British Army Sends Inspector to Watch Packers.

LONDON, June 7.-The House of Commons reassembled today after the Whitsuntide recess, and set to work on the army appropriations. In the course of the debate Hugh Cecil Les, Liberal, a newspaper proprietor, who has served in the British and American armies, pressed the government for an assurance that no more American tinned meat would be purchased for the British army. He asserted from personal observation that the condi-tions under which it is macked are reions under which it is packed are reolting

War Secretary Haldane replied that he would be sorry to insist that all tinned meats must be bought in the tinned meats must be bought in the United Kingdom. He intended to pur-chase wherever he could procure the best and purest, and had already se-lected an officer who was an expert in these matters and had sent him to the United States to inspect all tins carefully before any were purchased. That course would be pursued in the case of all tinned meats. Mr. Lea asked if this officer would have access to the factory and be able to see how the work was done, to which the Sec-retary repiled: "That is why I am sending him to report. The statement was positively made in the report that the hog was not cleaned, he said, when, as a matter of fact, Mr. Nell had admitted he had not

"That is why I am sending him to America. He will see the meat in process of manufacture before it is ent here.

The Secretary added that the War Office had bought large quantities of linned meat in America, and had al-ready contracted for further supplies. At the present moment, the Secretary reminded the House, the United States was not the only place where had meat was not the only place where had meat was turned out. The question of the purity of British products had been raised at times in the past. The whole question required investigation. He knew personally under what disgust-ing conditions meat in some cases was packed in the United States.

RITZVILLE, Wash., June 7 .- (Special.) -The threshing machine men of the coun -The threshing machine men of the coun-ty held a meeting recently and it is re-ported that among other things done they agreed to charge 8 cents a bushel for threshing this Fall. They have hereto-fore charged only 6 to 8 cents a bushel. The increase in the price of sacks of from 6 to 8 or 10 cents aplece and the advance on threshing will materially affect the profit to farmers, there being a cdsh out-lay now of 18 cents a bushel. There will be an effort in many cases to

Not Open to Public. It was a mistake to state, as Mr. Wil-son did yesterday, he said, that the packing-houses are open to the public. He then described the hog-sticking process, and said:

The committee then adjourned until
