EXPECT RUN LATER

Columbia River Salmon Can- light supply. A shipment of 20 boxes of fancy ners Not Discouraged.

PACK TO DATE IS SMALL

Less Than Half of Showing Made in Same Period of Shortest Year Heretofore - Demand for Chums.

CANNED SALMON-Packers not discouraged by small run of fish. HOPS-Growth of Oregon crop re-

tarded. WHEAT-Quiet but firm. MILLSTUFFS - Lower quotations

FRUIT-Market well stocked with all varieties. VEGETABLES - Oregon hothouse

tomatoes ready for market. BUTTER-Good movement in city creamery.

EGGS-Firm and active, MEATS-Pork and veal weaker. *****************

Although salmen are not running in the Lower Columbia, canners are not disturbed over the outlook, as they believe a good run fish is likely to start at any time. Operations up to date, however, have been anything but successful, and some of the canneries have practically cipeed down until the salmon reappear. The total pack to date has been less than balf the showing made for the same period in the smallest year hereto up only 1200 cases since the season opened, whereas he expected to have at least 5000 cases packed by this time.

This state of affairs adds strength to an already strong market. If any spot salmon could be found, it would undoubtedly command ing in the lower river. The backwardness of the run is attributed to the freshet and muddy state of the water.

San Francisco firm, the strongest demand at present in the sulmon market is for chums. The circular says:

"During the past few days we have re-lved probably 50 telegrams and 200 let-es on the subject of future chums, and we begin to think that the entire country has gone 'chum craxy.' Considering that chums are the poorest and meanest selmon packed, we are at a loss to understand the sudden interest that jobbers are taking in this ar-

to the North, and all our people positively refuse to sell any future chuma now, and to show you just what the situation is, would make that white in Portland we were offered 70c per dozen for 5000 cases of future chums and none of our packers would accept the offer. Just as soon as we are able to offer any future chums we will advise you. In the meantime we want to call your attention to our circular of May 8. In this letter we told you we could offer chum talls at foc, condition that buyers purchase equal quantity of allyersides.

quantity of allversides. "In all our experience we have never seen the spot market on salmon of all grades as closely cleaned up. We can truthfully state that we control every can of spot pink salmon there is on the Coast, and it is now impossible to offer a can of this under 85c f. o. b. Seattle. There is such a small quantity left that we are sure the Oriental market will take all we have to offer."

The egg market was very firm. A few deal-

out the unsettled weather was again an silverse factor in trading. So far this month the volume of business has not equaled that done in May, whereas, with the larger and

Early California fruits were in good supply and in spite of slow sale prices held steady.

A shipment of Climax, or Japanese, plums was received and brought the same price as Clymans, \$1.50 a box. Apricots and peaches were abundant. Many of the cherries on hand were poor. One crate of Conchelia cantalonyes, arrived and sold for \$4.25. Strawberries brought an average of \$1.75 on the street, though most sales at the Italian market were at \$1.50. A car of green bananas hot were poor, also a car of oranges. Small was received, also a car of oranges. Small

to medium size navels are about played out. Lemons are in good supply, but very firm on

A sample of fancy hothouse tomatoes was received from Oregon City, and regular shipments will begin from there very soon. ot of Mississippi tomatoes arrived and offered at \$2.50 a box. Peas and beans were in Marysville cucumbers was received and put on sale at \$1.75. A mixed car of new potatoes and onlone arrived and a straight car of Garnet Chiles was due last night; also a car

Dressed Ments Weak,

The market for dressed pork is weak, with prospects for a decided slump unless receipts become smaller. Veal is also arriving freely and prices are maintained with some diffi-

OREGON HOPS BACKWARD.

The Much Rain Has Retarded the Growth of the Crog.

A well-known hopgrower and dealer, who spent Sunday in the Aurora section, stated yesterday that he was much disappointed by the appearance of the yards. He said:

"I had been led to expect that I would find the bops in excellent condition. Instead of that, they plaintly showed the effects of the cold rains of the last few weeks. No damage apparently has been contaided the hops in excellent condition. Instead of that, they plaintly showed the effects of the cold rains of the last few weeks. No damage apparently has been done, but the growth has been retarded and the hops are certainly backward. A month ago, the growth has been retarded and the hops are certainly backward, a month ago, the growth was forward, but now the condition has been reversed. Should we have favorable weather now, everything will probably come out all right, but if it continues to rain throughout June, it will be had for the hops.

Lice are numerous in the Aurora section, but they do no harm at this stage of the crop."

CITY BUTTER MOVES WELL.

Active Demand for Country Store—Egg Market is Firm.

The market for city creamery butter is in good condition. The plants have a large turnout, but this rinkle is being disposed of satisfactorily. There is still a difference of 1% cents between, the prices of the several establishments, but this to likely to be eliminated shortly. One creameryman reported yesterily. One creameryman reported yesterily while others could not complain of the volume of the raw material.

Country store batter was in active demand at last week's price. There is some talk of making shipments by mill until the strike is the strike the period of the several estable to the period of the cold the cold that the cold that the cold tha

of the raw material.

Country store butter was in active demand at last week's price. There is some talk of 2 and grease, 2@3c.

CASCARA SAGRADA (chittam bark)— GRAIN BAGS-94c.

The egg market was very firm. A few dealers reported full receipts, while others had none at all.

Indications point to a good demand for poulitry when the market opena.

WORKING OFF SURPLUS.

Lower Quotations Made on Milifeed—Oats Scarce and Firm.

Prices on brain and shorts of city manufacture are quoted lower, as millens are trying to work off their accumulation before the sensen is much further advanced. This has also weakened the market for country milistuffs. Outs continue very strong, owing to their scarcity. Barley is firmer in sympathy. The hay market is quiet, but steady.

Wheat dealers had but little to report yesterday. Trading was of small volume, but, the market had a good undertone.

FRESH PRODUCE PLENTIFUL.

Front Street Has a Good Supply, but Demand Is Not Pressing.

Front atreet was liberally stocked with most varieties of fruits and vegetables yesterday, but the unsettled weather was again an asi-

Gossip Regarding Financing of Coast Extension.

REPORTS NOT CONFIRMED

Except Union Pacific and Amalgamated, Other Stocks Are Neglected-Traders Interested in the Crop Report.

NEW YORK, June 11 .- Price movements in today's dull and narrow stock market were confined almost entirely to a mere handful of the actual speculative issues, particularly St. Paul. There has been a great deal of gossip recently regarding the financing of the company's proposed Pacific Coast exten-sion. The "news" has been alternately good and bad, loday's being of a favorable charand that, both so being of a lavorate char-acter, with hints of valuable "righta." Dill-gent inquiry falled to disclose any war-rant for these reports. The tendency of the list was heavy in spite of the support given to St. Paul, Union Pacific and Amaigamated

to St. Paul, Union Pacific and Amaigamated Copper by professional operators.

The general disposition of the professional leaders to reduce their committeents pending the publication of the Government's monthly crop report was depitiess largely responsible for the smallness of the day's business. Interest in the report was unusually keen, particularly as to Winter and Spring wheat. Railway officials reported a general increase in tonage, while the receipts of cereals at Chicago for the last week were greatly in excess of the same week last year.

week were greatly in excess values year.

Reason for the strength of copper shares was found in the report of the Amaigamated Copper Company's subsidiary concerns, which showed an increase in net earnings for the year ended Juns 1 of over \$5,000,000. Of this sum, Anaconda contributed affout \$3,500,000. The official crop conditions were posted in the last hour, and seemed sufficiently favorable to bring about a strong close. In additable to bring about a strong close. In additable able to bring about a strong close. In addition to Si. Paul, which made a net gain of 3 points, Delaware & Hudson advanced 6%

of 3 points, Delaware & Hudson advanced 6% and Union Pacific 15%.
The local money cuttook was reassuring, though foreign exchange was still high. Call loans were made below 3 per cent, though that figure was the prevailing rate of the day. Over-year money continued in strong demand land some long-time loans covering that period were made at 5 per cent on high-class collateral. Further large transfers of currency were received at the sub-Treasury from San Francisco, and Washington advices indicated even larger returns from the Coast indicated even larger returns from the Coast before the week's end. The foreign markets were without influence here, London being engrossed with its preparations for the formightly settlement. Arbitrage houses were early buyers of St. Paul and Union Pacific. and were reported to have sold on the ad-

Winter Wheat.

CONDITION OF OTHER GRAIN

Government Estimate Is Received

Too Late to Affect the Chicago

Market-New Yorkers Take

a Mixed View of It.

WASHINGTON, June 11.—The crop reporting board of the Bureau of Statistics of the

Department of Agriculture finds from the reports of the correspondents and agents of the Bureau as follows:

Preliminary returns on the acreage of Spring wheat sown indicate an area of about

The total reported area in oats is about 27,678,000 acres, a decrease of 368,000 acres, or 1.3 per cent as compared with the estimated area sown last year. The average con-

dition of cats on June 1 was 86, against 93 on June 1, 1905; 89 at the corresponding date

on sine I. 1800; SP at the corresponding date in 1904, and a 10-year average of 91.

The acreage reported as under barley is more than that estimated as sown last year by about 183,000 scree, or 2.7 per cent. The condition of barley is 93.5, against 94 on June 1, 1905; 90 on June 1, 1904, and a 10-

The average condition of rys is 90, sgainst 94 on June 1, 1905; 88 on June 1, 1904, and 90, the mean of the corresponding averages of the last 10 years.

CHICAGO WHEAT MARKET,

Government Report Received Too Late to Affect Prices.

CHICAGO, June II.—Weakness in the wheat market developed during the early trading, and for the remainder of the day the market held firmly steady at a moderate decline. The feeling was firm at the immediate open-

ing because of strong Liverpool cables, but before the end of the first hour the de-mand had shrunk to small proportions and throughout the remainder of the day, the volume of trading was small. The chief rea-son for the inactivity was the Government

cop report, which was made public only a few minutes before the close of the session and too late to have any effect on the prices. Improved weather conditions in all sections ofs the country were the principal causes of the weakness during the last half of the session. Clear weather was reported in the

session. Clear weather was reported in the Northwest, also in the Southwest, where harvesting is in progress, and showers were reported in Kansas and Nebraska, where rain is greatly needed. The market closed steady.
