Cut Rate Druggists of Portland

Our New Drug Store Courts Comparison

No store in the city devotes more space or intelligent attention to its drugs than we do—no store buys with greater discrimination or more shrewdly. No druggist in Portland dare sell as cheaply as we do. They are bound by an iron contract, to maintain the highest possible prices on all standard, well-known and popular patent medicines. We offer no cheap baits on inferior home-made drugs to lure you to the store.

The above facts are well known to a host of Portland shoppers. The remarkably generous response to our advertisements stands as evidence of that fact. The business is phenomenal.

ALL READY TO SIGN

Columbia River Jetty Bill Is Passed by Senate.

TO WHOM THANKS ARE DUE

Fulton Gives Credit to Burton and Jones for Pushing Appropriation Through House—President Will Soon Sign Bill.

OREGONIAN NEWS BUREAU, Washington, April 17.—On motion of Senator Fulton, the Senate today passed the bill which was adopted by the House of Representatives yesterday appropriating \$400,000 to continue construction of the Columbia River jetty. It took only one minute to secure its final enactment. When the engrossed copy of the bill reaches the President, it will take him even less time to sign it. The bill which the Senate passed today was that introduced by Representative Jones and although identical with Mr. Fulton's bill, which went through the Senate a month ago, it was necessary to put the House bill through the Senate in order to make it a law. This required the Senate to pass two bills, each appropriating \$200,000. When the House bill was agreed to today the Senate, on motion of Mr. Fulton, recalled its original bill from the House and tabled it. The bill should reach the President the latter part of this week. Commenting on its final passage, Mr. Fulton today said: "To Mr. Burton, chairman, and Mr. Jones, of Washington, a member of the Columbia river and harbor committee, are we especially indebted. Both these gentlemen should be held in kindly remembrance by the people of Oregon. It is fortunate for us that Mr. Jones is a member of that committee, for he is not only a friend of Oregon, but he is one of the strongest men in the House, and is recognized as one of the leaders."

IDAHOANS CLASH ONCE AGAIN

Heyburn's Attempt to Force Action Blocked by Dubois.

OREGONIAN NEWS BUREAU, Washington, D. C., April 17.—Senators Heyburn and Dubois clashed again today over the Montpelier postmaster's position, when Heyburn in executive session attempted to force the confirmation of Winters, a Mormon. Dubois renewed his objection of yesterday, and Heyburn replied that no Republican but the majority of the Democrats voted against the bill. Dubois retorted that Republican and Democrats vote to figure in Bear Lake County. It was all Mormon and Gentile, and he did not propose to have a Mormon postmaster in a Gentile town. The discussion was so heated that Carter suggested that the case go over without action. This was done.

BIDS FOR COLD SPRINGS DAM

Opened in Portland June 11 and Work Began in July.

OREGONIAN NEWS BUREAU, Washington, April 17.—Bids will be opened in Portland June 11 for the construction of the Cold Springs dam on the Umatilla reclamation project in Oregon. If bids are reasonable, this contract should be awarded and work begun in July. On the same date bids will be opened in Portland for the construction of the storage works near Condon, which form part of the Okanogan project in Eastern Washington.

IDE MAY FIGHT FOR HIS JOB

Puget Sound Collector in Capital to Interview Officials.

OREGONIAN NEWS BUREAU, Washington, D. C., April 17.—Collector of Customs Ide of Washington, whose term soon expires, arrived here tonight. In view of the fact that Senator Pike will recommend Fred C. Harper of Seattle to succeed Mr. Ide, it is presumed that he will confer with the President and Secretary

of the Treasury to ascertain whether or not he can secure reappointment over the protest of the Washington Senators.

NO POWER TO INVESTIGATE

Court Declares Cincinnati Graft Inquiry Was Illegal.

CINCINNATI, April 17.—The State Senate had no authority to authorize the investigation of the public officers of Cincinnati and Hamilton County as carried on by the Drake committee, according to a decision filed by the Common Pleas Court in this city today. The decision was made in the case of Thomas J. Davis, cashier of the First National Bank of this city, who refused to appear and was arrested. The court holds that the committee had exercised judicial and not legislative power and that the Senate was without right to authorize an investigation of the kind conducted. The cashier was right in refusing to answer, the information requested being of a confidential nature between the bank and its customers.

In the Wild and Woolly East.

NEW YORK, April 17.—Two men fought over a girl on a surface car coming in from Coney Island early today, and three of their friends took sides, drew revolvers and started a riot. The rioting was broken up by the police, who found that four windows had been shot out and the interior of the car wrecked. Three men were stretched on the floor. The others fled at the approach of the police, but five of them were captured. Vincenzo Carver was shot through the right thigh, Carroll Simons and Antonio Notaro were cut so badly with knives that they may die.

May Escape Being Frozen Out.

ST. PAUL, April 17.—Judge Sanborn, in the Court of Appeals today, handed down an opinion in the case of Morgan Jones, appellant, vs. the Missouri Edison Electric Company et al. The case involved the merger of all the electric and power companies of St. Louis and the statements of the plaintiffs are true. Involves an attempt to freeze out, by means of alleged stock manipulation, some of the minority stockholders from the merger. The Circuit Court below sustained a demurrer entered by the company, and the decision of Judge Sanborn today reverses the decision. Judge Sanborn practically holds that there is basis for an action.

Problems Need His Dutch Courage.

CHICAGO, April 17.—President Roosevelt was lauded as the most conspicuous example of "Dutch courage" by Judge C. S. Cutting last night at the 11th annual dinner of the Holland Society. "There never will be a time in a republic when we shall not need this trait of the Dutch," said Judge Cutting. "New problems are coming up. There will be no such thing as popular government unless there also is popular unrest. The American people have solved their problems because they have quarreled vigorously, aired them out, and settled them through the enlightened majority."

Killed in Auto Accident.

PHILADELPHIA, April 17.—Robert J. Wright, a lawyer of this city, was killed and five other persons were severely injured in an automobile accident near Millville, N. J., today. The automobile collided with a carriage.

About half an hour after leaving port the pirates appeared, flourishing revolvers, spears and other arms. Naturally the passengers were terrified but in the presence of the combined force of the pilot and the boat crew they were helpless. There was no doubt that the affair was prearranged. The pirates came on deck in a body, covered the passengers into submission, sent one man to disable the pilot by pointing a revolver at his head, put another in the stockhold where the engineer was at their mercy and had the boat within their iron control. The first they did was to rifle the cabin of the officers. There they got \$500 in hard cash, besides other booty. In real Captain Starlight fashion they held up the entire passengers. They actually ruled the boat for four or five hours. The master was helpless, the officers had no weapons, the crew could do nothing and the passengers seemed like a flock of sheep. The pirates took everything they wanted. When they were finished they ordered the engineer to ground the boat, one of the robbers taking the wheel. When the boat had grounded they leaped ashore and bade farewell to the disturbed passengers in the most impudent fashion. Altogether they got about \$3000 worth of goods and valuables. No attempt is said to have been made to capture the pirates.

PIRATES ON CHINESE RIVERS

Third Officers Jess, of Oriental Liner Aragonia, Brings Report.

Third Officer Jess, of the Oriental liner Aragonia, which arrived here Sunday night from Hongkong via Yokohama, reports that at the time the Aragonia was at Yokohama snow was still falling in some parts of the country. Sengoku, Haramura, a small village in a valley, rounded by hills, was entirely cut off from communication with the outside world by snow to a depth of over ten feet. Preparations were being made to rescue the people of the isolated village. Preparations for an exhibition to be held at Osaka in commemoration of Japan's success in the war, under the auspices of the Osaka municipality, were being rapidly pushed forward when we were in Yokohama," said Mr. Jess. "The Japan Sea is not yet free from the danger of floating mines. Not long ago three men were killed by the explosion of a mine at Uruga, Okinawa Island. "River pirates are doing business on the Chinese rivers. Only a short while ago one of the most daring escapades on the part of the pirates in the North River occurred, when nearly a dozen of them attacked a steam motor-boat owned by a British company. There were 120 passengers on board and among these an officer turned out later there were nine pirates.

Have a Smile?

Where hot air is so much cheaper to make than love, there can hardly be much doubt as to what it is that causes the world to go round. Pending a settlement of those differences of opinion as to whether or not poverty is a crime, the usual penalty will continue to be imposed. There is a difference between liberty and license. If you don't believe it, ask any man who has taken out a marriage license. Looking pretty, and especially looking pretty out of doors, is exercise enough to keep most women in good health. Truth is crushed to earth by the hand-wagon about as often as otherwise. If fools exist in where angels fear to

tread, let it be borne in mind that angels have their board and clothes found in heaven, whereas the fools probably have theirs to hustle for.—Puck.
