

CANNOT INSERT SENATOR SMOOT

Opponents of Mormon Give Up the Struggle for This Season.

HAVE EYE TO ELECTIONS

All Sorts of Excuses, but Real One Is Lack of Votes—Election in Mormon States May Affect the Result.

OREGONIAN NEWS BUREAU, Washington, May 22.—There will be no action on the Smoot case this session, because the opponents of the Mormon Senator are now convinced that they can not win their fight. It is announced that the report of the committee is delayed because of the illness of Chairman Burrows, and when Burrows reappears another excuse will be forthcoming. The case will not be brought up in the Senate for discussion this session.

Several Senators who would vote to unseat Smoot are not willing to vote to exclude him. It takes a two-thirds vote to unseat, while a majority vote will exclude, and on this basis the leaders of the anti-Smoother movement are unable to figure out enough votes to get Smoot out. These Senators are studiously attempting to make it appear that Smoot's friends are responsible for the postponement, but this is not the fact. Smoot is content that the case shall go over. If the Senate as desired, but he is not afraid to go before the Senate whenever the committee is ready.

The report is circulated today that it is desirable that the Smoot case shall go over in order that the Senate may have the benefit of the result of the election in Utah, Idaho, Wyoming and other states which have a large Mormon population. It being stated that if these states do not make Mormonism the issue and do not overthrow the Mormons at the election it will be evidence that the people in the states most affected are not alarmed at Mormon participation in politics, whereas, if Mormonism is made the issue in these states and the Mormons are defeated, it will be evidence that the people of the West fear the menace of Mormonism and such results would have the effect of strengthening the opposition to Smoot.

But this is merely a blind. The Smoot case goes over because his opponents, and particularly Senators Burrows and Dubois, are now aware that they have got votes enough to pry him loose from his seat.

STATES GET TEN PER CENT

Proportion of Forest Reserve Revenue Goes for Schools and Roads.

OREGONIAN NEWS BUREAU, Washington, May 22.—The agricultural appropriation bill reported to the Senate today carries Senator Fulton's amendment providing that 10 per cent of the money received from the sale of timber and other privileges in forest reserves shall be given to the states in which the reserves are located, to be applied by them to public schools and roads in those counties which are embraced in part by such reserves, expenditures to be made by direction of the State Legislature. When a reserve lies across a state line both states are to benefit proportionately. The bill also provides that the remaining 90 per cent of the receipts from forest reserves shall hereafter be expended by direction of Congress. Heretofore this money has been placed in the hands of the Secretary of Agriculture to expend as he saw fit. The total appropriation for the Forest Reserve is \$1,000,000, the same as last year.
