# CHAMBERLAIN FOR THE PRESIDENCY

Democrats of the Coast Are Now Boosting Governor. for Nomination.

WHAT ALEX SWEEK SAYS

Thinks It Would Be a Great Thing for an Oregon Man to Enter Hace for the

Democrats of the Pacific Coast regard Democrats of the Pacine Coast regard Governor George E. Chamberlain as a possible Presidential candidate, and it is declared by some that at the next con-vention of the Democratic party, which will be held two years hence, a fight will be made to secure his nomination. Alex Sweek, chairman of the Democratic State

Sweek, chairman of the Democratic State Central Committee, stated yesterday that he believed that Governor Chamberlain, if he so desired, could secure the support of the Western and Southern delegations for the Presidential nomination.

There has been some little publicity given the likelihood of Governor Chamberlain being a candidate for the Vice-Presidency, with Bryan as the nominee for President. Mr. Sweek, however, is Presidency, with Bryan as the holimited for President. Mr. Sweek, however, is decidedly of the opinion that if the name of Governor Chamberlain is brought before the convention, that it will be for the Presidential nomination. Following the election of last Monday dozens of telegrams were received at the Demoratic headquarters congratulating the cratic headquarters congratulating the Oregon Democracy upon the victory they had achieved in the election of Governor Chamberlain, and suggesting that the West unite upon him as their candidate for the Presidential nomination at the next National convention.

## Boosted by Coast Democrats.

Mr. Sweek, when seen yesterday, said Mr. Sweek, when seen yesterday, said he could not, for various reasons, divulge some of the telegrams that had been received, but confirmed the report that some of them strongly mentioned the name of Governor Chamberlain for President. He said that some of these messages were from among the most prominent Democrats upon the Pacific Coast.

For some time, leaders of the Democratic party in the East have taken

cratic party in the East have taken marked interest in the election in Oregon, and it has been stated that they also have considered Governor Chamberlain a posstble candidate for the nomination seble candidate for the nomination for President upon the Democratic ticket, provided he could be re-elected to the Gubernatorial chair in Oregon. Before the elections a great deal of correspondence was carried on between the party leaders in Oregon, and the prominent Democrats of the East. When questioned yesterday as to whether the name of Governor Chamberlain had been mentioned in the light of a probable or possible candithe light of a probable or possible candidate at the annual convention, Mr. Sweek declined to answer either in the affirmative or the negative. He stated that he was not in a position to make any state-ment regarding the correspondence.

## His Friends Enthusiastic.

Some of the friends of Governor Chamberlain are highly enthusiastic over the proposed concentration of the Western Democrats upon Governor Chamberlain as their Moses, and say they will do as much as they can to give impaire to much as they can to give impetus to the movement. They are of the conviction that Governor Chamberlain could control the Western delegations and are satisfied he could receive the support of the delegates from the South. They are not con-fident that he could secure the nomina-tion, but think that he could make a table showing, which would reflec

much credit upon him and bring Oregon prominently to the front.

It was learned from an authoritative source yesterday that two years ago at the National convention, held at St. Louis, when Judge Parker was nominated, that the Southern delegation offered to supthe Southern delegation offered to sup-port Governor Chamberlain for the Vice-Presidency, but that he refused to be a candidate. He is originally from the South, where he has many very influential

## Alex Sweek's Statement.

"There is a very strong sentiment among the Democrats of the West in favor of making an attempt to secure the Presidential nomination for Governor Chamberlain, and it may crystallize into something definite," said Mr. Sweek yes-terday afternoon. "I believe, as do others, that he could swing the support of the delegations from the Western and Southern States. The many telegrams received from the prominent Democrats from all along the Pacific Coast which mentioned his name in that respect, and other cir-cumstances, give us some grounds for that belief.

'From my way of looking, I hardly think that it is probable that Governor Chamberlain could secure the nomination. If Oregon were situated in the Middle West, or in the East, his wonderful per sonality, splendin record in office and the great victory he has won, would, in my estimation, make him one of the strong est men the Democrats could put up for

## Not for Vice-President.

"But I doubt if the big Eastern leaders would support any man from the Far West. Governor Chamberlain could prob-ably be nominated for Vice-President, but I do not think that his admirers and those who are ready and willing to sup-port him want this. It would be a splen-did thing for Oregon if he could make a

Because of the recent election in Ore gon, Governor Chamberlain has attracted much favorable attention in the East. The two remarkable campaigns for Governor he has conducted in this state are almost in the face of an overwhelming Republi-can majority. This has aroused consid-erable enthusiasm among the Democrats of the Pacific Coast, and has set the leaders in the East to talking."

## RECOUNT MAY BE DELAYED

COURT IS CROWDED WITH ACTIONS AT LAW.

Suggestion Is Made That Judge From Another District May Be Called to Preside.

Indications are that there may be some delay in recounting the votes in the con-test between Sheriff Word and Robert L. Stevens, for the office of Sheriff. Henry E. McGinn, attorney for Sheriff Word, in the contest notice, asks that the recoun begin June 18. Judge Sears has discovered that the court will be very busy at that time, and also that Mr. McGinn is one of the attorneys in the Jew Nun mur case, the trial of which begins June Mr. McGinn has stated that the contest can proceed without his presence, and that W. T. Vaughn will represent Sheriff Word's interests as counsel. Judge Sears has been considering the advisability of calling in one of the outside Judges, and the name of Judge Eakin has been sug-gested as a desirable jurist to preside over the recount. It will be necessary to pay the expenses of a Judge from anothe district, which Judge Sears does not care to do out of his own pocket. The attor ney representing Mr. Stevens has not yet appeared in court, and no official action has been taken at all by Judge Sears, who has merely informally discussed the matter. Just what will be done remains

George Wildman, an Indian boy 11 years ld, has disappeared in a mysterious man ner. A week ago the boy was put aboard the Roanoke, at Eureka, Cal., with pas-sage pald to Portland, whence he was to go to the Indian school at Chemawa. Professor Campbell was on hand to meet the boy, but he failed to appear. The steam-ship attaches did not recall having seen the boy during the voyage from Eureka and yet his name appears on the pas-senger list. The police were notified yesterday and are investigating. It is thought possible that the boy fell overboard while at sea and was not

Annexation of territory embraced in the Montavilla school district and the northern portion of Mount Tabor, district No. 5, brings into the city an estimated population of 4000, with the problems of supplying the new residents with water and schools. The agitation for the annexation of this district had been in progress for the past 15 years. The main argument used was always inadequate water supply, which was given renewed force in recent years by the great shortage of water, causing positive suffering until the City of Portland came to the relief of the two districts a year ago by selling the Mount Ta-bor Water Company 50,000 gallons of water a day. Part of the Meunt Tabor district had already been annexed under the in-

Itiative and referendum and legislative enactment, with a provision that it should not affect the school government of district No. 5. Therefore, whatever may be the status of the portion annexed Monday, that portion of No. 5 south of the Base Line road is not now a part of the Portland district.

They are to be supplied from the 24-inch main now laid from the high-service reservoir, which will supply 35,000 people. what course will be taken to supply the people with Bull Run water remains to be seen. It is announced that the local water company will soon issue a statement to the consumers announcing what action the company will take under the changed conditions. Along with schools and water will come street improvements, fire protec-

tion, electric lights, police, sewers and other things. The people will realize what the responsibilities of being part of the city really means, and they will also find that all these advantages will have to be paid for by them, but that on the whole they will be largely the gainers by annexation.

TEACHERS SEEK EMPLOYMENT IN CITY SCHOOLS.

Twice as Many File Petitions as There Are Places in the

More applications for positions during the coming year in the public schools of Portland have been re-ceived by City Superintendent Rigler than have been filed any year in the past. The annual election of teachers will take place within a few days and ndications are that the Board of Eduncation will be fairly swamped with applications when it takes up the difficult task of choosing teachers. The exact time of the meeting will be set at the meeting of the board next Monday evening.

Monday evening.

Altogether about \$50 applications for positions in the schools have been submitted to the board for its consideration. Including the physical cul-ture department as well as the teach-ers there is employment for 415 perions in the schools of the city, With the exception of six, all of the tinued in their present places during next year. In addition to these, 460 new applications have been filed, which is nearly 200 more than usually received.

Superintendent Rigler believes that

the unusually large number of appli-cants this year is due to the Lewis and Clark Fair. A large portion of the new names submitted come from without the state. These, almost without excep-tion, he says, are young people who came to Portland during the Exposition and were so well pleased with the city that they now desire to return and so seek permanent employment as teach Others of the applicants are local persons and some come from other parts

of Oregon.

It is believed that in the great majority of cases the positions will go to the present occupants as it is generally conceded that the teachers of the city have been doing excellent work during the present year,
