# NOT A PATENT MEDICINE Favorite Prescription of Dr. Pierce

FOR THE DISEASES OF WOMEN ONLY.

HOR forty years Dr. Pierce's Favorite Prescription has been more generally sold than any other medicine prescribed for woman's ills. Dr. Pierce tells you just what is contained in this marvelous remedy for the diseases peculiar to women. There is not a particle of alcohol or injurious drug in this prescription. Pure, triple-refined glycerine is used for a solvent and preservative instead of alcohol. Ask your physician if any one of the following ingredients which are contained in this prescription are injurious. We guarantee that no harmful results can follow the use of this cure for those distressing and painful complaints from which women suffer at one time or another. The ingredients are : Golden Seal root, Lady's Slipper root, Black Cohosh root, Unicorn root, Blue Cohosh root, chemically pure Glycerine.

The active medicinal principles of the several ingredients, or native American roots employed, are extracted by the use of glycerine of proper strength and with the aid of special apparatus and appliances devised and built especially for carrying on the delicate and exact processes employed. These processes cost Dr. Pierce and his assistant chemists and pharmacists much study and a long series of tedious experiments, extending over a period of several years, and finally resulted in an almost perfect pharmaceutical compound - now known as Dr. Pierce's Favorite Prescription.

There are good and substantial reasons why intelligent people and physicians as well, employ Dr. Pierce's Favorite Prescription for the cure of diseases and weakness peculiar to women.

In the first place, it is not a cure-all, serving only a singleness of purpose, being a specific for one class of diseases only-those peculiar weaknesses and maladies incident to women. Besides it is the only medicine put up for sale through druggists for the cure of such maladies, all the ingredients of which have the endorsement of leading medical practitioners and writers, as being the very best known remedies

ical practitioners and writers, as being the very best known remedies for the ailments for which "Favorite Prescription" is advised. With other medicines the afflicted have only their makers' word for their efficacy. With Dr. Pierce's medicines they have the disinter-ested endorsement of scores of eminent medical practitioners and med-ical writers of wide renown. These numerous unqualified endorse-ments, from men whose writings are regarded as authorities in each of the several schools of medicine, are the more valuable because they were written without any knowledge on the part of the several writers that they were extolling the curative virtues of ingredients that go to make up Dr. Pierce's world-famed medicines. Dr. Pierce's Family Med-icines, therefore STAND ALONE in respect to being the only ones promake up Dr. Pierce's world-famed medicines. Dr. Pierce's Family Med-icines, therefore STAND ALONE in respect to being the only ones pro-fessionally endorsed as remedies, or cures, for the several diseases for which they are recommended. A glance at the published ingredients will show that no narcotics or other harmful agents are employed; that no alcohol enters into their composition; that they are made of the hol, chemically pure glycerine, of proper strength is used, both for ex-tracting and preserving the medicinal principles residing in the several roots employed.

# WELCOME WORDS TO WOMEN.

From the view point of the average man honsework is very easy. The wife is right at home. She is her own mis-tress. She can sit down and rost any time. She can sit down and rost any if she feels like it. She can order her honsehold affairs just to suit her own convenience. If she doesn't feel equal to doing work to-day, she can do it to-morrow. That's the beautiful theory of the average man. Just suppose the Egyptian task-mas-ters, when they made the required daily tale of bricks tax the uttermost of human strength, had said to the

And oh! how much that wom

made of native roots-Nature's own restoratives, compounded after a form-ula concerning which there can be no question, by skilled chemists and by thoroughly scientific processes. Doctor Pierce is perfectly willing to let every one know that his "Favoartre Paz-scaurrnos" contains Blue Cohosh root, Lady's Slipper root, Unicorn root, Black Cohosh root and Golden Seal root. Every doctor knows that such a pre-scription is beneficial in the diseases of women and when properly com-pounded is certain to effect a cure in nearly all cases when given a fair trial.

daily tale of bricks tax the uttermost of human strength, had said to the toiling slaves, "Don't hurry, take a rest every now and then - only don't forget that your tale of bricks must be all right at night or else there'll be trouble." There's the fact. There are the day's duties to be got through, and the woman, who, when she married, said, "Now, I'll be my own mistress," finds herself a elave to household cares and duties.

of women and when properly com-pounded is certain to effect a cure in nearly all cases when given a fair trial. Every bottle of the "Favoarra Pan-scaurros" which leaves Dr. Pierce's immense laboratories in Buffalo, N. Y., has plainly printed upon its wrapper all the ingredients of which it is com-posed. Thus Dr. Pierce proves to the world his own confidence in the rem-edy which for forty years has borne his name and which is known all through the United States and Canada, England, Australia, and in parts of South America, Africa and Asis, as a sovereign cure for those diseases which, unchecked, make our women old be-fore their time.

And only now much that woman needs rest sometimes. She brushes and scrubs, and rolls pastry, her temples throbbing, her back aching, her nerves quivering under the stress of pain. What she would give if she could just creep upstairs and throw herself on the bed in a darkened room and rest. Rest would temporarily relieve the strain, doubtless, but it would be the

sovereign cure for those diseases which, unchecked, make our women old be-fore their time. It will be noticed that there is no alcohol in the "FAVORITE PRESCRIP-tion." Dr. Pierce never believed in using alcohol in the preparation of his famous household remedies. For it, he substitutes chemically pure glycerine, which has wonderful properties for ex-tracting the medicinal principles of roots and preserving them at their full strength, without any deleterious effect where we want their full composition, giving every ingredient in plain Es-glish, without fear of successful criti-cism and with confidence that the good sense of the afflicted will lead them to appreciate this honorable man-ner of confiding to them what they are taking into their stomachs when mak-ing use of the afflicted will lead them to appreciate this honorable man-ner of confiding to them what they are taking into their stomachs when mak-ing use of the afflicted will lead them to appreciate this honorable man-ner de confiding to them what they are take the afflicted into his full confi-dence and lay all the ingredients of his medicines freely before them be-cause these ingredients are such as are endorsed and most strongly praised by scores of the most eminent medical writers of all the several schools of practice as cures for the diseases for which these medicines are recom-mended. Type of the several schools of practice as cures for the diseases for which these medicines are recom-mended. strain, doubtiess, but it would be the same story over again to-morrow. The real need of weak, nervous women is strength, and that need is fully met and satisfied by Dr. Pierce's Favorite Prescription. It makes weak women strong and sick women well. It re-moves the causes of women's weak-ness, tranquilizes and invigorates the nerves, encourages the appetite and induces restful sleep. "Favorite Pre-scription" is a positive cure for the most complicated and obstinate cases of leucorrhea, excessive flowing, pain-ful menstruation, unnatural suppres-sions and irregularities, prolapsus or falling of the womeh, weak back, "female weakness," anteversion, retroversion,

on request. Prof. Ellingwood, M. D., of Bennets College, Chicago, says of Golden Seal: "In its therapsutic (remedial) influence its widest range of action is upon the stomach, in functional disorders of that organ, where the entire apparatus, includ-ing the liver is stagmant and inoperative. It is a most superior remedy in catarrhal gastritis (inflammation of the stomach), chronic constipation, general debility, in convalescence from protracted fevers, in postrating night-sweats. It is can im-portant remody in disorders possition to unome. In all catarrhal conditions, espe-cially if there be muscular relaxation and general enfectiement, it is useful."

general enfectiement, it is useful." Edwin M. Hale, M. D., Professor of Materia Medica, at Hahnemann Medical College, Chicago, states in regard to Golden Seal (Hydrastis): "In relation to its general effects on the system, there is no medicine in use about which there is no medicine in use about which there is such general unanimity of opinion. It is sunformally regarded as the tonic useful in all dobilitated states."

From the foregoing extracts it will be een that Golden Seal root is a very effi-

cent curative agent in most of the weak-

nesses and allments affecting the organs pecultarly feminine.

peculiarly feminine. Prof. John M. Scudder says of Lady's Slipper root (Cypripedium Pubescens): "This root is valuable in all cases of nerv-ous excitability or irritability unconnected with organic lesions, allaying the irritabil-ity, lessening any accompanying pain, producing a calm and cheerful condition of the body and mind, and consequently favoring mental tranquility, or sleep. Hence it has been of service in hysteria, chorea, nervous hendaches, ucakfulness and prostrution in low frezers, and, indeed, in all cases of morbid irritability of the nervous system, from functional derange-ment or reflex irritation. It will be found very efficient in the nervourness hyp-ochondria, or mental depression accom-panying certain forms of derangement of the digestive organs, which is more gen-erally mot with among females." Prof. John King, in the American Dis-

erally met with among females." Prof. John King, in the American Dis-pensatory says of Black Cohosh root (Cimicifuga Racemosa): "This is a very active, powerful and useful remedy, and appears to fulfill a great number of indi-cations. It possesses an undoubted in-fluence over the nervous system. In small doses the appetite and digestion are improved. Plays a very important part in the therapeutics of Gynæcology (dis-cases of women). In the painful con-ditions, its remedial action is fully dis-played. By its special affinity for the semale organs, it is an efficient agent and it is surpassed by no other drug, being of greatest utility in irritative and conges-tive conditions of the appendages, char-acterized by tensive, dragging pains, resembling the pains of rheumatism. It is a good remedy for the reflex 'sideache.'' Dr. John Fyfe, of Saugatuck, Conn.

Dr. John Fyfe, of Saugatuck, Conn., Editor Department of Therapeutics in The Eclectic Review says of Unicorn root (Helonias Diolca) one of the chief ingredi-ents of Dr. Pierce's Favorite Prescription: \*A remedy which invariably acts as a uterine invigorator and always favors a condition which makes for normal acti-vity of the entire reproductive system, cannot fall to be of great usefulness and of the upmost importance to the general practitioner of medicine.

"In Unicorn root we have a medicament which more fully answers the above purposes than any other drug with tchich I am acquainted. In the treatment of diseases peculiar to women it is seldom that a case is seen which does not present some indication for this remedial agent."

For weak and sickly women, who are "worn-out," "run-down," or dehilitated. especially for women who work in store, office, or school-room, who sit at the typewriter or sewing machine, or bear heavy household burdens, Dr. Pierce's Favorite Prescription will prove a priceless benefit because of its health-restoring and strength-giving power.

#### AS A SOOTHING AND STRENGTHENING NERVINE.

"Favorite Prescription" is unequaled and is invaluable in allaying and subduing nervous excitability, irritability, nervous exhaustion, nervous prostration, neuralgia, hysteria, spasms, chorea, or St. Vitus's dance, and other distressing nervous symptoms commonly attendant upon functional and organic disease of the organs distinctly feminine. It induces refreshing sleep and relieves mental, anxiety and despondency.

### CURES OBSTINATE CASES.

"Favorite Prescription" is a positive cure for the most complicated and obstinate cases of leucorrhea, excessive flowing, painful periods, unnatural sup-pressions and irregularities, prolapsus or falling of the pelvic organs, weak back, "female weakness," anteversion, retroversion, bearing-down sensations, chronic congestion, inflammation and ulceration of the uterus, inflammation, pain and tenderness over the ovaries and kindred ailments.

#### FREE CONSULTATION

An invitation is extended by Dr. Pierce to every sick and ailing woman to consult him by letter. There is absolutely no charge or fee for this consult Every letter is carefully considered, fully answered, and its statements held as strictly private and sacredly confidential. Address Dr. R.V. Pierce, Buffalo, N.Y.

#### THE BADGE OF HONESTY.

Each bottle of the above medicine bears upon its wrapper a badge of honesty in the full list of ingredients composing it-printed in plain English. This frank and open publicity places this medicine in a class all by itself. It cannot be classed as a patent nor secret medicine for it is neither-being of known commition

#### Several Others Killed.

BUTTE, April 9-A special to the Miner from Billings says:

For three days reports, meager in their details, have reached this city concerning the wreck of Burlington passenger train No. 41, wentbound, which is said to have occurred on the main line, about 100 miles west of Lincoln, Neh., early Friday morning. The local railroad men profess to have no information concerning the catastrophe. It was learned today, however, from a man who was a passenger on the fill-fated train that the wreck occurred at broke the point above named According to this passenger's story, the

train was proceeding at its usual rate of speed, when suddenly the ralls spread and eight of the coaches went in the ditch. He also says that, while the rall-road suitorities reported no one killed, to his knowledge two men who were ridditteh. ing in the seat in front of him were stantly killed, one of them having a tim ber run entirely through his body, an and has reason to believe that at least erveral persons met their death and ma ir jured, as the train was heavily laden with passengers.

also stated that, when the conches piled up in a confused heap, fire broke out, and the train, instead of reaching Billings at 7:00 A. M. Saturday, did not arrive until 2:00 Sonday merning.
