

DELEGATES OF COOS BAY

Portland and the Valley Will Be Well Represented at the Convention.

MANY WITNESS DEPARTURE

Leave on Steamer Alliance for North Bend to Attend Farmers' and Shippers' Congress and Farmers' Institute.

Delegates to the joint convention of the Farmers' and Shippers' Congress and the Coos County Farmers' Institute, which will be held at North Bend, May 23 and 24, departed for Coos Bay at 10 o'clock last night, on the steamer Alliance. A large crowd saw the party off at the dock at the foot of Couch street when the Alliance steamed out into the river.

The Portland Delegation.

Portland sends a particularly representative delegation to Coos Bay, but it is not as large as was at first expected. Many other of the Portland business men made arrangements to make the trip, and were ready to start for the convention, but were unavoidably detained. Since the San Francisco fire the Portland jobbing houses have been swamped with work, and had it not been for this, the delegation would have been a very large one.

The convention at Coos Bay will be held for the purpose of exploiting that section of the state, and in this the citizens of North Bend, Marshfield, Empire and the other prosperous cities of that splendid harbor will receive the hearty co-operation of the Portland business men. The Portland delegation will be headed by E. H. Foster, president of the Lewis and Clark Exposition, are eagerly looking forward to the convention, which, it is believed, will be of great benefit. Several Portland business men will attend the convention, and the citizens of Coos Bay will see that they become intimately acquainted with the wonderful and varied resources of that part of Oregon.

Extensive preparations for the entertainment of the visitors have been made. All of the cities of Coos Bay have joined hands and will be together to make the convention a great success. The visitors will be taken on excursions, treated to many different entertainments, and everything possible will be done to make them enjoy their stay.

The steamer Alliance, which departed from Portland last night, will arrive at North Bend early this morning. The convention will be held Wednesday and Thursday, and on Friday morning the Alliance will leave North Bend for Portland.

The Portland Commercial Club will be members of the company. Tonight is the second and regular souvenir night of the season. A handsome, autographed picture of Miss Lawrence, the leading woman of the company, will be presented to every member of the audience.

PERSONNEL OF THE PARTY.

The other Portlanders who left on the Alliance last night for Coos Bay were: H. L. Pitcock, C. M. Hyskell, J. E. Davis, L. F. Everett, E. Eysell, J. A. McFarland, J. W. Brown, J. W. Evans, W. G. MacRae, George M. Cornwall, W. J. Ireland, Arthur P. Tift, Jefferson Myers and Frank C. Baker.

RIGHT OF APPEAL.

Remarks on a Recent Decision in the United States Supreme Court.

PORTLAND, May 20.—(To the Editor.)—I observe in a recent issue of The Oregonian an article dated from Washington, D. C., under the head, "Can't Hear City." Can't hear? The Supreme Court refers Habeas Corpus Suit Back to Lower Court, and in which Justice Brewer, of the Supreme Court of the United States, denies the petition of James Lincoln, who was convicted in the United States Court for the District of Nebraska for the crime of introducing liquor into the "Winnemago Indian Reservation, where the defendant was sentenced to imprisonment for 30 days and a fine of \$100.

This, in my mind, is a most marvelous demonstration of the unalienable rights of an individual citizen of the United States to claim the protection and his privilege of such, under the Constitution of the United States, and adopted and sometimes respected by the judiciary of the country for the protection of the common people.

It appears that the tendency of persons who occupy by favoritism, politics or otherwise, positions upon the bench of the various Federal and State Courts, to follow the opinions of others who have been successful, in respect of the motives which have led their predecessors to form a judgment and write a verbose opinion of their own feelings in any particular case which may by chance be assigned to them to think over and render judgment in. Precedents and the opinions of several men, who have been elevated to judicial positions by appointment through political favoritism or election, has led to a definition of the judiciary, as higher, better, guerd and more intelligent than the rest of mankind, without cause, cause or authority.

If the opinion as reported in The Oregonian contains, it opens a breach in the constitutional wall—the sole and complete protection of the people—which, if followed as a precedent, will widen, and in time afford a reason for greater oppression, and ultimately lead to anarchy, and a civil war, or the oppression of the individual rights of the common people, and make their future as dark as the present Russian political light.

The wisdom of single instances.

This was written by Lord Tenison about 30 years ago. How true it is today, in the light of this atrocious and the common people's rights to the privilege of the writ of habeas corpus as established by our ancestors in the Magna Charta. CHARLES P. LORD.

CHANGE IN TIME.

In addition to the new time put on by the O. R. & N. between Portland and Biggs, the Chicago-Portland Special leaves Portland at 5 P. M., instead of 5:30 P. M., and arrives at 5 P. M., instead of 5:30 P. M.

DOUGLAS COUNTY WANTS PEOPLE.

WOOLLEY, Or., May 20.—(To the Editor.)—My duties as Deputy Assessor call me to

the northern part of Douglas County. Instead of the district being filled with teachers, spectators are being up timber and farms lands only to hold the same for higher prices or as pastures for sheep and cattle. It is too bad to see orchards and houses thrown open for cattle, where the families have gone to Alberta and other places. There are school-houses here and not a child within miles to attend. The place is about desolate. Many people take homesteads that are only fit for timber and then they plant gardens in October, on a spot measuring 14 feet by 20 feet. They stay one night in the cabin once in six months, but their wives never accompany them on these trips after homesteads. Recently I went into a deserted schoolhouse, and the thing on the walls out nobody was about.

AT THE THEATERS

What the Press Agents Say.

COMEDY-DRAMA TONIGHT.

"A Message From Mars" Begins Four Nights' Engagement.

David Proctor, supported by an excellent company of players, will begin an engagement of four performances at the Heilig Theater, 1015 Washington street, tonight at 8:15 o'clock, when the comedy-drama, "A Message From Mars," will be the play.

In every neighborhood there is one man, an oftentimes a number of men, who are best known for their intense selfishness. Richard Ganthorn, an American playwright, wrote the beautiful comedy, "A Message From Mars," in which he deals some heavy blows at the egoist and selfish man. This play was first staged in London, and from the opening night at the Heilig Theater, it has been a success at that city. It was later brought to America and ran for two consecutive years in New York City. It has never before been presented in this part of the United States. Mr. Proctor is associated with the following principal players: Miss Elizabeth Valentine, Miss Anita Roche, Miss Catherine De Becker, Miss Neeta De Becker, Henry J. Radfield, Cyril Young, Wallace Widcombe, Seymour Stratton, Frederick Roland and Mrs. M. M. Biele. Begin now selling for the entire engagement at the Heilig Theater.

BAKER SOUVENIRS TONIGHT.

Pictures of Miss Lawrence Given Away at Baker Theater.

It was not like old times at the Baker Theater yesterday when the occasion is indescribable. It was the opening day of the second week of the Baker Theater, and the play, "The Little Minister," was the play. Of course the house was packed from parquet to gallery with crowds of enthusiastic spectators, who enjoyed every minute of the marvelous good performance. Not only is the play an immense spectacle—there are five acts, each containing more than one scene, and each scene is a masterpiece for the entire production—but the intensely interesting drama abounds in telling parts for the display of the best efforts of the various players. Tonight is the second and regular souvenir night of the season. A handsome, autographed picture of Miss Lawrence, the leading woman of the company, will be presented to every member of the audience.

AT THE VAUDEVILLE THEATERS

Headed by the Grand.

For this week beginning with the matinee this afternoon, the Grand at the Grand will be the Bohemian Comedy Four. These are entertainers who have made a success wherever they have appeared, with their clever comedy and cheerful singing. The Marco Brothers are acrobats; the Miller Brothers are gymnasts with a new act; Sam Rawley is a comedian from the music halls of London; Major Laughlin, the champion gun-slinger of the world, will perform his famous specialty; Maeter Harold Hoff, the boy singer; the moving pictures and other acts will complete the bill.

PANTAGES.

The most thrilling scene of the destruction of San Francisco will be depicted at Pantages, commencing this evening. The moving picture machine. The famous Tchaou Tavern Quartet has been retained in response to popular demand, and will sing and play for the entire week. The four Georges are well-known fun-makers; Craig Wright will be on hand with his monologue act; Tracy and Carter will put on their pretty faces in the Minkley Follies; and the eccentric acrobatic team and Arthur Ellwell, baritone, will sing the old favorite illustrated ballad, "Wall Tilt the Sun Shines, Nellie."

Star.

Another of those amusing farces which have made the Star Stock Company so popular with lovers of light entertainment will be given this week. "The Tains' Christmas" is the comedy and cheerful singing. The farce farces this organization has presented. The situations are amusing and the enthusiasm will never subside during the 40 minutes the farce holds the boards. Besides the farce there will be several vaudeville specialties; also an illustrated ballad and many pairs of moving pictures.

HIGH SCHOOLS' COMPETE

Robert Denny, of Everett, Wins Declamatory Contest.

SEATTLE, Wash., May 20.—(Special.)—Robert Denny, of Everett, won first prize; Eva Berry, of Colfax, second; Bessie Graham, of Seattle, third; Myrtle Rowell, of Snohomish, fourth, and Fred Inkster, of Davenport, fifth prize, in an inter-scholastic declamatory contest which ended here tonight. Prizes of \$25, \$20, \$15 and \$10, donated by A. J. Blethen, were competed for by representatives of 23 high schools of the state, and won by the student named Mr. Denny, who gave the "Forum Scene," and Eva Berry, who took second place, the "Deathbed Scene of Benedict Arnold." Myrtle Rowell, of Snohomish, took fourth prize, and was the most versatile of all the contestants, introducing a Catholic chant, sweetly sung, in her "Life for a Life." The inter-scholastic declamatory and declamatory contest has been held at the State University, and has extended over two days. It has been held coincident with, but not in connection with, the high school athletic meet. Because of the large number of declamatory entries, the total amount donated in prizes was doubled.

NEW HAVEN AND RETURN

\$91.10 \$91.10

On May 24, 25, 26, the Great Northern Railway will sell excursion tickets to New Haven, Conn., and return at rate of \$91.10 for the round trip, tickets good going via Great Northern Railway, returning same or any direct route, final return limit August 31.

MADE-IN-OREGON VISITORS

We invite all visitors who are here during the "Made-in-Oregon" week to call at Eilers Piano House during the great closing-out sale now going on. We're compelled to quit the retail business. Everything must be sold by May 31. Prices are usually cut in two. 323 Washington street.

CHANGE IN TIME.

In addition to the new time put on by the O. R. & N. between Portland and Biggs, the Chicago-Portland Special leaves Portland at 5 P. M., instead of 5:30 P. M., and arrives at 5 P. M., instead of 5:30 P. M.

DOUGLAS COUNTY WANTS PEOPLE.

WOOLLEY, Or., May 20.—(To the Editor.)—My duties as Deputy Assessor call me to

NOTICE FOR TEACHERS

Plan of Director Fleischer Meets With Favor on All Sides.

WOULD IMPROVE SERVICE

Establishment of Rooms in Schools With Facilities for Preparing Food Would Cost but Little to the City.

It seems to be the consensus of opinion in educational circles that teachers can give better service to the pupils and to the board by having the advantage of a hot luncheon at the noon hour than is possible by the present cold luncheon regime. The suggestion of a luncheon in the different public schools of the city, furnished with tables, chairs, cupboards and gas stoves, is hailed with delight by the large number of teachers employed in Portland, especially in the operating districts, where it is quite impossible to buy a hot luncheon even after walking a long distance for it. In the suburban districts, principals and teachers are compelled to carry their luncheons, and at noontime they have only the schoolroom in which they have been working all morning to serve as a dining room, and in which to eat it.

Applies to Many Schools.

Not only does the condition apply to suburban schools for it is earned through conversation with the principals and teachers of the schools situated in the most thickly populated districts of the city that, with few exceptions, the teachers eat cold lunches, but in the city they live too far away to have time to eat luncheon at home after walking the distance. The Shattuck and Ladd schools are exceptions, especially the former, where two-thirds of those employed as teachers live within walking distance of the school and enjoy a hot meal at noon. In the suburban districts, however, a car-down-town, and by riding both ways has time to get a hasty luncheon in a restaurant, but this is both expensive and productive of bad results from a health standpoint, and he who is compelled to press themselves as heartily in favor of the small conveniences which would enable them to eat a hot meal at school.

Would Improve the Work.

The improved service which would result from this provision for the teachers would soon pay for the expenditure, according to the opinion of those who have benefited by the hot lunch at school, more than probable that another school year will see every schoolhouse in Portland provided with a small luncheon room for the use of the teachers, and the school is also in favor of it. Mr. Beach is also of the opinion that it would be a good measure, if not too expensive. Mrs. Sifton is another warm advocate of the measure, and she thinks that Frank Rigler thinks it would result in great amount of good and improvement.

Sanitary Condition Good

Portland, May 20.—(To the Editor.)—Inasmuch as there have been many reports published relative to diphtheria and the sanitary conditions in University Park and Portsmouth and University Park, I thought I would call attention to the fact that in my visits to the schools I find the teachers sitting in the schoolroom eating cold lunches at their desks, and I have seen the water and the sink, and a hot meal at the noon hour would be something that would not only benefit them, but the pupils and the service at large.

REPUBLICANS ARE

Democratic Blunders and Harmony Among Factions Assure It.

WITHCOMBE IS STRONG

Instead of Being Disrupted Party Is United and Everyone Is Working for the Entire Party Ticket.

That the election of Dr. James Withcombe as Governor is now practically certain is the opinion expressed by Republican leaders who have been over the state and carefully sounded public sentiment. Soon after the primaries there were many who were in doubt. They felt some concern as to the attitude of defeated aspirants and their friends. There was a fear that the members of the party would get together in support of the ticket, but that the direct primary law would prove a means of disrupting the party. This fear has now vanished, until in almost every county past differences have been laid aside, the defeated aspirants have cheerfully volunteered their assistance to the victors, and there is good feeling among party workers generally. While this situation is encouraging to the Republicans, it is disheartening to the Democrats, who are just beginning to realize that they are engaged in an almost hopeless struggle.

Hoped for Party Discord.

In the beginning of the campaign, the Democrats counted largely upon Republican discord to bring them votes, but the Democrats themselves have forced the Republicans into line. Instead of making a fight for one office, as they did four years ago, they have tried to get everything in sight, and thus attempted to make this a Democratic state. They have done this in the campaign of the non-partisan complexion they wish to give it, for when the Republicans see the Democratic leaders trying to put Democrats in the office, they realize that the method of non-partisanship is merely a blind. Then, again, whenever the Chamberlain managers try to persuade Republicans to vote for Col. R. L. Miller for Attorney General, they make a reference to friends out in Southern Oregon. When they ask Republican support for J. Scott Taylor for State Printer, they incur the displeasure of the friends of W. S. Dunaway. And so it is up and down the line. In trying to defeat so many good Republicans, they have forced the public to come together and stand unitedly for the ticket.

Make Unwarranted Attack.

Then, too, the unkind and unwarranted attacks the Democratic campaign managers have made upon the Republican candidate for Governor have made him the hero of the friends of the Democrats, but among Democrats as well. Two prominent Democrats, P. H. D'Arcy, of Salem, and Napoleon Davis, of Gresham, have publicly expressed their disapproval, and it is evident that hundreds of Democrats who are not so outspoken in their views entertain the same feelings. The friends of the Democratic ticket, however, are not so easily discouraged, and they are kept continually explaining.

Republicans Get Together.

At the same time that the Republicans are getting together, the Democrats are showing signs of disunion. Many prominent Democrats who were shouting for Chamberlain four years ago, and who made large contributions to the campaign fund, are attracting attention by their silence now. On the other hand, Republicans who were shouting for Chamberlain four years ago are shouting for it now, and there is not anywhere in the state an open opposition among Republicans to the ticket. These changed conditions foretell the result.

All Differences Buried.

Marion is a farming county, and Withcombe is a popular man among that class. Four years ago Benton County, where Withcombe resides, gave Furnish 48 plurality. This year the county gave Withcombe 700, and in Umatilla, which was the hotbed of disunion four years ago, Chamberlain received a plurality of 366. The leaders are working together in perfect harmony this year, and Withcombe is good for a margin of 600. Union County, instead of giving Chamberlain 70, as it did four years ago, gave Withcombe 600 to 700. These are heavy counts, and show the trend of sentiment among Republicans. This is a "get-together" year, and Republicans are burying or have buried past differences, and will meet on common ground in support of a ticket nominated in the direct primaries.

Stevens Answers Statements.

At the Republican rally at Troutdale Saturday evening, R. L. Stevens, Republican nominee for Sheriff, took occasion to answer the statements of Chamberlain.

WANT AND NEED.

There's a big difference between what a baby wants and what he needs. Deny him the one, give him the other. Most babies need Scott's Emulsion—it's the right thing for a baby. It contains a lot of strength-building qualities that their food may not contain. After a while they get to want it. Why? Because it makes them comfortable. Those dimples and round cheeks mean health and ease. Scott's Emulsion makes children easy; keeps them so, too.

POPULAR ITALIAN BURIED

Funeral of Giogomo Cassenelli at St. Michael's Church.

Funeral services over the remains of Giogomo Cassenelli, a vegetable gardener of Portland, who died Saturday at the Good Samaritan Hospital, were held at St. Michael's church, at Fourth and Mill streets, at 5 o'clock yesterday afternoon. The body was buried at the Mount Calvary cemetery.

The funeral procession was one of the longest ever seen in Portland, as the deceased was one of the most popular Italians in the city. Members of the Italian Society, the Maxinni Society, and the deceased belonged, marched in the procession. Mr. Cassenelli was about 30 years of age, and is survived by a wife.

Wind Causes Another Delay.

The steamers Harvest Queen, Oklahama and M. F. Henderson were at Goble yesterday to tow the steamer Geo. W. Elder to a place of safety when Goble, and conditions did not appear favorable to Superintendent Baker, and once more the towboats were ordered home. Mr. Baker now says that he will attempt to float the steamer Tuesday.

WIFE IF YOU CANNOT CALL.
