British Minister Declares Prompt Settlement Necessary, and War-Ships Hurry to Strengthen the Fleet.

ALEXANDRIA, Egypt, May 7 .- (Special.)-Advices received here show that the Turkish troops on the Egyptian frontier are being strongly reinforced and there is grave apprehension here that the Sultan contemplates a hostile movement, should the British carry out their expressed purpose of a naval demonstration against Turkey.

A battalion of Turkish troops reinforced the garrison at El Rafeh Monday and all along the fuontier, according to reports received here, the movement of the Turks is in evidence.

It is asserted, but not yet confirmed, that a number of points in Persian territory are now held by the troops of the Sultan of Turkey and they are all well armed and equipped.

s settlement indefinitely.

When the British government was pressing its original demand for a joint delimintation of the frontier, it had shown patience and moderation, but if the latest developments in the Turkish demands were admitted, it would place Turkey in a position which would be a real danger, not only to the freedom of the Sues Carnal but to the liberties of the Suez Canal, but to the libertles of Egypt and the Khedivial dynasty.

The British government could not be indifferent to her own o rto the Khedive's interests, and their importance recessitated pressing a settlement on the lines that the frontier of Egypt should remain as it had existed undisputed and undis-turned for many years.

HIGH-ART BRASS AND IRON BEDS

In the designing, in the selection of material, and in the construction of these beds as much care and skill is exercised as in the construction of a high-grade, classic piece of furniture. To our line of high-art brass beds we have recently added a number of new and exclusive designs, of the best possible construction. Some of these are designed on Colonial and other plain lines; while a number are rich in scroll ornamentation. In these new designs are to be seen the latest and most appropriate finishes known to the metal craftsmen. We have also increased our showing of iron beds by the addition of many artistic designs. These are in a variety of appropriate and reliable enamels, the same being applied through the foremost baking process.
