He has been unable to agree with Chairman Shonts on a number of vital matters of policy and so he forwarded his resignation to Washington and stated that he would await the arrival of his successor here. Instead came a message from President Roosevelt ordering him expected to be in port by that time, would also be asked to participate, as well as all other local patriotic bodies. It is the idea to have the services exceedingly short, he said, and it was a fortunate circumstance that General T. M. Ander-son, who was in command at the taking of Manila, was present in the city, and had consented to deliver the principal address to withdraw his resignation and to come with all possible dispatch to Washington. He has been assured that he will have the support of the administration. It is generally understood that Mr.

Shonts will retire from the chairmanship of the canal commission and that his successor will be Governor Magoon, who ant C. H. Meussdorffer, on beas chief official of the canal zone, is making an enviable record for efficiency.

The desire to have the G. A.
