REPUBLICAN NOMINEE FOR CONGRESS, FIRST DISTRICT

W. C. HAWLEY, WHO IS MAKING AN EFFECTIVE CAMPAIGN.

W. C. Hawley, the Republican nominee for Congress in the First Congress sional District, has been received with enthusiasm wherever he has spoken in this campaign and by prominent men who have heard him he is uronounced to be one of the ablest and most effective public speakers in Oregon. Though he deals seriously and in a statesmanilke manner with the political questions he discusses, his addresses are rilways entertaining. He intersperses his arguments with bilmorous stories that never fall to bring down the house. In the use of short, terse sentences that go straight to the point, he is a master. It is not alone upon the platform that he does his effective work, for he is a genial

man, a good "mixer" and a pleasing conversationalist. . Colonel E. Hofer, editor of the Capital Journal, who was a supporter of Watter L. Toose in the primary contest, is a warm supporter of the Republican nomines. When in Portland yesterday he said of Mr. Hawley: "Hawley is a fine type of American citizenship, clean, capable and energetic. He is a man of superior talents. His work for many years in political economy, American history, constitutional law and international law give him so equipment that is something wonderful. He has the foundation for the making of a good Representative at Washington. The progress he is making in this campaign is nothing supprising, for any one who respects integrity, ability and high moral character of every man who loves good government and I believe his election will be great etimulus to political regeneration. He represents those new standards in public life which are coming to the front very rapidly."
