HIDDEN ON THE SHEPARD ESTATE ON THE HUDSON.

Family Hopes That Complete Rest Will Restore His Rapidly Failing Health.

NEW YORK, April 1.—The Herald tomorrow will say: Promises that Senator Depew would return to his place of duty by this time have not been fulfilled, and the reason that hopes of his family for a complete restoration of his health have been disappointed. He is still in retirement on the Shepard estate, east of Carthage-on-Hudson, where he has been in seclusion for a month since he suddenly left Washington.

So closely is the Senator guarded that only a few persons living in the immediate neighborhood are able to say from their own knowledge that he is in the "villa," as the house is known, as extreme measures have been taken to check the rapid decline into which it has seemed for several months he has been falling.

If any employe on the Shepard place is questioned as to the Senator, he answers either with a well-simulated state of amazement or fully denies that he has ever heard a report as to the Senator's whereabouts. Here and there can be found one or two to admit having seen Mr. Depew. Every peasant day recently he has been taken for a ride in an automobile, and several times he has taken children of the neighborhood as companions. Except for caretakers, Senator Depew is practically alone on the 300-acre estate.

THE FALL OF DOWIE.

The wane of Dowie's power may be traced back to his spectacular invasion of New York, an experiment that cost him and his followers thousands of dollars and brought down upon them the ridicule of the Eastern press. No sooner had the community begun to revive from this blow than parous times fell upon Zion.

Dowie had branched out on too broad a scale; in the parance of the "miraculous" of the Eastern press, he could check. Notes for thousands of dollars were allowed to go to protest; Zion City industries, which, properly managed, would be highly lucrative, were badly crippled for lack of material; the people, already stripped of everything of value and denied work, or wages, for their toil, went hungry and the spirit of revolt was born.
