### Suddenly Organized Revolution Threatens to Change President in Guatemala.

## INVADED AT FOUR POINTS

#### Barillas Heads Movement to Crush Tyrant—Armies Advance From Four Sides—Nicaragua and Salvador Help Them.

MEXICO CITY, May 28.—Advices received this afternoon from Tapachula and Tonala, in the Mexican State of Chiapas, show that a revolution against the existing administration of President Estrada Cabrera of Guatemala broke out yesterday and Guatemala was invaded from four points by as many bodies of armed men, all equipped with the best modern rifles.

General Manuel Leandros Barillas, formerly President of Guatemala, with 300 cavalry and a stock of 700 rifles, crossed the Mexican border at a point near Motozintla and is aiming at Quetzaltenango, a large town garrisoned by Guatemalan regulars.

Barillas has great coffee estates in that neighborhood, where he is very popular and whence he was driven four years ago by President Cabrera. It is believed that Quetzaltenango will be taken without much bloodshed. Barillas successfully evaded the search of the authorities. He will recruit new men on his ranch across the mountains, the people being loyal to him, as he has reason to know.

#### Capture Base on Coast.

General Jose Leon Castillo captured Ocos yesterday without much resistance. He took that point with 500 men and was received with enthusiasm by the people. The steamer Empire State, from San Francisco, which left that port May 14 with 300 desperate fighters recruited in that city and some 300 rifles, has reached Ocos, thus enabling the disaffected citizens to be armed.

General Castillo was a rival candidate for the Presidency seven years ago against Cabrera, but alleges that he was counted out and he has a long series of scores to settle with the Guatemalan President.

#### Ocos is the most important point for revolutionists, as it gives them a base on the sea.

#### Means War With Salvador.

General Pineda, with a large force of good fighters, crossed into Guatemala Sunday from British Honduras and invaded the Province of Peten. Pineda is a stalwart soldier and a typical Guatemalan revolutionist. He expects to rally the Indians in Peten.

Simultaneously on Monday General Toledo, ex-Minister of War in Guatemala, crossed into Guatemala with 2000 troops, including the Salvadoran regulars and disaffected Guatemalan regulars and from the tyranny of Cabrera. This important body of troops is well drilled and armed with modern weapons. This act practically declared war by Salvador against Guatemala.

#### Nicaragua Takes a Hand.

Nicaragua also takes part by sending a warship from New Orleans to Puerto Barrios, the sea terminus of the Guatemalan Northern Railway, to intercept President Cabrera, should he try to elude his pursuers and escape in that direction.

The revolutionists are recruiting all on the way on their respective lines of march, and all planters in Guatemala are disgusted with the open robbery of Cabrera and the onerous taxation, and are rallying to the support of the revolution. German planters offered a drilled body of men, Americans and British are similarly disaffected.

Guatemala is reported honeycombed with sedition, so high runs popular sentiment against President Cabrera, who for a long time has had to make public appearance with an armed guard to protect his person.

#### Disguised as Yankee Prospectors.

The Mexican Foreign Office gave prompt warning to the Chiapas State officials to send Barillas back to Tonala as soon as the news came that he had left this city, where he had been quietly journeying since leaving San Francisco. Barillas and Castillo went down to the border disguised as Yankee and prospector, but had previously, through the parties, arranged a base of operation on the Mexican side, opposite Ocos. They had sent to mining men their arms boxed as mining machinery, and had assembled men in their confidence at that and other points. The movement was superbly organized, as is seen by the participation of Salvador, and the promised aid of Nicaragua.

#### Cabrera's Generals Untrue.

Cabrera had an inkling that trouble was brewing on the Salvador frontier, but had no suspicion of invasion from other points. He had garrisoned 4000 troops at Guatemala City, but it was reported today at Ocos that his Generals are mostly disaffected and will surrender to Barillas on his appearance. The latter wishes to avoid bloodshed as far as possible.

#### Barillas is about 60 years old and a strong and resolute soldier. He became provisional President of Guatemala in April, 1885, and was elected to the Presidency in 1892, and began to serve a six-year term. In 1892, when Jose Maria Reina Barrios took office, Barillas retired to his country estates and even took minor offices, setting an example of disinterested patriotism. He has the record of being the only President in Guatemala who did not endeavor to prolong his term of office.

#### Will Modernize Republic.

The revolutionists have ample funds and have spent a large amount of money in preparation for this coup. They will be able to pay all their recruits as they advance into the service. If the revolution succeeds, it will be one of the shortest on record. The revolution has found support, as is shown by the amount of funds available, and it is well known that its object is to completely modernize that country, which programme is to make a well governed republic. Railways will be rebuilt, banking systems reorganized and taxes reduced so planterism can exist.

#### Will Elect Senator in Delaware.

DOVER, Del., May 28.—Governor Lea today issued a formal call for a special session of the Delaware Legislature, to convene at Dover on May 31. The chief purpose is to ballot for a United States Senator to fill the existing vacancy. The belief prevails that the deadlock on the Senatorship, which has existed for more than ten years, will be broken, and that the state will again be represented by its full quota in the upper branch of Congress.

#### Britain Would Release Black Sea Fleet—Germany Vigilant.

ST. PETERSBURG, May 28.—Germany is displaying the keenest interest in the negotiations for an Anglo-Russian understanding. In response to her representations, Russia has officially disclaimed any intention of making an agreement hostile to Germany, and has promised to advise her of the terms before the agreement is consummated. There is a strong intimation that Great

### Spanish Parliament Welcomes Princess Ena.

MADRID, May 28.—A delegation of the foremost men in the Chamber of Deputies and Senate, without distinction of party, visited the Pardo Palace tonight and presented Princess Ena of Battenberg, the future Queen of Spain, an address of welcome on behalf of the Spanish Nation. This action is significant of the sincere cordiality with which Spain has received the foreign Princess. King Alfonso, with Princess Ena, received the visiting statesmen in the grand salon of the Pardo Palace. Senator Canalejas, President of the Cortes, addressing the Princess, said:

### APPROVES KING'S CHOICE

Heaps Compliments on Alfonso and His Bride and Promises Happy Life—Royal Couple in Automobile Parade.

Madame: We come before your royal highness both as representatives of the Parliament of Spain and as representatives of the Nation to convey to you the assurance, without the slightest semblance of flattery, that if the nation itself had chosen a spouse for its King, as our august sovereign has seen fit to select a Queen for his people, the aspirations of Don Alfonso XIII would have coincided most happily and completely with the wishes of his people. His majesty has been a model son and a model brother, which inspires us to confidence that he will be a model husband.

As to Parliament, we will do our utmost that your highness may be happy and may not regret parting from your native land. Your highness, in aiding the task of the King, will work for the good of Spain and to this noble purpose let us all consecrate our best efforts.

Lopez Dominguez, President of the Senate, spoke in a similar strain. Later in the day the municipality of Madrid extended its salutations to the Princess and presented her with an address. Princess Ena received the city's representatives most graciously, conversing with the leaders of the delegation.

During the afternoon King Alfonso took the Princess in an automobile to the Escurial, where wreaths were placed on the tombs of Spanish sovereigns buried there.

### AUTOMOBILES IN PARADE.

King and Bride Lead in Festive Occasion at Madrid.

MADRID, May 28.—The feature of today's festivities in honor of the wedding of King Alfonso to Princess Victoria, as Spain's term Princess Ena of Battenberg, was an automobile parade in which the royal party participated. Two hundred machines, decorated with flowers and flags and filled with pretty women in gay costumes, defiled through the streets, which were packed with holiday crowds.

On passing the royal palace, King Alfonso, Princess Charles and Ferdinand and the Infanta Isabella joined the procession, the King and Princess driving their own cars. The route was to the Pardo palace, where Princess Victoria reviewed the parade.

During the trip the King observed a soaring eagle, called to the gamekeeper for a rifle and fired, but missed.

Mr. Whitridge, the special envoy of the United States, will arrive here at midnight.

### EMPEROR SIDES WITH KOSSUTH

Concession to Hungary Causes Austrian Cabinet to Resign.

BUDAPEST, May 28.—The Emperor-King has empowered the Hungarian government to present the common customs tariff before the Hungarian Parliament as an autonomous Hungarian tariff. It is identical to the same tariff under a new name, and is presented to Parliament in order to satisfy Hungary, which maintains that she has the right to an independent customs area. The Austrian government bitterly opposed the concession, demanding that the tariff should come into force as a general customs tariff for both countries.

VIENNA, May 28.—Premier Prince Conrad von Hohenlohe-Schillingluefer and Cabinet have resigned because of dissatisfaction with the proposals for the settlement of the common customs tariff of Austria-Hungary. The Prince says that yesterday's announcement from the Hungarian side to the effect that an agreement had been reached was unfounded. Count von Gondek, Governor of Bohemia, has been summoned to Vienna. It is regarded as probable that he will be charged to form a new Ministry.

It appears that after yesterday's council the Emperor received Dr. Wekerle in private audience and authorized him to announce to the Hungarian Parliament His Majesty's consent to the common tariff being henceforth called the autonomous Hungarian tariff. When Prince von Hohenlohe-Schillingluefer learned of the concession, he summoned the Ministers, and they all decided to resign.

Strathcona Not Implicated.

LONDON, May 28.—In the House of Commons today John J. Mooney, Irish Nationalist, called the Government's attention to the Canadian immigration scandal and asked if the charges implicated Lord Strathcona and Mount Royal, the Canadian High Commissioner, and whether the Government proposed to sever relations with Canada.

Walter Bunciman, Parliamentary Secretary to the Local Government Board, replied that Lord Strathcona had informed the Colonial Secretary that the charges did not implicate him in any way, either personally or in his capacity as High Commissioner. The Colonial Secretary, therefore, did not propose to make any representations to Canada on the subject.

Princes Start for Madrid.

PARIS, May 28.—The Prince and Princess of Wales, the Grand Duke Vladimir of Russia, Prince Ludwig and Alphonse of Bavaria, and Prince Andrew of Greece left Paris today for Madrid to attend the wedding of King Alfonso.

Kaisers Will Confer in Private.

BERLIN, May 28.—Emperor William's approaching visit to Emperor Francis Joseph will, at the request of the Austrian Government, be quite private. Political meaning is given to the visit by
