Poor and Rich Alike Suffer From Lack of Good Food.

We notice that John Spargo, in his new hook, "The Bitter Cry of the Children," says no less than two million American children between the ages of 5 and 14 are victims of chronic under-feeding. BICYCLES IN THE AIR.

Stirk Troupe Performs Marvelous Feats on Wheels With Norris & Rowe Circus.

By securing the great Stirk troupe of ten young men and women aerial cyclists. Norris & Rowe believe that they have secured a genuine noveity. Certain it is that no other circus traveling has an act anything like it or anywhere near ap-proaching it for sensational exploits. First, upon the elevated stage under the new mammoth waterproof tents of the Norris & Rowe circus, the Stirk troupe perform upon both the safety and the old-fashioned high wheel, a series of dashing, dangerous evolutions. When and the old-ramioned high wheel, a series of dashing, dangerous evolutions. When the ten young men and women are performing at once the whole makes a most graceful, pleasing, bewildering picture. Then comes the aerial cycles, when upon siender wires suspended in the air, the young women dash from one end of the series to the other with shealurals. young women dash from one end of the arena to the other, with absolutely no support. The final portion of the act is the most wonderful of all. A huge Ferris wheel is fitted up with ten trapezes and upon each is one of the Stirk troupe. The electrician starts the machinery and when the immense wheel revolves, the splendid athletes go through daring and difficult evolutions upon the rapidly moving trapeze. This is only one of the many to be seen when all new and grearer Norris & Rowe circus exhibit in Portland at the regular circus grounds. Twenty-fifth and Releigh street, for two days, May 19 and 11.
