Dr. Andrew C. Smith, of Portland.

Education on Tuberculosis.

In a paper on "Some Ways to Prevent the Spread of Tuberculosis," which was read in the absence of the author, Dr. William N. Bezgo, of Denver, advocated the development of educational influences. The first of these, he said, should be legislation. Anti-tuberculosis societies were cited as of great advantage, as well as "the possible influence of the lay press."

NOT POLITICAL MOTIVE

Miners Federation Denies Forcing Socialism on Its Members.

DENVER, June 7.—The action of the convention of the Western Federation of Miners at the opening session whereby two of the delegates were unseated caused the charge to be made that the Socialist tendency of the Federation was the real reason for turning down the two men referred to. Resolutions prepared by a committee appointed for this purpose were adopted unanimously today refuting this charge.

BOY FORSAKEN BY FAMILY

Evidently of Wealthy Parentage and Probably Kidnaped.

BOONEVILLE, Mo., June 7.—The conductor of the Missouri, Kansas & Texas flyer left a 5-year-old boy with the station agent here yesterday, the boy having been placed in his care by a man at San Antonio, Tex., with instructions to put him off at Booneville, where relatives would meet him. The youngster gave his name as William Farris. No relatives have appeared. The boy is well dressed and has a suit case with plenty of fine clothing. He said his father's name is William Carstead. He talks of living in New York with "Aunt Lizzie." He tells of servants and electric lights and his prattle indicates that he lived in a home of wealth. The supposition here is that the child was kidnaped in New York and, when closely followed, was sent to Booneville to get him out of the way. Every label and mark where he could be identified or his home ascertained has been removed from his clothing. The little fellow is bright, has brown hair and brown eyes and talks plainly and precisely. He spoke of having been brought to San Antonio from Torreon, Mexico, and mark where he had been for some time with his father. Some advance the theory that the boy has been abandoned by parents who wish to dispose of him. The boy cannot remember the address of his New York home. Forgiven for Staying in America. MADRID, June 7.—The Official Gazette today published a decree granting amnesty to all army and navy deserters residing in America.

Strengthen the Bond

KAISERS EXCHANGE MESSAGES WITH ITALIAN KING. Each Vows to Maintain Alliance, but Victor's Words Lack Warmth. Hungary Likes William. VIENNA, June 7.—Emperor William proceeded today to visit Count Vans von Willesek at Krenstein Castle, accompanied by the German Ambassador and the Imperial suite. The telegrams exchanged yesterday between the Austrian and German Emperors on the one hand and the King of Italy on the other evidently were drawn up with the view of discouraging a continuance of the reports of coldness between Emperor William and King Victor Emmanuel, and the latter apparently weakening of the Dreibund. The two Emperors telegraphed jointly as follows: "As two allies we send you, the third, a sincere, united expression of unalterable friendship." The Italian King's reply was equally warm-hearted. He telegraphed: "I share your satisfaction in our unity and beg that you will accept the assurance of my true and inviolable amity." Emperor William departed for Berlin at 9:30 this evening. The two Emperors bade each other a cordial farewell at the station. Emperor William's visit to Vienna was consequent upon the cold weather and unceasing rain. The principal feature of the visit was the exchange of telegrams among the sovereigns of the nations in the triple alliance, which is generally attributed to the initiative of the German Emperor, and the marked attention which Emperor William paid to Dr. Weisker, the Hungarian Premier. The latter apparently has borne fruit in the appreciative editorials printed in the Hungarian coalition newspapers, which referred to the Austro-German alliance. King Victor Emmanuel's reply to the
