ST. PETERSBURG, May 23.-The folowing official statement of the govern-ment justifying the refusal to grant plen-

ment justifying the refusal to grant plenary amnesty was given out tonight, and will be made public through all the papers of Russia tomorrow morning:

"The question of full political amnesty which has been raised in Parliament, and which is included in the lower bouse's address to the Emperor and supported by several organs of the Russian press, is far from meeting with a sympathetic response from all sections of Russian society.

Assassins Hinder Amnesty.

'It is impossible to avoid noticing a strong current of feeling against full am-nesty in all classes of the population, where, it is pointed out political assassi-nations do not cease. News is daily telegraphed from the provinces of fresh mur-ders or attempts to murder officials. In the presence of such an irreconcllable dis-position on the part of the adepts of the terrorist societies, the government cannot expose the peaceful, right-thinking settion of the population to danger.

"The government cannot refrain from bringing to justice terrorists and bomb-throwers. It cannot deliver from punishment by judicial sentence people who have committed and still are committed and still are committing such

Grim Picture of Terrorism.

Concerning those who have been ar rested by administrative order, many al-ready have been and others will be lib-crated after careful investigation of the sauses of arrest. The full pardon of all who have been arrested by administrative order is a possibility and it may also be possible to abrogate definitely by legisative order states of war, extraordinar defense and further to institute judicial prosecution in localities where the revolu-tionary movement displays itself. Judicial representation is at present impossible in those districts, owing to terrorism and assassination even of witnesses summoned to teatify before the courts. But the over-excited state of public feeling above all in the districts referred to is unpropilious to the revision or the abrogation of exceptional laws.

Such is the opinion of the impossibility Such is the opinion of the impossibility and inopportuneness of the full amnesty entertained by those sections of society which, refusing to be carried away by preconceived views, face the reality of things in Russia in a reasonable spirit."

FORESEES REIGN OF ANARCHY

Milukoff Fears Czar Will Throw Away His Opportunity.

ST. PETERSBURG, May 22.-Professor Milukoff, the spokesman of the Constitutional Democrats, according to a thoughtful article published by him in the Rech today, is rather despondent

the Rech today, is rather despondent over the prospect of staying the tide of revolution in the country.

He bases his peasimism upon the conviction that the Government will not yield a full constitutional regime, with which he says it is still possible to calm the passions of the people. He regards Premier Goremykin and his Cabinet as mere puppets doing the bidding of the powerful influences at court, and believes that Emperor Nicholas is destined to throw away the opportunity, as Louis XVI did, of transferring the country to a peaceful, Parliamentary regime. This the professor considers the government's last chance, and he thinks a refusal will to the ground from under the Country to the ground team. cut the ground from under the Consti-tutional Democrats and strengthen the revolutionary elements, which are preaching that Parliamentarism is an IIlusion, and make anarchy and a bloody revolution inevitable. Nevertheless the Constitutional Democrats will persevere in their attempt to place the country on a solid constitutional basis, and if they fall and disaster follows, the responsi-bility will not be upon their shoulders. The central committee of the Consti-tutional Demograts has completed the drafts of the laws to be introduced in Parliament, including universal suffrage irrespective of sex and equal rights for all citizens; laws guaranteeing immunity of the person and inviolability of domi-tile except by due process of faw, provid-ing also the guarantee of habeas corpus and specifically excluding all exceptions. While no party at court favors a complete surrender to the demands of the Lower House of Parliament, the Trepoff which secretly favors a dissolution of Parliament, is not strong enough for the moment to seriously urge such a course. The Emperor continues well disposed and is supported not only by many nobles at the court, but by other big landed proprietors throughout the coun-try, who now seem fully convinced that unless the peasants can be measurably satisfied by a compromise on the land question, a revolt of the peasants against the nobles will be aroused, which will ruin the latter, as the peasants will forcibly seize their property to the accompaniment of horrors and excesses.

SHARP ATTACK ON TRUESDALE

Federal Judge Scores Railroad Pres ident for Breaking Contract.

NEW YORK, May 22. Sharp criticism Delaware, Lackawanna & Western Railroad, for breaking a contract to carry milk on that road was contained in a de cision of the United States Circuit Court of Appeals, which was handed down to-day. Damages amounting to \$187,833 were awarded to Robert E. Westcott, executor of the estate of John H. Paul, who had a contract under which he bought great quantities of milk from farmers and shipped it over the Lackawanna.

Judge Wallace said that Mr. Truesdale's repudiation of the contract was inspired by sordid motives and committed with an "arrogance born of scorn of the consequences"; that the appropriation of Westcott's percentages of the money which the defendant had collected for which the defendant had collected for him was "morally no better than larceny," and that "conduct like Truesdale's by those who manage the affairs of great corporations has aroused the spirit of resentment in the public mind, which is so intense today, and which is not unlikely to result in litigation and in municipal interference which will bring serious loss upon the stockholders."
