LASHED BY STORM

Ontario Towns Laid Waste by Wild Hurricane.

MILES OF WIRES LAID LOW

Wind Sweeps Through Hamilton at 85 Mile an Hour, Snapping Off Trees and Wrecking Builds ings-Other Towns Suffer.

HAMILTON, Out., June 8.-A terrific wind and rain storm swept Ontario today from one end of the southern peninsula to the other, demolishing buildings, upto the other, demolfshing buildings, up-rooting trees and leaving the telegraph and telephone lines in a tangled mass of wires. Linemen who were sent out as far as Dundas, five miles west of here, report that miles of poles are down, and that it will take several days to restore anything like normal conditions. Nothing like an accurate estimate of the damage can be given tonight.

Cuts Off Big Trees.

The storm struck this city at 4:25 o'clock this afternoon, and for 20 minutes the wind tore through the streets at the rate of 85 miles an hour. Immense oak and maple trees were cut off at the base as cleanly as though a saw had been used. Buildings were demolished and electric wires of all kinds prostrated. The street-car service was suspended for four hours. Forty buildings were blown down. The roof of the warehouse of the Deering Agricultural Implement Company was blown off, and some of the smaller buildings of the plant were wrecked. The roof was blown off the Hamilton Vinegar Works and a wing of the Hamilton Club was razed. The steeple of St. Paul's Church was badly damaged. Reports from the rich fruit farms in the

valley east and west of Hamilton state that the damage to fruit there will reach many thousand dollars.

Panie at Racetrack.

This was ladies' day at the racetrack and the grandstand was crowded with women when the atorm broke. The horses were parading past the stand for the second race, but they were sent back to the paddock. When the wind reached such a velocity that it threatened to wreck the stand, a panic seized the crowd. Many of the men climbed over the fence into the infield, where they lay flat on the ground

in the drenching rain.

The storm lasted less than half an hour.

Nothing has been heard from Paris,

Woodstock and London, cities west of here in the path of the storm, Several passenger steamers which reached port today, had a trying expe-

rience on the lake.

A number of people of this city sustained slight injuries, but, so far as known, no one was killed.

WIND TEARS CHATHAM LOOSE

Blocks Streets With Trees, Bricks and Wreckage and Scares Girls. DETROIT, Mich., June 8 -- A News spe-

cial from Chatham, Ont., says: Thousands of dollars damage was done by a terrific wind and rain storm which swept this city early this afternoon. Houses and buildings were twisted out of plumb, chimneys were torn down and the streets blockaded with trees and other So far as known, no one was seriously injured.
At the Collegiate Institute the wind

tore the skylights from the building, throwing the girl pupils into a panic. Wires of all descriptions are down, and traffic on the trolley line to Wallaceburg is suspended. The long-distance lines out of the city are out of order, and it is impossible yet to learn the damage does ssible yet to learn the damage done by the storm in the country hereabouts.

CANADIAN PACIFIC BLOCKED Flood Sweeps Out Bridges and Overflows Tracks,

ST. PAUL, June 8.-A special to the Pioneer Press from Winnipeg says that all eastbound trains on the Canadian Pacific Railrond are being held at Medicine Hat because of washouts at Walsh and Kincorth. The place has been without railway communication with the East since Thursday. Recent heavy rains have caused freshers in all streams. caused freshets in all streams

of track are under water. It is impossi-ble to tell when the blockade will be lifted as repairs to the roadbed cannot be made until the waters subside.

MANY TOWNS ARE DAMAGED Wires Down All Through Peninsula of Ontario.

LONDON, Ont. June 8.—The atorm which prevailed in Ontario did a great deal of damage in a number of towns. In St. Thomas, several buildings were damaged and telegraph and telephone lines were prostrated. A cyclone passed southeast across the Western Peninsula, the villages of Rodney, West Lorne, Dutton, Sheddon, Iona and Fingal being in the storm's track. At these places damage was done, but no lives were lost damage here is slight.

REPORTS OF LOSS OF LIFE Eight or Nine May Be Drowned in

St. Clair. DETROIT, Mich., June 8.-A torrential ain storm, accompanied by a 40-mile wind, swept Detroit just before 6 o'clock. the reports was that eight lives were lost Belle Isle; another was that a child had been swept, off the Belle Isle bridge.

Want Reed Smoot Expelled.

WASHINGTON, June 8.—That Reed Smoot of Utah should no longer be permitted to hold his seat in the United States Senate was the unanimous sentiment of the National League of Women's Organizations, declared at a special meeting in this city today, which was presided over by Mrs. Frederick Schoff, of Philadelphia, who is also president of the Methers Congress Resolutions were unanimously adopted reciting, among other things, that Senator Smoot "sits in the Senate as an apostle of polygamy and the representa-tive of a treasonable organization," and therefore should no longer remain a memtherefore should no longer remain a mem-ber of its body and participate in the making of laws for the moral and patri-otic guidance of the women and children of our beloved country." Later the dele-gates proceeded to the White House in a oody and were received by Presiden

Troops Leave Ohio Mines.

COLUMBUS, O., June 8-The Eighth Ohio Regiment has been relieved from further duty at the mines in Jefferson County, quiet having been restored.

PRY JACKSON LOOSE

May Lose His Job Through Reindeer Deals.

HARRIS STANDS BY HIM

Hitchcock After Alaska Official's Scalp and Has Quarrel With Harris Because He Tries to Ward Off Blow.

OREGONIAN NEWS BUREAU, Washington, June 8.—Dr. Sheldon Jackson's reindeer exploits in Alaska will be thoroughly aired in a report which Secretary Hitchcock will send to Congress next Monday. Mr. Hitchcock has long been endeavoring to force Jackson out of the ervice, but the latter has the backing of the Presbyterian Church and has so far been able to withstand the pressure. Last Summer Mr. Hitchcock sent In-spector Churchill to investigate the rein-deer business, and his report was most damaging to Jackson, and is said to war-rant his dismissal, but even this report falled to bring results. Commissioner Harris, of the Bureau of Education, and Jackson's immediate superior, has cham-pioned the cause of Jackson, and a bitter feeling has been aroused between him and Mr. Hitchcock, which may lead to Mr. Harris' dismissal, in case Jackson is pried

The entire correspondence, including Mr. Churchill's report is to be made public, and Congress left to decide how the case shall be disposed of.

POSTMASTERS' SALARIES GROW

Increases Given Many Washington Presidential Offices.

OREGONIAN NEWS BUREAU, Washngton, June 8.-The Postoffice Depart-ment today announces these changes in salaries of Washington Presidential Postmasters, effective July 1: Increase—Aberdeen, \$2400 to \$2500. Auburn, Cosmopolis, Kalama, \$1000 to

Castle Rock, Newport, \$1100 to \$1200. Chehalis, Port Townsend, \$1900 to \$2000 Clarkston, \$1400 to \$1500. Colville, Pomeroy, Prosser, \$1500 to \$1600. Garfield, Lind, \$1200 to \$1400.

Harrington, Monroe, Odessa, \$1200 to Mount Vernon. Palouse, \$1700 to \$1800. Port Angeles, Puyallup, Sedro-Woolley, South Bend, \$1600 to \$1700. Pullman, \$3000 to \$2100.

Ritzville, \$1800 to \$1900. Shelton, \$1200 to \$1400. Snerton, 4380 to \$1400.

Snohomish, \$1800 to \$2000.

Sprague. Tekoa, \$1400 to \$1500.

Waterville, \$1500 to \$1600.

Decrease—Rosyn, Wilbur, \$1600 to \$1500.

Rural routes Nos. 2 and 3 have been ordered established August 1, at Ferndale, Whatcom County, Wash, serving 1439 people and 320 houses.

LAND RESTORED TO ENTRY

Several Oregon Irrigation Schemes Finally Abandoned.

OREGONIAN NEWS BUREAU, Washington, June 8.—As private parties in Oregon are becoming interested in ir-rigation lands withdrawn under the folowing projects, and as lack of funds will for some years prevent development by the Government, it is deemed inadvisable to obstruct private enterprise by continuing withdrawal, and the Secretary of the Interior has therefore restored the following lands to settlement to become subject to entry 90 days after notice. Malheur project—About 524,120 acres, lying in townships 13 to 20 south, ranges 41 to 47 east.

Chewaucan project-Township 31 south, range 18 east; township 32, ranges 17, 18 19; township 33, ranges 17 and 19; township 33, range 18; township 34, ranges 19 and 20. Owyhee project—Townships 21 and 22, range 46; townships 21, 22 and 23, range

Silver Lake project—Townships 26 and 27, ranges 14, 15, 16 and 17; township 28, ranges 13 and 14; township 28, range 15;

ranges 12, 13 and 14; township 29, range 15; township 29, range 16. Ana River project—Township 23, ranges 17 and 18; township 30, range 16; township 30, range 17; township 30, range 18; township

Investigations in connection with the Silver Creek project have been carried to a point where it is deemed advisable to restore to entry all land not necessary to the development of the project. The Secretary of the Interior has directed that the following land, title to which has not passed out of the United States he immediately restored to settle-States, be immediately restored to settlement: Township 24, ranges 26, 27 and 28; townships 25 and 26, ranges 27, 28 and 29.

Warship for Vancouver's Fourth. OREGONIAN NEWS BUREAU, Washington, June 8.—Senator Ankeny today asked the Navy Department that a warship be sent to Vancouver for the Fourth of July celebration. Secretary Bonaparte promised to arrange matters if any ves-sel is in the vicinity at that time.

ARRESTS RIOT LEADERS

Mexico Drives Out American Agitators From Greene's Mines.

BISBEE, Ariz., June &-As a result of

nel W. C. Greene last week, the American miners in the camp will be very few in number in the future, it is believed. They are crossing the lines in droves, and several hundred have arrived in Bisbee during the last 48 hours. On Thursday the Mexican authorities sent a mine representative through the mines notifying all American miners that those who were under suspicion of having agitated the trouble at Cananea, and had openly sympathized with the striking Mexicans would on the day following be placed under arrest. The result was a general exodus of Americans. It can be reliably stated that the American au-thorities believe that members of the Western Federation of Miners at Cananea secretly encouraged and abetted the strike, and members of this organization were the first to receive the notice to

As a consequence, the Mexican authori-As a consequence, the Mexican authorities have adopted strong measures to enforce orders to return to work. Thursday morning 70 of the Mexican ringleaders were arrested and placed in jail. As soon as this became known, the Mexican miners began returning to work, and 1590 made application for work at the old warse.

Wages. Colonel Greene denies the report that the wages of the Mexican miners have been increased. In a signed statement issued this afternoon he says that all men resumed work under exactly the same conditions as before, and no change in wages will be made under any circum-

The number killed in the riots will prob ably never be known. The Mexican au-thorities buried the dead on Saturday and Sunday nights without any attempt

at identification.

The Governor of Arizona and Mexican officers have been requested to send official reports to their respective governments concerning the taking of armed forces of American volunteers to Cananea Saturday morning by Governor Ysabel.

Coronation of King Haakon.

CHRISTIANIA, June 8.—The programme for the coronation of King Haakon VII and Queen Maud has been completed. The royal couple will arrive at Trondhjem the evening of June 19 and await there the arrival of the foreign Princes and Ambassadors. The coronation will take place at 11 o'clock in the morning of June 22 at the Cathedral and morning of June 22 at the Cathedral, and will be followed by a state dinner, musi-cal festivities, popular entertainments and processions, in which children will predominate. King Haakon on June 25 receive deputations and give a soirce at the palace.

WASHINGTON, June 8.—Lieutenant-Commander J. H. Globons has been des-ignated by the Navy Department to at-tend the coronation of King Haskon on June 26 as naval attache to the American Legation and as a representative of the American Navy.

Increase in British Commerce.

LONDON, June 8.—The May statement of the Board of Trade shows increases of \$22,387,500 in imports and \$22,386,000 in exports. The principal increases in imports were wool, grain and manufactures, but the import of cotton from America decreased \$5,000,000. The principal increase in exports was in manufactures, of which cotton goods increased \$7,500,000.

Dean Ritchie, of Minnesota, Resigns ST. PAUL, June 8.—Dr. Parks Ritchie, dean of the University of Minnesota, to-day tendered his resignation to the Gov-ernor.

(Continued from Page 1.)

(Continued from Page 1.)

The room is in a fair condition as to maint and whitewash and the floor is fairly clean. The ventilation about the soldering machine is not good. About the stuffing matchine a box is arranged on the floor to catch the failing meat. Near the cooking retorts the old clothes of the workmen were piled or hung on nails. The room was steamy and quantities of cannod voal having the appearance of age were observed. The rafters were encrusted with dirt, in some places to the depth of an inch, in the vicinity of the cooking retorts. In one place a quarter-inch stream of water was running on to the floor from a height of three or four feet. On the east side of the room the floor was very dirty. The celling was so arranged as to make this practically a half-story. It was very dark and only artificially lighted.

Pork and Beans Room Steamy.

Pork and Beans Room Steamy.

The pork and beans room was very steamy and the ventilation was poor was plenty of air entering this m, but no arrangement for carrying off the steam. The floor was strewn with sait for preventing putrefaction of blood, etc., in cracks and crevices, The beef-extract room in this building was also clean, but the extract kitchen was steamy and poorly ventilated. In the ham-packing room was a water-closet

which had no outside ventilation and was dark and dirty. Abattoir No. 2 was next described in the on which begins by stating:

The water closets in this canning es-tablishment are located in a separate room, clean in every particular and well A woman attendant was in charge of every women's closet,

In two cellars in No. 22 a small quantity of tainted meat was found. "In abattoir No. 32 the beef beds were well lighted and ventilated, but the floors were in a filthy condition. There were no water closets in this establishment. The

The report continues: Abattoir in Filthy State.

Abattoir No. 96 reminds one of the typical country slaughter-house, being indescribably filthy. In the sheep-killing room the floors were encrusted with dirt to the depth of about two inches.

The condition of this house is disgraceful and more unsantiary conditions for an abattoir cannot be well imagined. The coolers are old-fashioned, chilled by the primitive method of blocks of ice.

The gutroom is located in one corner of the building in close proximity to the killing floor and tanks. The ceiling was low and the room generally was in the most filthy condition of any gutroom we ever observed. There were no water closets in this establishment.

A number of other abattoirs were visited with no compisints.

The report concludes with recommendafor inspection legislation, while to have been followed in the Ber eridge amendment.

Answer to "Jungle" Articles,

A supplemental report, under date of April 13, is a comment on the "Jungle" articles in the London Lancet and other magazines. As an answer to the criticism this report says:

this report says:

The process of slaughtering cattle and packing the product is carried on in Chicago on a colossal scale and, it is true, in many instances sanitary features, such as light and air, are sacrificed to increase the capacity of the plants.

The reference to special legislation against Chicago by several foreign nations undoubtedly refers to the requirements of these nations that all pork from the United States shall be microscopically examined for trichinae. The inferences that horses are slaughtered for meat are erroneous, so far as fais committee is aware.

As to sanitation the report says that

As to sanitation the report says that inspection has been withdrawn from one Chicago slaughter-house since the report of April 3 was made. Some of the criticisms made in the articles concerning killing-rooms are concurred in. The charge that "anything like a thorough disinfection." tion of the premises is impossible and is never attempted" is denied. In answer to another of the "jungle" statements, the committee says:

City Has No Inspection Rules.

"The visit of the committee to Chicago disclosed the fact that the health depart-ment of Chicago had no written or printed regulations governing the inspection of "It is true that the relations heretofor existing between the city inspectors and the Federal inspectors at Chicago have not been as close as is desirable. This defect has now been remedied, however, and the regulations of the Bureau of Ani-

The method of killing from a humani-tarian standpoint is defended.

The report says regarding the state-

mal Industry have been adopted by Chi-

ments made that the Government does not attempt to examine sausage or similar products after they are finished: "Federal inspection is made at the time the animals are elaughtered and dressed." In reply to a statement in a magazine article published in New York to the effect that pork rejected for export is put up for the domestic market, the report says: "This report is grossly misleading."

DENIES INSPECTION IS LEGAL

Crumpacker Attacks Law and Wadsworth Bewails Loss.

WASHINGTON, June &-James B, Reyholds, the co-author with Charles P. Nelli of the beef report, was questioned today by the House committee on agriculture in continuation of its beef inspection hearings. Chairman Wadsworth wanted to know whether Mr. Reynolds' report had been made from personal knowledge or on assumption. "This report," said the chairman, "has cost the agricultural interests of this country millions and mil-lions of dollars, and if our foreign demand decreases in the next two weeks as I has in the past two weeks, the value of American livestock will drop anywhere from 30 to 50 cents a hundred pounds. But for the publication of this report, the foreign demand would have gone on as it had in the past. There was absolutely

A large part of the statement of Mr. Wadsworth was based on the fact that he had been a guide in the packing-houses. He declared that there were no places where guides were not permitted

to take visitors No Authority for Inspection.

Representative Crumpacker, of Indiana, discussed the constitutional questions in-volved in the bill, and asserted that the Beveridge measure unquestionably is in-valid, and already had been declared so by decisions of the courts. He referred to the case of the United States vs. Boyer, in which the defendant, in 1898, was charged with having tried to bribe a Fed-eral Inspector at Kansas City to pass bad meat. The opinion of Justice Phillips. said Mr. Crumpacker, was to the effect that the Government had no right to inspect the packing plants, and that its province was confined to the inspection of

province was confined to the inspection of meat for interstate business. Continuing, Mr. Crumpacker said that the inspection, to be effective, must be put on a legal basis. States must do the inspecting of meats in preparation for commerce, he said, for the Government can exercise no jurisdiction over the busi-ness, unless it is for interstate commerce There is no question, he said, that the packers could drive every Federal Inspector out of their plants, if they desired.
"If I were given the time, I could con vince every member of the committee of this, and my argument would be based upon court decisions," said he.

"Take the time," was the reply of several members of the committee in unison. To give him a chance to prepare himself, the committee took a recess.

Manufacture Not Commerce.

At the afternoon session Mr. Crumpacker, over a barricade of law-books, discussed the legal questions involved. He said that the question before Congress was whether it had authority to control a product intended for interstate company. He said the the statement of the rest. rce. He said the intention of the pack er was of no consequence, even if he ad-mitted he was manufacturing for interstate commerce. The product cannot be interfered with by the Federal authorities until it is actually offered for interstate transportation.

His deductions are that the Federal Government can have nothing to do with the manufacture of a commodity, as "Congress is limited to commerce, and commerce succeeds manufacture." Until a commodity enters the channels of com-merce, he said, Congress can exercise no upervision whatever.

Several members of the committee asked why the packers had not objected to the inspection in the last 14 years.
"Because," said Mr. Crumpacker, "the law was made for the packers. They desired it, and perhaps the country desired it, but they could obey such portions as they wished and ignore the rest. When the states have established a thorough inspection service of packing-houses and canneries within their boundaries, the question will have been settled for a

Kill Small Butchers' Business,

Taking up the Beveridge amendment, Mr. Crumpacker said it would put out of business all of the butchers of Indiana, Iowa, Michigan and Wisconsin who sell their produce to commission merchants of Chicago, for the Government could not give them inspection. He said this would be true of the states surrounding any of the markets of the country. He said there were about 180 inspectors in Chicago, and that either conditions in the packing-houses had not been examined or these men had been criminally careless

in permitting conditions too horrible to cattle industry of the President's action

exist without protest.

Representative Eills, of Missouri, spoke in the interest of the cattle and cattle business. He said that Government inspection was the only kind of service that would satisfy all parties concerned.

Mr. Ellis criticised the Neill-Reynolds report in speaking of dead hogs on the platforms at the stock-yards. He said the dead hogs were not within a quarter of a mile of the packing-house.

Will Not Call Sinclair.

The chairman was authorized to tele tee has found it necessary to give him a hearing. The committee also adopted a resolution not to go to Chicago. resolution not to go to Chicago.

The general sentiment of the members is that the hearings should be closed as soon as some of the officials of the Department of Agriculture, including Dr. Melville, Chief of the Bureau of Animal Industry, and Solicitor McCabe and representatives of the stock-growing interests had been heard.

QUESTION UP IN PARLIAMENT

Protectionist Asks About British Imports of Canned Food.

LONDON, June 8.-Sir Howard Vincent, Conservative member of Parliament for Central Sheffield, and one of the mos preferential treatment for colonial prod-ucts, has given notice of his intention to interpellate the president of the Board of Trade in the House of Commons on the subject of meat-packing disclosures in the United States. His question is evidently drawn up with the view to ex-tracting information which may be utilized by the fiscal reformers in pushing their propaganda. Sir Howard wants to know what is the total amount of the importation of American canned meats, game, fish, fruits and other preserved foods into the United Kingdom and the British Empire generally for the years 1900 and 1905 respectively, and in view of the recent disclosures in the United States and President Roosevelt's public stric-tures, what steps the Board of Trade pro-poses to take in order to protect the Britnsumers from the evil effects of

THEY DENOUNCE ROOSEVELT

Two Chicago Commercial Bodies Say Report Was Colored.

CHICAGO, June 8.-The Illinois Manufacturers' Association and the Chicago Commercial Association, at separate meetings tonight, denounced the Neill-Reynolds report of sanitary conditions at the stock-yards as highly colored, and scored President Roosevelt for sending it o Congress. These two associations con stitute the commercial voices of Chi-

President Orendorf, of the Manufacturers' Association, appointed a committee to make a thorough investigation of the stock-yards with the aid of the most eminent experts obtainable. The purpose of thi sinvestigation is to transmit the findings to President Roosevelt, in addition to publishing them for the benefit of meat-buyers in all parts of the world. The action of the directors of the Chi-cago Commercial Association was similar. A committee of investigation was appoint, ed and resolutions adopted asking the public to suspend judgment on the pack-

WILL BENEFIT CATTLEMEN

Ex-Senator Power, of Montana, Talks on Packing-Houses.
