PLAN JOINT CELEBRATION.—The people of Gresham will join with citizens here in celebrating the Fourth of July. At a recent mass meeting the following joint committees were appointed: Finance, E. H. Colburn, Treasurer, W. E. Mason, Secretary, W. E. Mason, transportation, William Ellison, D. S. Dunbar and H. S. Stone; program, Napoleon Davis, Dr. F. A. Short and W. E. Scott; athletes, E. E. Heslin, E. M. Stone, Harry Demmock, William Byers and Ralph Scott; grounds, C. E. Cree, E. A. Whitney, Wade O'Brien and A. T. Astlett; refreshments, Mrs. Scott, Ethel Heslin, Christine John, Susie Hall, Nellie Hunter, Lena Stone, May Sherwood, Cedric Stone, Oral Snover and George H. Taylor; band, L. Stone, Miss Lucy Metcalf, Mesdames William Byers, W. W. Ashcraft and E. A. Whitney; advertising, A. L. Stone, C. S. Stephenson, Timothy M. Brown and William Ellison. These committees are made up of citizens from both Fairview and Gresham. It is hoped to get reduced railway rates on the O. R. & N. line from both directions, affording people from Eastern Multnomah County, as well as people from Portland, who want to spend the Fourth in the country, an opportunity to attend.

MOULT TABOR SCHOOL CLOSES.—The Mount Tabor parochial school, connected with the Monastery of the Precious Blood, has closed a prosperous year. The children had a picnic that was largely attended and enjoyed. Sunday the school and needle work done by the pupils were exhibited in one of the schoolrooms, receiving much praise from all who examined it. Four special prizes were won as follows: Arithmetic, won by John Buckley; history, won by Francis J. O'Brien; deportment, won by Reuben Pitts; average pupil, won by Fred Bremen. On the occasion of the visit of the G. A. R., the children presented to the representatives a great deal of local public interest, and it is expected that a large audience will listen to the closing address, which will be given by Rev. Dr. Morrissey and Rev. Father Tillman, of Columbia University.

ORANGE GROVE PENDING.—The ordinance granting the Pacific States Telephone & Telegraph Company a franchise in St. Johns is still pending. It provides the limit of 15 years for the franchise, all city officers, and requires the company to establish a central station within six months from the granting of the franchise. It cuts out the existing franchise, the company to pay 2 1/2 per cent of the gross income. The company objects to this requirement. The company also asks that the life of the franchise be extended at 21 years instead of 15, and that the \$5000 bonds named in the ordinance be reduced to \$2000. The ordinance is now under consideration by the City Council, and an agreement will be reached between the city and company.

WILL HOLD CONFERENCE.—There will be a meeting this evening by the Park Commissioners and the representatives of the Hawthorne estate, relative to the releasing of Hawthorn Park and securing an option on the property, so that a vote will be taken on the question of whether it should be bought or not. The old lease has expired. Dr. Day Rafferty said that it was desired to secure an option on a portion of the tract, about 100,000 square, with paved streets on the four sides. These matters, together with the disposition of the water from Hawthorne Springs, will be discussed with Mrs. Hawthorne at the conference this evening.

FREIGHT DEPOT FOR ST. JOHNS.—A committee from the St. Johns Commercial Club met A. H. Morse, of the freight department of the O. R. & N. Company, last week, relative to freight and passenger depot for St. Johns. Mr. Morse said that the showing made by the committee was not so good as he had expected, and that the application would go to the proper department with a favorable recommendation. St. Johns will be on the main line when the new timetable extension is completed by the Columbia Slough, and with the manufacturing interests centered there, a passenger and freight depot will likely be necessary.

APPLICATIONS FOR YELLOWSTONE RESERVATIONS.—Applications for reservations in the Oregonian special train which will go to Yellowstone Park are coming in from all over the Northwest. Many of the successful candidates. Only a limited number will be accommodated under this special rate, and those who desire to make the trip are urged to apply for tickets early in early to Contest Manager, room 200, Oregonian building.

ALL EXCURSION TICKETS TO THE EAST and return will be good on the famous "North coast Limited" train, which leaves for the modern train from Portland to the East. Why not travel on the best? It does not cost any more to travel on the "North coast Limited" than it does on any other train.

ROUND-TRIP EXCURSION RATES EAST.—Special round-trip excursion rates have been named by the Northern Pacific to points East. Full information can be had at the ticket office, No. 233 Morrison street, corner of Third, or by letter to A. Charlton, assistant general agent, Portland, Or.

H. D. BRADY INJURED.—H. D. Brady, who lives near Milwaukie, was severely injured in the middle of last week, while climbing on an O. V. P. car. He was knocked down and struck by the trucks. He was taken to his home, and has been under the care of a physician.

Mrs. SIDA W. PALMER has returned from a trip through Washington and Eastern Oregon, and is ready to take charge of dinners, luncheons, evening parties and all sorts of entertainments. Phone Main 4714. Apartments—Madison Court.

HON. W. C. HAWLEY WILL SPEAK.—Hon. W. C. Hawley, Congressman-elect, will deliver the address to the Montavilla School graduating class on Wednesday evening, at the Methodist Church, where the exercises will take place.

EXCURSION RATES EAST, covering round trip, via Northern Pacific. Long limit stopovers allowed. Particulars at 233 Morrison street, corner Third, or by letter to A. D. Charlton, A. G. P. A., Portland, Or.

possible to obtain structural steel for building purposes in this market.

As a matter of fact there is an extensive stock of structural steel carried in this city, sufficient for a dozen good-sized buildings, and it is not necessary to send 3000 miles away for such material. It can be furnished from Portland stocks, while the excavations are being made. Further, there are several iron works in this city fully equipped to fabricate the plain steel and deliver it as building steel ready for erection. Therefore, inability to get structural steel need not stand in the way of owners putting up first-class fire-proof structures. J. B. BOWLES.

RABBI WISE AT Y. W. C. A.

Delivers Interesting Address on the Rights of Woman.

The guests at the Y. W. C. A. "at home" yesterday afternoon had the privilege of hearing a fine address by Rabbi Stephen S. Wise on "The Rights of Woman." Dr. Wise prefaced his remarks with a number of clever pleasantries, stating that he had a long time to understand why he should be selected to address the association and its guests, as he was neither young, a woman nor a Christian. But he added that he had retained a very warm spot in his heart for the Y. W. C. A. since eating the splendid lunches and dinners served by it at the Exposition last summer.

Dr. Wise's talk was a woman's suffrage address in spirit, although he admitted that it was a bit early for speaking on such a subject. He stated that he expected to return to Oregon before the next suffrage campaign, if started, and will then make his real suffrage speeches.

"Woman is nearly always in the right," he said, "and while not infallible, is more often right than man." He referred in detail to the wonderful change which has taken place in woman's sphere of life in the last decade, and of the wonderful advantage to her the experience in the industrial or commercial world has been.

Arguments to the effect that woman is displacing man in the industrial world do not appeal to Dr. Wise as practical.

CLOSE OF GAS INVESTIGATION.

Final proceedings in the gas investigation by the special committee of the Council appointed for that purpose will be taken at the City Hall tonight, at which time argument of counsel will be heard.

The matter has been pending for some time, and a great deal of local public interest, and it is expected that a large audience will listen to the closing proceedings in the investigation.

for he declares that man has displaced woman in far more ways. The great gain for womanhood in the change, however, is felt to amply compensate her for the loss. He paid a high tribute to the trained nurse, and especially to the workers in charities and corrections, claiming that the best workers in these ranks are women, and that they have a keener and more sympathetic insight into the affairs of those in trouble than men have.

He predicted that extended women. Dr. Wise stated, for the reason that the government of a city is really municipal housekeeping, and a woman's participation will improve and sweeten it.

The music program of yesterday was furnished by Miss Corolla Barker, Miss May Pety, Mrs. Renna Hutchison and Knute Knutson, with Miss Alda Broughton as accompanist.

Miss MacCorkle announced that the Y. W. C. A. camp at Gearhart Park will be open the first week in July, if sufficient number of girls register by June 24 to make an advisable trip. The rates will be \$5 per week, or \$1 per day, and the season will extend from July 4 to September 15. The railway fare to the seashore is \$4 for the round trip.

All who anticipate spending their vacations at the camp this summer are requested to inform Miss MacCorkle or call the association's headquarters for further information.

ARE IMPAIRED RISKS.

Men Who Drink Liquor Score by Insurance Company.

PORTLAND, June 17.—(To the Editor.)—The company I represent has just sustained a loss by the death of a politician in this city, which illustrates the wisdom of the position taken by life insurance companies regarding the insurable condition of those who take the trip to the coast for the excessive use of intoxicating liquors.

In sending check in payment of the loss, the company has included a letter that is as strong a temperance lecture that I think it may be of general interest, and quote from it, as follows: "At the time this application was presented to us we hesitated considerably about accepting it, as the applicant's personal history indicated that he had been a heavy drinker within five years. It is often very necessary for us to decline, or limit to very high premium plans, applicants who have been intemperate in the use of liquor and are known to be so for a period of years apparently temperate. These risks often do not die as the direct cause of drink, but, as in this case, the constituent causes are undetermined, and what to an ordinary person in good health and habits would be a trivial ailment, ends seriously with them. Cases of this kind are certainly insurable, and we are the best of them should always be limited to high premium forms, if they should ever be declined by the act of the Superintendent of applications and death claims."

Each agent of the company in this territory has been furnished with a copy of the above letter, and possibly the publication of it in *The Oregonian* may be useful.

LL take my oath that there are few companies touring through the country, presenting musical comedy, or comic musical performances of any kind, that are as good as the Kendall Musical Company which presented "Said Pasha" at the Helio Theater last night.

"Said Pasha" is no new, neither is "La Fille de Madame Angot." Neither is Emma Eames or Fritz Shief. But they are all good. Richard Stahl's short witty and melodious piece is as purely legitimate and as pleasing as any of the caressing notes of an aolian harp accompanied by the dancing of a faun from the bosque.

Bessie Tanneh, Milar Bacon, Lottie Kendall and Robert Pitkin have enough voice among them to supply all the "K. & E." musical comedy "attractions" put out in a season, with plenty to spare. The people of the Helio Theater who are given the most to do are artists—enthusiastic, painstaking, competent, excellent. The company is well trained, and the concerted numbers are singularly free from roughness in music.

I do not suppose the conditions of that first matchless season could be exactly duplicated. We'll have to wait for that for a long time, and the players of those days came upon us like the welcome, fruitful season of Springtime—and—and—well, we just loved every member of the company for roughness in music, for far from perfection, but the players came on and received their receptions each night, and night after night, and they were so good that we were so much acting. We cared for the personalities of the stage people, and we wanted to see each one of them in this and this and that and that part. We followed closely the story of every play that was put on, and didn't we keep up the jam of people.

Now, just didn't we?

We would not have missed an opening for the world and a ticket to Heaven. The opera makes Turkish diadems, racy trousers, myriad slenight, bespangled jackets, iridescent cloth of gold, and shimmering jewels, not only appropriate, but the rule of every moment of the rollicksome bouffe.

And volume is not wanting.

There is a careful of active voices of pleasing timbre that cut across the mood and bear you away, if you will, on enticling clouds of imagination. The marching, the ensembles, the kaleidoscopic color variations, the rousing or chestnut vocal effects, the arias, duos, pictorial recitals that were interspersed, the antics of the comedians, the topical songs, proved the company of these ranks of our world, and that they best efforts to the audience, and elicited rounds of applause whenever some especially striking passage occurred.

Such a success as that which the more particular people, the people who are best groomed in town, those who assume to be the most representative of art and the citizenry, are in the majority at this musical comedy season.

That are ordinarily called the masses, that is, the floating population, the strollers, the persons who have not over much money, and who would find a very welcome bargain in the performances of this company which is playing at extremely moderate prices, have not found out what is going on at the Helio. The gallery was almost empty last night at the opening. I don't know just what they do charge for admission, but the rates will be \$5 per week, or \$1 per day, and the season will extend from July 4 to September 15. The railway fare to the seashore is \$4 for the round trip.

DO YOU remember the days of three years ago, when the first Baker stock company was loved by the whole town?

Well, some of those days came back yesterday at the Baker Theater when they played "When We Were Twenty-One."

"That's a dear, sweet song that asks, 'Was this a dream?' Then waking would be pain."

After that beautiful performance yesterday I went away blinking my eyes, counting my heart-throbs, and wondering, "Was this a dream? Then waking would be pain."

I do not suppose the conditions of that first matchless season could be exactly duplicated. FEAST OF CORPUS CHRISTI

Appropriate Services Are Held at St. Mary's Cathedral.

The Feast of Corpus Christi was fittingly commemorated yesterday morning at St. Mary's Cathedral. Very Rev. M. A. Quinlan preached the sermon, taking for his subject "The Blessed Eucharist and Catholic Life." The speaker spoke in part as follows:

"It is a blessed thing that the church dedicates this day to the public honoring of the Blessed Eucharist, for in the Eucharist she makes us realize how precious is our heritage, how dearly we should prize it, and how weighty is the obligation resting upon us to make the most perfect use of the altar the leading inspiration of our lives. If we fall to realize this one fact, vain indeed is the theory that we shall faithfully fulfill our duties as Catholics of Christ. If we do not understand that the Blessed Eucharist is our chief possession on earth, how unreasonable is it to think that we can give up our lives in sacrifice with a dignity which we were clothed when the first pastor of souls gave us his flesh that we might live. For us, after all, it is not the Eucharist that is the center of our lives, but the Eucharist that is the expression of an intense belief in the miracle of transubstantiation. The more thoroughly we appreciate the fact that our lives are in this respect beyond our power, the more noble and dignified will be our lives, and the more beneficent and far-reaching will be our influence as Christians. It is in this sense that we add a human consideration, the more distinguished will be our service to the state.

Our country cannot get away from the fact that the more we are endowed with riches in one form or another, the more efficient we become in the doing of good works. It may be said that this is not true, but this truth is not manifest in our lives there is something wrong with our riches. Whatever our possessions may be, it makes no difference whether they be of gold or of silver, or of any other material wealth. Even so, do we not observe that material wealth makes it easier for man to rise socially or politically? Do we not observe that he who is rich with an air of dignity and physical refinement? Do we not realize that it enables him to assist his fellow-man in need, to alleviate his distress, or to procure the betterment of the race through his generosity in the cause of education? Wealth means power, and the man who possesses it has within his easy reach the means of doing good, of maintaining the dignity of a station in life correspondingly exalted.

Certain it is that the riches we possess are to be regarded as a true exponent of our greatness. If we are rich in material resources we may elevate ourselves in the world and among men. If we are rich in intellectual endowments we may gain a more lasting renown. Does it not follow that if these possessions bear the stamp of divinity the sphere of our greatness is truly enlarged? Who will contradict the evident argument? In what respect, may I now ask, do our possessions bear the stamp of divinity? Chiefly in the character of the soul which is related to God, in whose image and likeness it is created; not only is the soul enriched by bearing the image and likeness of God and a spiritual relationship to Christ as brother, but also by the stupendous reality that at the altar of sacrifice it is nourished by a divine food. With such nourishment what should our lives become? Have we fully considered this fact when we set the standard of our physical, mental and religious excellence? Is the goal for which

MARRIAGE GIVES OPINION

DISAGREES WITH ATTORNEY-GENERAL.

Takes Issue on Question of Remodelling Criminal Code of Oregon—Suggests Reforms.

District Attorney Manning takes issue with Attorney-General Crawford's views relative to the penal code, as expressed in a recent letter to *The Oregonian*. In discussing the matter yesterday Mr. Manning said:

"I believe the following amendments to our criminal code should be made:

"First—That the witness who is enacted making a conspiracy to commit a crime, a crime in itself. An act something like the Federal statute under which many of the land fraud cases here in Oregon were brought.

"Second—That our embezzlement statute should be amended so that a mixture of funds and misappropriation of the agent's compensation on a percentage basis should not be a defense. The State of Washington has such an act which applies to insurance agents and it serves admirably.

"Third—That the section of our criminal code on evidence, which provides that a wife shall not be a witness against her husband and visa versa, except in a few isolated cases, should be repealed.

"Fourth—That our arson statute should be amended so that the wife and mother's burning of any house should be a crime. As it is now a man can burn his own house with impunity, save and except under certain circumstances he might be liable; it is practically impossible to make such a showing as to the whereabouts of the witness that his evidence given at the preliminary hearing can be introduced. It may be said that the witness can be held in jail until the trial, but this is a harsh measure, and in most cases the circumstances will not justify the District Attorney in asking an innocent man against whom there is no charge, perhaps a sufferer himself, to be locked up and held until the defendant can be placed upon trial."
