One of the Great Industries of Oregon.

CHANCE FOR ALL IS GIVEN

Obscure Manufacturer Is Given Opportunity Along With the One Who Has Achieved Marked Results in This State.

One of the most interesting exhibits among the many that will be seen in the show-window exhibition of Oregon-made goods will be the attempt to illustrate the flax industry. The matter has been proposed by residents of the Willamette Valley. It is a subject in which considerable terest is felt by the Southern Pacific Railrond, and yesterday District Freight Agent Louisbury took up the matter with the Made-in-Oregon committee and made arrangements for a corner of Mc-Allon & McDonnell's store. If all the requisites for displaying the flax product requisites for displaying the flax product from its raw state in the field to the finished lineas for domestic use can be had within the next few days, a remarkably interesting exhibit will be mide. Primarily, this is one of the objects of the enterprise which was enthusiastically taken up by the promoters at large throughout the state—to exploit the various industries which Oregon affords. Mr. Lounsbury went to Balem and other Valley points last night, and will endeavor to complete the arrangements for sending complete the arrangements for sending down samples of this product today.

The committee on window spaces has covered a considerable portion of the down-town district and reports that there is a general preparation going forward in all the atores for displaying Oregon products, to the exclusion of all cise. Displays are to be made by firms and manufacturers of home products that are making a bid for local attention, in windows other than those that have been turned over to the disposal of the committee. While some dealers realize the incongruity of appearances and cheerfully consent o the outside lines taking a place in the tores, others are inclined to conservative lews. An interesting feature in connection with the proposition is the manner in which dealers in strongly competitive lines agree to give the obscure maker of goods a chance to benefit by valuable adertising space.

Will Be Fine Display.

Secretary Freeman's Report. Regarding the prospects for the display

n general, Secretary Freeman said: "It develops, as the late returns from manufacturers come in, that there are many of the unheard-of little fellows who will share in the great benefits of this movement at the expense of larger concerns and some practical monopolies. The window-space committee has been satisfied to get the assent of the merchants that they will display Oregon-made goods in all of the windows, whether the merchants accept the material offered to the committee or not. I am frank to say that there have been two notable ex-ceptions in the down-town district, where dealers having prominent store fronts have absolutely backed down on the agreement to receive the committee's exagreements on the outside to give their trouble to acknowledge the invitation sent them by the general organization to paricipate with an advertising float or an exhibit. While this is perfectly agreeable to every one concerned in the movement. at the same time it places the exhibits committee, of which Mr. Keim is the en-ergetic head, in a somewhat embarrassing

### Adjust Small Difficulties.

These trifling difficulties are being provided against rapidly and satisfactorily, Delay in notifying the waiting manufacturers of their locations is down turers of their locations is due to this cause, and to no other. In The Sunday Oregonian was related what some of the best-known merchants in the 'high'rent' district had done, and I desire to say that two notable additions to this list of gen-erous-minded men have been made. For instance, the Allen & Gilbert house accepts ornamental brick, stoneware and pottery, musical instruments and furni-ture, while Mr. Selling's window-dressing department has to do the best it can with Salem baking powder and Corvallis washing machines. Previous to the late disaster in California, there were a great many more manufacturers planning exhibits, and it is but just to state that since the catastrophe these plans in several instances, principally out-of-town concerns, have been modified or aban-doned. Altogether, however, the movement has obtained extraordinary prestice throughout the entire Pacific Northwest, and much good will be accomplished by the enterprise, irrespective of the specific results which can be named."
The palloting on the beauty contest for Queen of Industry and Columbia will be-

gin today, and the result will be made known to the aspirants by tomorros through the newspapers.

### Cannot Spend Mount Pelce Fund.

NEW YORK, May 14.-Mayor McClellan, after looking up the law says that it will require a constitutional amendment to permit the city to spend the money raised to aid the sufferers in the Mount Peice disaster. About \$1400 was sent in, and the names of the subscribers are lost. As all the people near Mount Peice were killed, and there was no call for the money, it was not sent forward. Money in the crastody of the city to be spent for a specific purpose cannot be spent for anything else.
The money was raised about four years ago, when Mayor Low was at the City Hall, and some one lost the names of the givers. It has been on deposit for the last four years, and is drawing interest at

negro convict confined in the jast at Mar tinique at the time of the eruption. So far as known, this man was the only human survivor. He joined a circus as a freak the year after the disaster.

### DAILY METEOROLOGICAL REPORT.

PORTLAND, Or., May 14,-Maximum tem perature, 5d deg; minimum temperature, 49 deg. River reading at 8 A. M., 10.4 feet; change in 24 hours, rise of 2 feet. Total precipitation, 5 P. M. to 5 P. M., 462 hel. Total precipitation alone September 1, 1908, 34.41 inches; normal precipitation since September 1, 1908, 42.58 inches; deficiency, 8.17 inches. Total sunshine, May 13, 6 hours, 70 minutes; peasible sunshine, 14 hours, 70 minutes. Barnmeter (reduced to sea level), at 5 P. M., 29.71.

WEATHER CONDITIONS. During the last 24 hours good rains have fallen everywhere on the Pacific Slope except in extreme Southern California. In North-ern California the rains amounted to about half an inch. and in Western Oregon and Western Washington the amounts ranged from 0.38 inch to .58 inch. East of the but it is still raining in that section it is decidedly cooler in Oregon and Washington. and slightly cooler in Northern California.

### An Old Story

The man who pays rent for ten years pays nearly the original cost of the property and in most cases the appreciation is more than the interest on the investment. The EAST SIDE has the most HOMES, has the GREATEST population, is growing has the GREATEST population, is growing the most RAPIDLY, and the GREATER PORTLAND MUST and WILL be there.

Holladay's Addition Is the geographical center of the city, and is the most DESIRABILE residence district, and much of this will become BUSINESS property. Do not overlook these FACTS when making investments, and call and inspect the property, for seeing is believing.
