

TILLMAN BALKS RATE BILL

Court Review Amendment He Will Oppose on the Floor of the Senate.

PREFERS THE HOUSE BILL

Measure Approved by the President, He Declares, Will Operate to Nullify the Objects of the Legislature.

WASHINGTON, April 1.—Senator Tillman, who has charge of the rate bill in the Senate, said tonight he was not satisfied with the court review amendment measure which was agreed on yesterday between President Roosevelt, several Republican Senators who are supporting the bill and members of the Interstate Commerce Commission.

Senator Tillman declares the amendment does not meet the situation fully, inasmuch as it makes no provision setting forth practically that there shall be no suspension of the railway rate fixed by the Interstate Commerce Commission pending the judicial determination of any case which may be appealed from the rate established. This is a contention which Senator Tillman and a number of Democratic Senators have urged, as they argue that a failure to provide absolutely against a suspension of the rate operates to nullify the objects for which the legislature acted.

The proposed amendment was discussed generally today among groups of Democratic Senators, but there was no conference on the subject among them.

RATE BILL IN THE HOUSE

Amendments to Measure Receive Approval of the President.

WASHINGTON, April 1.—The railroad rate bill will continue the present work to receive the attention of the National Senate, to the exclusion of almost all other subjects. The bill will be taken up today as soon as the routine business is disposed of, and Senator Long will introduce the amendment agreed upon at the conference of friends of the bill with President Roosevelt last Saturday night.

Effect, all orders of the commission, except orders for the payment of money, shall be void within such reasonable time as shall be prescribed by the commission, and shall continue for such period of time, not exceeding two years, which shall be prescribed in the order of the commission, unless sooner set aside by the commission or suspended or set aside in a suit brought against the commission in the circuit court of the United States, sitting as a court of equity for the district wherein any carrier plaintiff in said suit has its principal operating office, and jurisdiction is hereby conferred upon the circuit court of the United States to hear and determine in any such suit whether the order complained of was beyond the authority of the commission, or in violation of the act of the carrier secured by the constitution.

Senators who took part in the conference believe that 20 Republicans and the entire minority will support this amendment. Should the expectation of the friends of the bill be realized, a vote upon the measure as a whole will be reached much earlier than was anticipated when the Senate adjourned Friday evening.

The bill for the final settlement of the affairs of the five civilized tribes of Indians will probably go back to conference during the week. Senator Clapp, who has charge of the measure, has already announced that he would withdraw the conference report, and it is understood that steps will be taken this week, provided Senator Patterson finds an opportunity to express his views on the subject. The withdrawal would have been made last week but for the Colorado Senator's desire to be heard.

The program for the week in the House of Representatives is rather short as to subjects, but will be full as to legislative work. Motions to suspend the rules and pass bills on the calendar will be in order today. Suspension day comes twice a month in the House, and there is always a full day's work to be done, as many minor measures which require but short consideration are disposed of under this order.

The bill placing the Federal Government in position to aid in the suppression of yellow fever epidemics has been made a special order for Tuesday. This bill carries an appropriation of \$500,000 and enlarges the powers of the Public Health and Marine Hospital Service to such an extent that co-operation between the Federal and state authorities may be had without infringing on the police powers of the state, render unnecessary the "shotgun" quarantine and put the Southern Seas States in position to repel the invasion of yellow fever from other shores.

Beginning Wednesday the postoffice appropriation bill will have the right of way throughout the week. It is not anticipated that the bill will be disposed of in this time, but Chairman Overstreet, who will have charge of the bill on the floor, provides that general debate on the bill will be completed by the end of the week.

WOULD BE REAL AMERICANS

Governor Winthrop Will Present Contention of Porto Ricans.

NEW YORK, April 1.—Governor Winthrop of Porto Rico, arrived here today from San Juan and proceeded at once to Washington, where he has been summoned by Secretary Taft to appear before the insular affairs committee of the House of Representatives in relation to Porto Rican questions. Governor Winthrop said he would endeavor to give the committee all the information it desires on the affairs of the island and on questions of public policy.

GAIN IN PRESTIGE

France Benefited by the Algeciras Conference.

GREAT TRADE WITH MEXICO

Relations With Republic on the South Are Very Close.

WASHINGTON, April 1.—A bulletin issued by the Department of Commerce and Labor shows that the trade of the United States with Mexico in the fiscal year ended in September 1905, was \$100,000,000, as compared with \$100,000,000 in 1904, and \$100,000,000 in 1903. No other country except Canada draws so large a percentage of its imports from the United States as Mexico.

WOMAN NOT MAN'S RIVAL

FATHER O'REILLY ADDRESSES COUNCIL OF WOMEN.

Influence From the Home Is Felt on the Progress of the World.

CENTRALIA, Wash., March 31.—(Special.)—R. W. Van Dyke, a well-known citizen of Centralia, died at his home in Centralia Wednesday night. He was born in Pontiac, Mich., December 8, 1855, and was married to Miss Frances Bennett, of Manhattan, Kan., in 1882. He came to Washington in 1885, and was for a time a resident of Tacoma, Wash., as an assistant superintendent of the electric light plant. In 1886 he secured a contract for carrying the mail between the depot and the Centralia postoffice, and in connection with this handled all the Puget Sound and Portland daily papers. His health, however, in the course of time, grew so feeble that he was unable to handle the mail, and he was then transferred to the Northern Pacific depot when the train was in.

On the other hand, it is thought that Germany's desire to internationalize Mexico was partly realized, as the Franco-Spanish policy is subordinate to an American policy which will report to the diplomatic corps. Thus both countries in a measure were successful, but each is safeguarded, and neither will be able to claim a victory.

ASKS FOR LARGE DAMAGES

Ohio Man Writes President Demand for \$500,000.

WASHINGTON, April 1.—(Special.)—The President has received a letter of 20 closely-written pages from O. J. Markell, of Orville, O., who threatens to sue the Government at once if he is not paid \$500,000 for the blighting of his wheat by the literary prospects through various persecutions.

OUTBREAK PURELY LOCAL

Opinion of Japanese Premier on Trouble in China.

LONDON, April 2.—The Daily Telegraph's Tokyo correspondent says that Premier Saionji, in an interview granted the Kobe Herald, regarded the outbreak in China as purely local and not indicative of any general revolution in the councils of the governing authorities.

Love of Home in the Horse.

The strongest instinct in the horse is that of home—all his thoughts and interests are there—and the most wearing pain he suffers is that of nostalgia—the longing for the familiar and the loved surroundings. What wonder that our pet animals invariably return to us from such unhappy experiences mere shadows of their former selves, and in such wretched bodily condition that it is months before they regain their usual health and spirits. We blame the man in charge, post feed, and overlook entirely the fact that it is our own fault, and the direct result of heart-bunger which he knows, grain or root-feeding could entirely assure. Of course the little-used muscles have, from lack of exercise, atrophied and lost their firmness and plumpness; the crest has fallen from the same cause, heavy limbs appear in the quarters and shoulders; the tail and ears are all out of shape, or all worn away; the feet stubbed off; the coat dingy and the skin full of all manner of sores, cuts and abrasions; all these are the effect, not the cause, of the lack of bodily condition which is two-thirds due to poverty and solely, in the high-bred, nervous sensitive horse, to simple homesickness.

No Trace of Demented Farmer.

OREGON CITY, Or., March 22.—(Special.)—No trace whatever has been found of John Heinrich, the demented farmer, who disappeared two weeks ago from his farm near Clackamas. Heinrich has been seen near Logan and near the Clackamas River, within a few hours after leaving his home. He completely disappears when that time leads to the belief that he drowned himself in the Clackamas River.

AMBUSHED BY HOTTENTOTS

German Patrol Suffers a Loss of Ten Men.

MINERS NOT LONG DEAD

Discovery of Eight More Bodies Made in France.

LENZ, France, April 2.—(Special.)—The inhabitants have again been thrown into a state of excitement, owing to the discovery of eight additional bodies in the mine where the explosion recently occurred. An examination showed that the miners had not been dead very long. Deputy Beatty, of the House of Deputies, has made a sensational statement, in which he accuses the company of paying more attention to saving of its property than to rescuing of imprisoned miners. He declares that if the efforts of rescue had been made sooner a number of the miners could have been saved.

CLIFF SLIDES INTO RIVER

COLUMBIA IS DAMMED BY MASS FOR TWO HOURS.

Cabin of Homesteader Is Swept Into Stream and Its Owner Is Injured.

MILES, Wash., April 1.—(Special.)—The Black Hole Cliff, containing 100 acres of land, heavily timbered, slid into the Columbia River on Thursday afternoon. The slide occurred at China Rapids, six miles south of Jerome, on the Colville Reservation, where a similar slide took place on June 21.

CAUGHT IN THE ELEVATOR

Bay City Man Compelled to Suffer Great Torture.

SAN FRANCISCO, April 1.—John C. Hooker, bookkeeper for the Cox Seed Company, has escaped a very serious accident today. He visited the office this afternoon to secure the mail, and went up to the fourth story of the building. He concluded to descend in the elevator, and entering the cage, pulled the rope to go down. He selected the wrong rope, and when the cage started to rise he became alarmed and tried to jump out, but was caught against the ceiling, with the upper part of his body protruding.

MURDERED HIS STEPFATHER

Colored Youth Held Him Responsible for Mother's Broken Leg.

FRESNO, Cal., April 1.—Green Walker, colored, shot and killed his stepfather, Walter Phillips, tonight, near Fowler, firing three shots into his breast. Walker, upon returning to the family cabin on the Van Wormer ranch, learned that his mother had sustained a fracture of the leg. Immediately upon entering the room where she lay in pain, he drew his revolver and killed her by a single bullet in the presence of a number of people who were standing about the bed.

FIRE IN THE MARIAN BLOCK

Spokane Property Is Damaged to the Extent of About \$35,000.

SPOKANE, Wash., April 1.—Fire in the Marian block, part of the Tull estate, which has been in litigation for years, caused damage of between \$20,000 and \$40,000. The stock of the Allen Shoe Company suffered two-thirds of the loss. In the block is the Cineograph Theater, a 20-cent show, which was crowded with spectators when the alarm was turned in. The manager discovered smoke coming from the basement and ordered the curtain run down in the middle of a comedian's turn, and the audience fled out in great order, unconcerned of the danger.

INDIGNANT AT BRUYS BERTHREN WHO REFUSE TO QUIT WORK

LENS, France, April 1.—The striking coalminers of this district were comparatively calm today. There is, however, growing indignation among the miners, who continue working, notwithstanding the threats of violence. The troops have been reinforced in that vicinity in order to prevent collisions, but no display of force has been made.

SACRAMENTO DYKE HOLDS

Danger From the Flood Is Believed to Have Passed.

SACRAMENTO, Cal., April 1.—The crest of the flood of the Sacramento River passed this city today, the maximum being 100 feet. At a late hour tonight the dykes on both sides of the river down to Isleton are intact. It is believed in this city that the danger of a break is practically over.

NEWTON IS CHAMPION GOLFER

SAN FRANCISCO, April 1.—F. C. Newton, of the Claim Court Club, of Oakland, today won the championship of the Pacific Coast Golfers' Association. He easily defeated Dr. J. R. Clark of the San Francisco Golf and Country Club, by the score of 9 up 1 to play.

DEATH OF MRS. HELEN RALPH

ASHELAND, Or., April 1.—(Special.)—Mrs. Helen Ralph, an old and highly respected resident of Ashland, died here last night, aged 71 years.

HORRID RED STAMP

High Society Clamors for Harmony in Color.

DISPLEASES CULTURED EYE

Determined to Have Colors Suited to Tinted Stationery, Society Uses Costly Stamps of Favorite Colors on Letters.

WASHINGTON, March 23.—Fashionable circles in New York, Philadelphia, Cincinnati and other great centers cannot understand the stubbornness of the Postmaster-General in declining to yield to a demand almost unanimous of the cultured eye to print in red, does not move the leaders in society. They are wholly indifferent to this decree from Berner; they care not for postal unions or domestic regulations, but they know one thing, and that is that they are weary of the bold, red stamp bearing the calm features of the "Father of His Country."

WANTS HARMONY IN COLORS

What could possibly be more incongruous and displeasing to the cultured eye than an envelope of a delicate lavender shade, addressed in a delicate script, and bearing in the upper right corner a flaring red stamp? remarked a lady who is enrolled in the upper-class, a few days since, upon an envelope of pure white stamped with a variety of pink shade would not be objectionable. In fact, the effect is pleasing, and everybody does not care to use white stationery continually; and, if there is no delicate pink shade stamp to use—nothing but that dark, red stamp," continued the lady.

DEMANDS OF HIGH SOCIETY

The Postoffice Department officials are constantly in receipt of letters from people, urging the issue of stamps in this color and that, including a special black stamp of the value of 2 cents for use upon black-bordered envelopes. The officials have tried in vain to figure out how the "mourning stamp" can be provided, but the plan has been declared impracticable.

TABOO HORRID RED STAMPS

At present in the ultra-fashionable set the ordinary 3-cent stamp is tabooed, and the 2-cent stamp, which is printed in a light purple shade, is the favorite, especially since lavender stationery is having a run just now. For bluish envelopes it is necessary to use the 5-cent stamp, and for brownish paper the 4-cent stamp is necessary, these stamps corresponding in color to the paper used for a better assortment of postage stamps is becoming louder and louder.

PURE BLOOD

Northern Turnpike from Pittsburg eastward, via Harrington, Eberburg, Holladay, Huntington and down the Juniata Valley to Harrisburg, and on to Lancaster, may be taken up after the main road is completed. The estimated cost of this main state highway is \$10,000 per mile, or a total of \$2,000,000, three-fourths of which would be furnished by the state, and the remainder distributed among the counties.

FISH THAT TRAVEL ON LAND.

Detroit News. "In South America," said the returned traveler, "there is a peculiar species of fish which is provided with a set of embryonic limbs on which it is at times able to hop across the fields and even to climb trees. I believe that is the only instance known of fishes that can travel overland."

TELEPHONE OWNED BY CITY.

Electrical World. The legislation committee of the Toronto City Council has recommended that the Council petition the Dominion Parliament for permission to take over the telephone business of the province and operate the same. It is said that the City of Toronto has already lost \$250,000 in the past ten years by not accepting an offer that was made at that time by the Bell Company. The opinion seems to prevail that the city should either go into government ownership or make a contract with the existing company.
