Printers Accuse Methodists of Many Misdeeds.

PRINTING UNHOLY THINGS

Boycotted Book Concern Alleged to Have Set Type for Whisky Advertising and Shaw's Defense of Obscene Play.

NEW YORK, April 5.—Difficulties between the Methodist Book Concern of this city and Typographical Union, No. 6, were discussed at the session of the New York Ecumenical conference of the Methodist Episcopal Church in Brooklyn. It was precipitated by circulars which were distributed at the door of the church where the conference was in session by the defense committee of the union.

The circular told of the union's view of the recent printers' strike, and said that the composers of the Methodist Book Concern had set type for advertisements for whisky. It also was charged in the circular that "The Author's Apology," a defense by George Bernard Shaw, "Mrs. Warren's Profession," the production of which at a New York theater was stopped by the police, was printed from plates made at the Methodist Book Concern.

Rev. Homer Eaton, one of the managing clergymen of the Book Concern, addressing the conference on the statements made in the circular said: "There is a young man leaning against the street lamp outside the door. I do not know whether he is drunk or not, but he thrusts under the face of every person who passes his or her way to this church a pamphlet in which Brother Shaw and myself are charged with all sorts of abominable crimes. My brethren, to know that we are two loyal Methodist clergymen and nothing has been printed in our shop unless it was pure, wholesome and uplifting. When such accusations as these are made, I want that you should stand by me. If anything improper was printed in the office of the Book Concern, neither Mr. Shaw nor myself know anything of it."

DYNAMITING IN LETHBRIDGE

Striking Miners Fight Police, Rescue Prisoner, Blow Up Houses.

GREAT FALLS, Mont., April 5.—According to a special to the Tribune from Lethbridge, Alberta, serious disturbances have occurred between the striking coal miners there and the police. Late last evening a wrangle occurred between non-union and union men. The mounted police, who have been maintaining order there since the strike started, attempted to restore order. They arrested one union man, but were immediately surrounded by sympathizers to the number of over 200. Many members of the women and children. There were only about a dozen policemen present, and an immediate call was sent to the barracks for assistance. Meantime a hand-to-hand encounter raged, in which sticks and stones were used. The prisoner was taken from the police, and one of the latter, Constable Fitzgerald, was seriously injured by a stone. His head was laid open, and he was rendered unconscious, but the injury is not believed to be fatal. Later in the night a dynamite outrage was perpetrated upon the house of Joseph Groe, a non-union miner. The house was completely wrecked and windows in adjacent houses were broken, but no one was seriously injured. About an hour later a second explosion occurred at the house of Stephen Ungary, but little damage was done except in broken glass. About 1 o'clock this morning the Lethbridge house was discovered on fire, and the police started attempting to extinguish it. It is felt that the present force is inadequate to handle the situation.

SENATE BOILS, THEN COOLS

prophesies. If this amendment proposed by the President, through the Senator from Kansas, contains anything the railroads do not want, it will require the signature of a lawyer as a vouching and obliging as the present Attorney-General, who has "kissed" the amendment. The proposal of that amendment was a triumph for the senator from Rhode Island (Aldrich) and his party supporters. But it affords a sad and somewhat exasperating example of the way in which the President's policy is carried out. However, it is only another instance of our mighty man of destiny and duty backing away, after one of his spectacular grandstand performances, to his normal, ordinary, but we have no reason to be surprised.

DEFECTS IN PRIMARY LAW

(Continued From Page 1.)

strong support from the element that is interested in the betterment of political conditions as well as the former one.

Must Postpone Primaries.

Complications throughout the state have arisen from the overthrow of the primary act, and the political situation is highly complex. Republican and Democratic spokesmen have urged the postponement of the election of April 23, under the law for the selection of Congressional, Legislative and county candidates. These will be postponed by the Republicans to a date that may be determined later, when the outcome of the special session becomes evident. As the old law is in force, primaries may be held between May 1 and September 30 by either of the parties.

While the date of the primaries is still up in the air and the Legislators are still working over the new law, the contest over the United States Senatorship between ex-Governor Richard Yates and Senator Shelby M. Culbert will be for the time being come to a standstill. Mr. Yates will continue to hold the meeting in Cook County already announced and advertised, but the remainder of his schedule probably will be postponed until the situation becomes more tangible and the time of the primaries becomes more definite.

Socialists Made Test.

The test of the law was brought about by the Socialists. The chief objection to it was the clause which provided that a man, having voted at one party primary, was bound to vote with that party for two years thereafter. This practically made possible two great political machines. The rule applied only to Chicago, and was framed to prevent one party from packing the primaries of its rival and stampeding them. In the state districts a man could change his politics at every primary by a simple declaration.

Blunder by Supreme Court.

One serious error has been found in the opinion handed down today. "To protect the rights of the relation says the opinion, 'the court fixes the date for the Socialist primaries for April 23 next,' which is a violation of the primary election law of 1901, which the court holds in the same opinion shall stand. The law of 1901 provides that primaries for the same election shall be held in May, June, July or August, and that primaries for the Spring election shall be held not later than March. No provision whatever is made for the holding of primaries in April. The Supreme Court adjourned this afternoon until next Wednesday, and all of the Justices had left the city before the error in the date fixed for the Socialist primaries was found."

dreamed of committing any impropriety in his statement, because he did not see any reason why Senators should not confer on this subject with men who are experts on the subject; indeed, he considered it unfortunate that the railroad officials were devoting their time and resources to an effort to influence public opinion against legislation instead of co-operation in framing a proper measure. He said the railroads had spent \$2,000,000 in their efforts to antagonize the legislation. He did not believe that a Senator's right to confer with the railroad men should be questioned; no more did he believe that Senators who confer with the President of the United States should be made the subject of ridicule.

Insurance Bills Are Advanced Through Senate.

ALBANY, N. Y., April 5.—The bills proposed by the special investigating committee passed another stage of their progress today toward the ratification books in the Senate committee of the whole. Of the bills introduced by the committee (originally ten, but since consolidated into seven), four have passed the Assembly, and are at the stage of third reading or final passage in the Senate on the way to the Governor. These are the bills designed:

ALBANY, N. Y., April 5.—The bills proposed by the special investigating committee passed another stage of their progress today toward the ratification books in the Senate committee of the whole. These are the bills designed:

Must Go Back to Lower House.

A fifth, the bill further penalizing falsification or omission of material matters in the books and records of corporations, has passed the Assembly, but was amended in the Senate today in a comparatively unimportant particular, and, although the other bills are pending, pending reading, if the Senate adopts this amendment the bill must return to the Assembly for concurrence.

Question as to Immunity.

The seventh bill, that forbidding campaign contributions by corporations, was temporarily laid on the table today with the consent of its sponsor, pending consultation of the committee tonight with its counsel, Charles E. Hughes, as to the suggestion that the bill was unconstitutional in its provision relating to immunity of witnesses testifying as to their participation in the forbidden contributions. The corresponding Senate bill was among those advanced in the Senate today to third reading.

Several typographical errors in the bills, which require their reprinting, will probably delay the complete battery of the Senate until Tuesday or Wednesday of next week.

OREGONIAN NEWS BUREAU

WASHINGTON, April 5.—The War Department today notified Senator Fulton that it would supply the full equipment for the complete battery of artillery of the Oregon National Guard, including four guns of the latest design and six caissons. These guns are being manufactured on Government order, and it is believed can be delivered within six months.

WASHINGTON, APRIL 5.—A call for a Democratic conference has been circulated on the floor of the Senate today, but thus far not a sufficient number of signatures has been obtained. The call mentions railroad rate legislation as the business to be considered. It is understood that the conference will be held soon at the Senator Aldrich's apartments in Washington, which probably will be on Tuesday. Mr. Bailey's amendment to provide against suspensions or orders of the Commission, it is said, is the feature likely to be urged on the minority if party action is deemed advisable.

Urged to Pass Philippine Bill.

NEW YORK, April 5.—The New York Chamber of Commerce adopted a resolution urging the Senate to pass the Philippine tariff legislation as promptly and favorably as possible. The Senate committee recently declined to report. Concerning it, the resolution states:

MARRIED WOMEN

Every woman covets a shapely, pretty figure, and many of them deplore the loss of their girlish forms after marriage. The bearing of children is often destructive to the mother's shapeliness. All of this can be avoided, however, by the use of Mother's Friend before baby comes, as this great liniment always prepares the body for the strain upon it, and preserves the symmetry of her form. Mother's Friend overcomes all the danger of child-birth, and carries the expectant mother safely through this critical period without pain. It is woman's greatest blessing. Thousands gratefully tell of the benefit and relief derived from the use of this wonderful remedy. Sold by all druggists at \$1.00 per bottle. Our little book, telling all about this liniment, will be sent free.
