WASHINGTON, May 7 - Although Speaker Cannon started in bravely to ig-nore the fact that he is 70 years old today,

he was forced soon after the House con-vened to relinquish his gavel and retire to his private room, where Senators and members domanded audiences, and tele-

grams of congratulation came thick and fast. First came one from Mayor Mc-Clellan, of New York, in which he says:

"New York joins me in heartiest con-gratulations and in the expression of re-spect and admiration. May you see as

many returns of the day as you desire, and may each return find you happier in mind and stronger in body." One signed "The Kissing Bug" combines

congratulation with the hope that Hobson will be made chairman of the naval com-

La Vida Corsets are really merchant-tailored. The styles are at least a season earlier than the popular priced goods and are naturally very advanced. All the extreme Parisian ideas are shown vastly improved in La Many of these models are never made up into lower priced goods, so that the exclusive woman can secure an individuality in her figure. All the fabrics in La Vidas are imported from France and England, where the best corset materials in the

world are produced. Domestic cloths are vastly inferior to the foreign fabrics in this class of materials, as they stretch too easily and lack stability of body. Some of the finer qualities are hand-embroidered on silk or linen, or silk and linen grounds. The trimmingslaces, plush steel linings, etc.—are exquisitely qualitied.

SEVENTIETH YEAR ENDED

Appearance of Speaker in House Is Greeted With General Applause, and Reception Follows.

Many Congratulations.

WASHINGTON, May 7 .- Speaker Cannon was the guest at a reception given tonight at the Arlington Hotel by his colleagues in the House of Representa-tives in honor of his 79th birthday. It was a notable occasion, made so by the presence of President Roosevelt and almost every official of note in Washington and others from outside cities who called to extend their congratula-

All the members of the Cabinet now in Washington, the members of the Su-preme Court, a large contingent of both houses and heads of the various bu-reaus of the executive departments and prominent residents found time during the evening to come in and shake the Speaker's hand and to wish him many

happy returns of the day.

President Roosevelt arrived about 10 o'clock and for an hour or more chatted with the Speaker and mixed freely with the large crowd. Vice-President Fairbanks was among the early ar-

Applause for Birthday-Large Num-

ber of Bills Passed. WASHINGTON, May 7.—Notwithstanding that this was the Speaker's 70th birthday, the House, after a splendid demonstration to Mr. Cannon as he ascended to day, the House, after a spending deader stration to Mr. Cannon as he ascended to the Speaker's table, settled down to one of the biggest days in the history of the present session. The day was notable for the number of bills passed, 45 in number, covering a large number of subjects. Many of the bills could have been passed by unanimous consent, but with Williams' determination to object to any legislation by unanimous consent," these bills came up under suspension of the rules, this being known as "suspension day."

When "Uncle Joe" appeared in the doorway nearest the Speaker's desk, and when he ascended to the rostrum, long-continued appliance followed his steps.

With gavel in hand, the Speaker waited, and when both hands of the clock stood at 12, with a smile the gavel came down.

Both Parties Satisfied.

This outcome of the dispute, which threatened to develop into a long and bit threatened to develop into a long and bit-ter struggle and to paralyze a great in-dustry, was looked upon with satisfaction by the coal operators, as the agreement entered into is their first proposition, made early in March in reply to the mine-workers' original demands. The miners had little to say regarding

the agreement, except that it was the best they could get. They pointed out however, that the agreement entered into is the first general agreement that has ever been signed between the operators and the miners, and they look upon it as a step forward in their efforts to have regular agreements with their em-

Final Effort for Two Years.

While the compact entered into today was predicted last week, the agreement was not reached without a final struggle on the part of the miners to get some-thing more. President Mitchell, in stat-ing to the operators the action of the Scranton convention, asked that the agreement be made for two years. In arguing for the two-year term, he said that the cost of living might increase considerably in three years and that other changes in the mining industry might come that would make the present wage scale unfair to the men. The operators in their reply said they felt that any contingency that might arise was covered by the award of the Strike Commission. and they concluded by asking that the award be continued for three years.
