MAJOR'S LIFE THREATENED

Patrol to Drive Off Intruders Has Been Kept Up Night and Day. Superintendent Would Have

Tribesmen Relieved.

PENDLETON, Or., April 11.-(Special)-Major O. C. Edwards, superintendent of the Umatilla reservation has sent for a troop of cavalry from Fort Walla Walla. Trouble on the Umatilla reservation has reached a crisis, and preventative measures are being

Major Edwards says he has asked for the cavalry to protect the Indians from the invading stockmen, and also the stockmen from the Indians. It is currently believed, since the petition filed by the Indians asking for the removal of Major Edwards and practically threatening that his death may follow the failure to remove him, that the call for troops has been made in order to show the Indians that Edwards has the Government behind him.

The stockmen are causing much trouble by attempting to cross the res ervation with their stock under cover of darkness. This has been brought about by the order from Washington. since rescinded, permitting one stockman, John Todd, to cross with 100 head of cattle. Now all stockmen are at tempting to cross.

The Indians resent this and to prevent a clash Major Edwards and his Indian police are patrolling the reservation night and day. Even the larger students at the agency school have been pressed into service.

Being asked by the department if he needed any assistance, Major Edwards asked for a troop of cavalry, to aid in the patrol and relieve his weary men. Upon the arrival of the troops it is expected that quiet will again be restored, and that the Indians who are opposed to Major Edwards will be good

DIRECT APPEAL TO PRESIDENT

Fulton Asks Right of Way for Sheep Through Umatilla Land.

OREGONIAN NEWS BUREAU, Wash-OREGONIAN NEWS BURBAU, Washington, April ti.—Senator Pulton today appealed directly to the President in behalf of the stockmen of Umatilla County, who are foroidden to cross the Umatilla Indian reservation with their flocks, on their way to or from the Summer range. Secretary Hitchcock ruled that his department will do nothing to secure this right unless it is with the full voluntary consent of the Indians. Secretary Isan P. Smyse, of the Umatilla Woolgrowers' Association, reports that there is no hope of getting the Indians to agree upon any reasonable upon any reasonable

In making the appeal, Mr. Fulton called dent might intervene to establish a right of way for a highway or railroad across indian land when the public interest re-quired. Mr. Fullon shows that the route across is but 15 miles long, whereas a tour of 80 miles is requisite to reach the Sumof 80 miles is requisite to reach the Sum-mer range when avoiding the reservation. Peculiar local conditions make this de-tour almost impracticable. If stockmen try another alternative, shipment by rail-way is all that is left them, and the price s practically prohibitive. More than 100,-200 head of stock would naturally take the route across the reservation, which the Senator argues is sufficiently a public interest for the President to exercise the power preserved by the treaty. Stockmen agree to take Indian police with them while on the reservation, paying the In-dians. Every assurance is given against of the privilege. Senator recalls the fact that abso

Searching Forms Prepared by Tax Commission.

MANY FEATURES

Effort to Be Made to Force Severa Classes of Corporations to Pay a Just Share of the Public Dues.

OLYMPIA. April II.—(Special.)—it is probable that among the bills to be pre-pared by the State Tax Commission and submitted to the next Legislature will be one or more to enable Assessors more easily and certainly to reach the property and assets of corporations for purposes of taxation. The necessity for additional legislation on this subject is fell by mom-bers of the Tax Commission and by As-

Persons as well.

It is alleged that several classes of corporations have escaped a large share of just taxation in this state in the past, and that the necessity of more rigid laws on this subject will be amply demonstrated to the Legislature. The Tax Commission has endeavored to meet the situation as far as possible under present laws, by the preparation of new blanks which will be sent to County Assessors for use this year.

year.

These blanks are three in number, designated as Tax Commission forms 5, 6 and 7. Form 5 is a schedule for the assessment of gas and water companies, form 5 for the assessment of telephone companies, and form 7 for the assessment of electric and cable street rallways, and electric licht and rower companies.

electric and cable street rallways, and electric light and power companies.

All three forms have the line "value of franchise" conspicuously displayed, and if the blank space following it is not filled out by the corporation making the return, the Assessor is instructed to fix the value of the franchise himself. In addition to this, the forms are much more comprehensive than anything of the kind heretofore used in this state, and it is expected they will result in showing a very great increase in the valuation of property sensesed to such corporations this year as compared with returns for any previous year.

The schedule for the assessment of gas and water companies calls for full information about the franchise, as to date granted, term of years, powers and privileges conferred by, etc. Returns must be made on the amount of capital stock, number and par value of shares, amount of capital stock paid in, amount of bonds, morigages or other evidence of indebtedness outstanding, total cash value of all tangible personal property, gross receipts from all sources for the year, gross receipts from all sources for the year, gross receipts from all sources for the year, gross receipts from consumers and from other sources, total disbursements for the year, segregated into operating expenses, extension of service, interest, repairs and betterments, real estate, and dividends and profits; average number of patrons served, amount of municipal franchise tax, if any; amount of gas or water supplied to the municipality and revenues derived therefrom; capacity of reservoirs or storage tanks, amount of insurance carried, etc. Pollowing this is a blank for making detailed returns of property, fully itemized, comprising the plant, each item to be separately listed and valued.

The schedule for the assessment of telephone companies is likewise very comprehensive, and is entirely new to this state. In addition to demanding full information regarding franchise privileges and grants, it calls for the number of telephones furnished free in any city or town; monthly rate for telephones of the different The schedule for the assessment of ga

The schedule for assessment of street delivery outfits, etc.

The schedule for assessment of street railways and power plants is likewise practically original for this year. In addition to the questions about franchises, information is demanded from electric railways about the number of miles of tracks of all kinds; number and kinds of passenger cars electrically equipped; number of passenger trailer cars not electrically equipped; number of freight cars of all classes and miscellaneous equipment.

Separate questions of a similar nature are propounded covering cable railways. Steam power stations and distribution systems are likewise required to be itemized as to property comprising the plant.

Water-power plants and transmission lines are each given a separate space for making returns. They must show the coaracter and value of the headworks or intake: the forebay or reservoir; water-wheels water-gates, generators, transformers, wiring, lights, etc. All are required to list surplus equipment on hand, this entire schedule having a total of sequestions to be answered. OLD SORES OFTEN LEAD TO CANCER

Whenever a sore or ulcer does not heal and shows signs of becoming chronic, it should arouse suspicion, because many of these places lead to Cancer. It may appear as an ordinary sore at first, and is given treatment as such, with some simple salve, wash or plaster, with the hope that the place will heal, but the real scat of the trouble is in the blood and cannot be reached by external remedies, and soon the sore will return. After awhile the deadly poison begins to est into the surrounding fiesh and the ulcer spreads rapidly, becoming more offensive and alarming until at last the sufferer finds he is afflicted with Cancer. the sufferer finds he is afflicted with Cancer. Cancerous ulcers often start from a boil, wart, mole or pimple, which has been bruised or roughly handled, showing that the taint is in the blood, perhaps inherited. Another cause for non-healing ulcers and sores is the remains of some constitutional disease or the effects of a long spell of sickness. S. S. Maryland Physician Cures Himself of Eczema with Cuticura Remedies. Prescribes Them and Has Cured Many Cases Where Other Formulas Have Failed - Dr. Fisher Says:

CUTICURA REMEDIES POSSESS TRUE MERIT

" My face was afflicted with eczema in the year 1897. I used the Cuticura Remedies, and war entirely cured. I am a practicing physician and very often prescribe Cuticura Resolvent and Cuticura Scap in cases of eczema, and they have cured where other formulas have failed. I am not in the habit of endorsing patent medicines, but when I find remedies possessing true merit, such as the Cuticura Remedies do, I am broad-minded enough to proclaim their such as the Cuticura Remedies 40, 1 am broad-minded enough to proclaim their virtues to the world. I have been practicing medicine for sixteen years, and must say I find your Remedies A No. 1. You are at liberty to publish this letter, or any part of it. I remain, very truly yours, G. M. Fisher, M. D., Big Pool, Md., May 24, 1905."

CUTICURA-THE SET, \$1. Complete Treatment for Every **Humor from Pimples**

Bathe the affected parts with hot water and Cuticura Soap, to cleans the surface of crusts and scales and soften the thickened cuticle; dry, without hard rubbing, and apply Cuticura Ointment freely, to allay itching, irritation, and inflammation, and soothe and heal; and, lastly, take Cuticura Resolvent Pills to cool and cleanse the blood. A single set, costing but one dollar, is often sufficient to cure the most torturing, disfiguring, itching, burning, and scaly skin, scalp, and blood humors, with loss of hair, from infancy to ago, when all else fails.
