LA GRANDE MAY HAVE BIG MILL

Town Will Offer Free Site, Worth \$8000, to Palmer. Lumber Company.

COMMERCIAL CLUB PLAN

Plant to Have Cutting Capacity of 150,000 Feet a Day of Ten Hours-Elgin Also Offers Bonus.

LA GRANDE, Or., June 10 -- (Special.)-The LaGrande Commercial Club is raising funds for the purchase of a site to be offered the Palmer Lumber Company as an inducement for that company to establish its sawmill plant at this place. An option is held on 73 neres on the river northwest of town, which can be secure for a little less than \$8000. About \$6000 of this amount has been pledged.

The Palmer Lumber Company has ex-tensive timber holdings below Elgin along the Wallowa extension. It is the intention to put in a mill of a capacity of 100,000 to 150,000 feet per day of ten hours, and the company has the timber to keep such a mill going for 20 years.

Three Sites Are in View.

Three sites are under consideration. One is on the company's own ground, near the timber; the other is at Elgin, and the third is at La Grande. Sawmill experts have been at work during the past two weeks, making estimates and calculations as to the advantages of each locality, and it is reported that the directors of the lumber company are divided in the matter

of choosing a site.

The company has asked nothing from any locality, but Elgin has offered a free site of 100 acres, and the La Grande Comercial Club has decided that It is a judiclous thing to make a like offer.

Company's Plans Not Known.

It is not given out authoritatively that the offer of this site will secure the mill for LaGrande, but those who are taking the lead in the matter believe that the

big plant can be so secured.

It will be worth the money if this matter of a site is all that stands in the way. The mill will employ 200 men, and will run on double time and as nearly as practicable all the year around. It will require at least a trainload of logs a day to keep such a plant going, and in various ways an industry of this kind located in LaGrande will increase the population 1590 in a year, and will proportionately stim-ulate all ones of local trade.

LARGE CLASS OF GRADUATES

Whitman College Will Give Dipiomas to 13.

WHITMAN COLLEGE, Walla Walla, WHITMAN COLLEGE, Walla Walla, Wash., June 8.—Whitman College will graduate the largest class in its history next Wednesday afternoon. The names of the 13 who will receive diplomas are Misses Lucille James, of North Yakima; Annie Rue, of Spokane; Winifred Gillam, of Walla Walla; Belle Wallace, of Saginaw, Mich.; Louis Sutherland Ridgway Gillis, Elmer Gross, Lather Williams, Rollin Dodd, Heber Ryan, of Walla Walla; James Gilbraith, of Dayton, Wash.; Frank Evans, of Huntsville, Wash., and Edward D. Baldwin, of The Dalles, Or.

commencement speakers are Belle Wallace, valedictorian; Annie Rue and James Gilbreath.

The exercises of commencement week began tonight, when the graduating ex-ercises of Pearsons Academy, preparatory department of Whitman College, took place in the college chapel. Eleven stu-dents received diplomas.

dents received diplomas.

Saturday evening occurs the annual graduating exercises of Whitman conservatory. Five young ladies receive diplomas from the plane forte department. They are Miss Harriet Young, of La Grande, Or.; Miss Frances Young, of Clarkston, Wash.; Miss Marjorie Lyman, of Walla Walla; Miss Bertha Bade, of Walla Walla and Miss Laura James of Walla Walla and Miss Laura James of Walla Walla, and Miss Laura James, of North Yakima

The class day exercises of the senior class of the college will occur on Tuesday afternoon. Besides the usual spade oration and presentation of the Roosevelt. chair, a new feature will be introduced in the form of a four-act extravaganza, com-posed and presented entirely by the senior class, assisted by the conservatory grad-

SUNSHINE FOLLOWS THE RAIN

Prospects for Crops Never Were so. Good in Lane County.

EUGENE, Or., June 10.—(Special.)—The long-continued rains have ceased, and the sunshine is coming along just about as the farmer would ask for it. W. G. Allen, of the Allen Canning & Packing Company, states that the rains did not ruin the strawberry crops or cause anyther. the strawberry crop or cause anything like the damage that people imagine. He gays that while the quality of the berries that have been marketed has not been up to the average, owing to the lack of sun-sbine, the crop as a whole has simply been set back, and the result will be that we will have berries until July unless some unforseen misfortune intervenes.

A few of the early cherries have been split open by the last rains, but not enough of this has occurred to cause any

considerable loss, as this crop has also been held back some. George Dorris says that hops have ever looked better; his only complaint a that the yield is likely to be so heavy all around that the price will be low. An unusual harvest of hay and grain is in prospect, while prunes, apples and pears will likely give a banner harvest. The whole prospect has seldom been as good for the middle of June as this year.

WASHINGTON COURT CASES.

Corporations Cannot Condemn Property at Will.

OLYMPIA. June 10. The Supreme Court has laid down the principle that an electric company can condenn private property for public use, but that it cannot condemn for the purpose of manufacturing power for private com-mercial purposes. The Olympia Light & Power Company sought to use Lawrence Lake, 25 miles from Olympia, but the owner of shore lands on the lake ob-jected, the lower court sustaining the

company's condemnation plea. company's condemnation plea.

The higher court reverses this decision, however, on the ground that the company does not show that it wants the additional power exclusively for the public purposes of operating its streetcars and furnishing public lights, rights

Brass Bed Company, respondent, vs. A. Hock, doing business as the Tacoma Lounge & Mattress Company, appellant, the Supreme Court holds that under certain conditions a defendant in a suit for money may set up a claim for loss of prospective profits against a plaintiff for making him such a defendant. In the matter of court proceedings to assess damages for the opening or widening of a street, different defendants may join in an answer to the suit and the clerk of the court is obliged to accept the answer on payment of a single cept the answer on payment of a single filing fee. The Supreme Court has laid down this principle in the case of the Jessie Kenney Presbyterian Home and others vs. Otto A. Case, clerk of King

GREAT CROWD HEARS SERMON

Bishop Keator Is the Baccalaureate at Agricultural College.

CORVALLIS, June 10.—(Special.)—The seating capacity was insufficient to accommodate the great crowd that assembled in the College Armory this mprining to hear the baccalaureate sermon, and many were compelled to remain standing throughout the service. The sermon was by the Right Rev. Frederic W. Keator, Bishop of Olympia. All of the city churches were closed for the occasion. A large attendance of alumni and others from abroad are in town and were presfrom abroad are in town and were pres-

rom abroad are in town and were present at the service.

The music was under direction of Professor Taillandier and included, besides the regular Episcopal service, "We Will Give Thanks," an anthem, by McDarren, and "Onward, Christian Soldier." a hymn. The graduating class numbers 47. The subject of Bishop Keator's address was, "The Value of Religion as a Life Force,"

years, and at the same time one of the longest contests. Great feeling was engendered.

and the text was, "Lord, to whom shall we go? Thou hast the word of eternal life."

W. F. DUDLEY APPROPRIATES FLOW OF LEWIS AND CLARK.

Astoria and Scaside.

ASTORIA, Or., June 10 .- (Special.)-Notice has been filed in the County Clerk's office by William L. Dudley, promoter of the proposed electric road between this city and Seaside, that he proposes to and does appropriate for the purposes of developing the mineral resources of the section and to furnish electric power and energy for light, heat, power and other purposes 5500 cubic feet of water per minute from the Lewis and Clark River at its junction with the South Fork. The notice says the name of the pipe line or flume through which this water is to be carried shall be the "Seaside Pipe Line" and William L. Dudley and his successors shall be its

The pipe is to be three feet in diameter The pipe is to be three feet in diameter and the flume is to be 10 feet wide on the bottom and six feet deep. The general course of the pipe line is to be northwesterly along the south and west bank of the river, a distance of one and a half miles, where, after serving the purposes for which it is appropriated, the water will be turned back into the river.

Two reservoirs are to be built, one at the head of the pipe line; which will not exceed 30 feet in height, and the other about 3000 feet up the Lewis and Clark River. The document does not say what the electric power generated is to be used for, but Mr. Dudley says it is to be stillzed in operating his proposed electric

Jury Disagrees in Damage Suit. OREGON CITY, Or., June 10.—(Special.)

—The jury in the \$5000 damage suit of
Mrs. Clara Bardorf against Councilmen Brandt, Justin, Knapp, Straight and Wil-liams, late last night reported inability to agree on a verdict and were discharged by Judge McBride. Action was to recover damages for alleged injuries resulting from a defective sidewalk, and was brought against the Councilmen individ-ually under a provision of the city char-ter which exempts the municipality from liability for such accidents but holds that damages may be recovered from any city officer upon showing that the accident results from neglect of his official duties. It is understood eight jurors opposed the verdict granting any damages while four thought the plaintiff should recover.

President Crook Made Address

ALBANY, Or., June 10 .- (Special.)-The ALBANY, Or., June 10.—(Special.)—The baccalisureate exercises of Albany College were held today in the United Presbyterian Church. The programme was an exceptionally good one. The large church was filled to its capacity when the opening number began. The music was a notable feature. A choir of 20 singers, comprising the cream of the musical talent of Albany, rendered two choruses from Mendelssohn's "Elljah."

The annual baccalaureate address was delivered by President H. M. Crook, of the college. The speaker chose for his theme, "The Human Element." The ad-dress was a polished, scholarly effort,

BUSINESS ITEMS.

If Baby Is Cutting Teeth, lic purposes of operating its streetcars and furnishing public lights, rights granted under its franchise.

In the case of the Federal Iron & and diarrbosa.

prevail in a county after a "dry" vote will prevail here at the end of the few will prevail here at the end of the lew days remaining before the first of July. Those who favored the prohibition side of the question are jubilant, and this includes most of the farming element of the county. Those who are opposed to prohibition are correspondingly dejected, and the situation has become quite tense in some instances.

some instances. Saloonmen are downcast over the turn affairs have taken. Many of them had considerable money invested in fixtures, etc., which will now be useless without the expenditure of money in moving them to a "wet" town. Many taxpayers the expressions of discust Will Use It to Develop Power for Electric Railway Between are giving vent to expressions of disgust and anger, and talk of an occupation tax that is heard on the streets of Al-

bany sends consternation to the heart of the small business man. Many people who were not strengly interested in the outcome of the prohibition election in Linn County under the local option liquor law are now satisfied to watch the effect on the city of Albany. If building continues and business grows as it has during the past year, they will be satisfied.

be satisfied.

In Albany alone 10 saloons will be closed. The income from these places was \$5000 per year. Since the agitation of the prohibition question under the local option liquor law saloons at Scio, Lebanon, Brownsville, Halsey, Crawfordsville, etc., have been closed, until this year the towns of Albany and Harrisburg are the only ones affected. There are however a number of gallon boxes. are, however, a number of gallon houses in the county, which will be closed the first of July.

It is thought the large browery of the Albany Brewing Company, which has for years been one of the important industries of the county, will not close because of the result of the election. The Albany Brewery sells much of its product in Southern Oregon and North-ern California, and the business in these ections will justify the operation of the

The prohibitionists have sent Linn County "dry" under particularly aus-picious circumstances. One of the evils of the local option law which has been made much of will not be manifest here—that is the whisky just over the line in an adjoining county. On every side of Linn there is an arid waste, so far as beer is concerned. Benton, Lincoln and Lane are also dry, and in Marien County precincts were grouped together for a vote in such a manner that the entire strip along the Santiam River between Linn and Marion Counties, on the Mar-ion County side, is dry. This includes the towns of Stayton, Jefferson, Me-hama, Gates, Detroit, etc., from the Willamette River to the summit of the Cas-cade Mountains. Linn, during the next two years, will be a veritable Sahara

But this is not all. Newport-by-the-Sea, the Summer resort to which all Willamette Valley people flock during the dog days, will be confined to the salt sea breeze and a very poor grade of fresh water for its exhibitanting influence on visitors. Lincoln County went "dry." Conditions are truly favorable for a thorough demonstration of the good or evil effects of prohibition in a town, un less perchance the large number of canoes and small river craft that has been secured during the past Winter by Albany people are the result of a premonition of the outcome of the election on prohibition in Linn County. It is but a few miles down the river to Buena Vista and Independence, and Polk Coun-ty is "wet."

FOSSIL REMAINS A DRY TOWN.

Wheeler County as a Whole Votes

Against Prohibition.

Rheamatic Pains Relieved.

No one need now suffer the agonizing pains of sciatic and acute rheumatism, as quick relief may be had by applying Chamberlain's Pain Balm. This fact has been clearly demonstrated in many thousands of cases. This liminent relieves the pain and makes sleep and rest possible, which is alone worth many times its cost. R. F. Crocker, Esq., now 84 years of age, and for 29 years Justice of the Peace, at Martinsburg. Iowa, says: "I am terribly afflicted with sciatic rheumatism in my left arm and right hip. I have used three bottles of Chamberlain's Pain Balm and in druggists. Against Prohibition.

Barlow road purchase.

The Republicans lost one county official in the recount. There had been a tie for County Commissioner on the un the for County Commissioner on the unofficial returns, but the canvassers today determined the Democrat, H. R.
Powell, was elected by a plurality of
three votes over the Republican, O. H.

Victim of the Costa Rica Found.

ASTORIA, Or., June 16.—(Special.)—The body of Matt Hummasti, the fisherman who was drowned on the morning of May 15, when his boat was cut down by the steamer Costa Rica, was found today, floating down the river off the city front Coroner Pohl summoned a jury this even-ing to view the remains and an inquest will be held as soon as Captain Snow, who was in charge of the steamer at the time the accident occurred, comes to Astoria again. Hummasti was a native of Finland, 27 years of age, and left a widow, a father,

mother and two brothers residing her

JERRY MOMARTS STRUCK BY FREIGHT AND KILLED.

Foreman of Southern Pacific Construction Gang Was Riding Velocipede Near Aurora.

OREGON CITY, Or., June 10 .- (Special.) Jerry Momarts, foreman of the construction gang operating for the Southern Pacific Company between Oregon City and Salem, was struck and instantly killed by a southbound freight train about 1 o'clock this morning while cross ing a trestle over Pudding River at Auro ra. Momarts was riding in his velocipede going south, and was overtaken on the going south, and was overtaken on the high trestle by a freight that was going at a high rate of speed in order to overcome the steep grade at Aurora.

The train crew made no report, and the first knowledge of the accident was obtained about 7 o'clock this morning with the finding of Momarts' body beneath the trestle. The velocipede in which Momarts was riding was broken into splinters by the collision. Momarts was a single man aged about 35 years, and previously was for some time employed in a similar capacity by the O. R. & N. Co.

Rheumatic Pains Relieved.

Grain Acreage of County Increased 25 Per Cent Over. Any Former Year's.

IRRIGATION IS THE CAUSE

Dry Land Farming Also Receives Impetus as Result of Successful Experiments-Pumping Plants Insure Against Drouth.

BAKER CITY, Or., June 10 .- (Special.)-This year will mark an increase in the wheat acreage of Baker County of about one-fourth, and next year will see an equal increase, which will practically double the wheat output within two years. The reasons for this are two. In the first place a number of big irrigation schemes have been put through, or are under way, which, when completed, will water thousands of acres of valuable wheat land. In the second place, dry farming has been found profitable on the flats near Haines, and hundreds of acres have been sown to grain with only small pumping plants to protect them against absolute drouth. The birgest irrigation ditch is that of the Baker Irrigation Company, which will be completed within two weeks, but two other big companies are now at work on ditches, and when the three are completed they will redeem about 15,000 acres of good wheat land. All these schemes are backed by private capital.

Pumping Plants Prove Worth.

In the dry-land section the pumping plants are proving themselves great crop insurers. On the Lillard flats Lillard & Bond have installed an immense pumping plant, which was put in commission this Spring. So far it has not been used, as there has been no demand for irrigation. This pumping plant will water nearly 1000 acres by draining what is known as Baldock Slough. Next year it is proposed to place a dam at the mouth of this slough and create a reservoir which will hold water sufficient for several thousand acres. Homesteaders are coming into this section every day and paying good prices for land under this pumping plant, and next year will see fully 1000 acres more of wheat in that vicinity than this year,

Spring Rains an Advantage.

This Spring has been exceptionally wet, This Spring has been exceptionally wet, and the irrigation ditches have not been used to any extent. Always when the rains come early on the sown grain the crops are better, for it is very difficult to sprout seed by irrigation. Moisture from the surface of the ground is necessary to insure good growth. After the seed has sprouted grain can be grown very successfully by irrigation, or water from below. But this Spring there were a few early rains soon after the seed were sown, and these were followed by heavy rains after the crops were growing, which insure

good crops.

The farmers are all prosperous this year and the banks are willing to lean money on land that a few years ago was consid-ered worthless. The alfalfa crop is ready to harvest, but the weather has been so wet that the ranchers have concluded to wait awhile before cutting the hay. The ranges are in excellent condition, and range stock are doing fine, the only drawack being the low price offered for cattle.

"Wanted-A Man," Rev. B. E. S. Ely's Subject for Discourse.

"Wanted-A Man," was the subject of an ddress by Rev. Ben Ezra Stiles Ely, has recently come to take charge of the Calvary Presbyterian Church here, to a large audience in the auditorium of the Y. M. C. A., yesterday afternoon, Rev. Dr. Ely is a forceful speaker, and his address made a deep impression on the vast audience. Evolving from the thought that the divine specification of a man is that doeth right, that seeketh truth,'

Dr. Ely proceeded to explain what that meaning implies.

He said that so many ministers who want to be modern attack the truth in the Bible and only gain prestige thereby. The true man should make a business of eligion and a religion of business, and do t all the week, not only on Sundays, coninued the speaker, and close with the as sertion that to attain perfect manhood, we should all strictly follow the pattern of Jesus Christ and the Bible.

WHO'LL BUY OUR ORGANS?

You can still secure one of the fine and You can still secure one of the fine and almost new parlor organs which we agreed to sell for customers who bought new planes of us. These people effected a great saving in the purchase price of their planes, and are willing to let these parlor organs go for what they will bring. You will also find a large and almost complete assortment of beautiful new ones Kimballs, Burdettes, Crowns, etc., als come fine self-playing Acollan, a couple of piano-cased organs, two Vocalions and several fine church organs. Everything must go by Saturday next or we forfeit \$1000. See advertisement on page 4, this issue. We simply have to get out, and must close out everything at what it will being. Remember any researches to the second of the secon bring. Remember any reasonable terms will now be accepted—\$5, \$6 or \$8 down and \$5, \$4 and, yes, even as low as \$3 a month, secures the best of them. Come the first thing this morning. They're bound to go quickly. Ellers Plano House, 251 Washington street.
