WOMAN REGENT RESIGNS.

Mrs. Ridenbaugh Has Made Good Record of Idaho University Board.

BOISE, Idaho, May 17 .- (Special.)-Mrs. Mary E. Ridenbaugh has tendered her resignation, which has been accepted, as a member of the Board of Regents of the University of Idaho. Her successor has not been appointed. Ill-health is the cause which prompted Mrs. Ridenbaugh to give up her membership on the board, as she felt that she was not physically able to carry on her duties in that capacity as they should be done.

they should be done.

Mrs. Ridenbaugh had served as a member of the Board of Regents of the University for more than five years, and she leaves a record of which she may well be proud. She was first appointed as a mem-ber of the board by ex-Governor Morri-son, since which time she continuously served on the board until the time of her

resignation.

Mrs. Ridenbaugh was secretary of the board, which office she had held for the last four years. With the exception of the meeting of the board in April, after the burning of the University building, when she was out of the state, she never missed attending a session of the board nuring the years she was a member. Ridenbaugh Hall, the girls dormitory, was named after her. It was built as a result of her efforts.

A DIFFERENCE IN LUNGS.

In the Edinburgh University three human lungs lie side by side. One is of an Eskimo and is snow white, In life, this would be ruddy with rich blood. Another is that of a coal-miner and is black. The other is of a town dweller and is a dirty slate gray, as are the lungs of most city residents. That's why consumption thrives in cities.

One reason why Scott's Emulsion does so much to keep down consumption is because it helps to keep the lungs clean and supplies them with rich, red blood. It makes the lungs germ-re-sisting. If the body is run down and health is at a low ebb Scott's Emulsion will build it up quickly and permanently.
