

FRESNO'S BAD DAY

Raisin Pickers Fail to Make Single Tally.

SCORE IS THREE TO ZERO

Beavers Play Good Ball and Succeed in Getting Best of Visitors All Through the Game.

PACIFIC COAST LEAGUE.

Table with columns: Standing of the Clubs, Won, Lost, P.C. Rows include San Francisco, Portland, Los Angeles, Seattle, Fresno, Oakland.

Portland, 3; Fresno, 0. The Raisinpickers all looked alike to Benny Henderson yesterday. The once mighty Truck, the indomitable Casey, the happy Hogan, the whole crew which has stuck with Mique for so long...

Story of the Game.

How it came about was like this: In the opening canto Bill Sweeney drew a pass and helped himself to the next two bags by clever baserunning. Mike Mitchell smashed a timely drive through Casey and the bell rang one. Again in the third things were done. Manager McNeil this time the hero. Irish Mike was passed and stole second. McCredie rounded one to the right field fence and the Wild Irish Rose made the circuit. Jimmy McHale brought home the goods in the seventh. He was safe at first on a holder's throw, was forced to second by Sweeney's walk, and came home on another one of Mitchell's drives to left. For Fresno the tale had as well be left un told. The visitors thought Knoll was passing them a bad deal all through, but Phil was undoubtedly calling them to the best of his ability. McHale chased the Raisinpickers to the woods in the sixth by a beautiful peg to the home plate of a drive from Casey's bat on which Doyle was essaying to tally. In the seventh Henderson did all the work by himself and saved the day. With Egan and McLaughlin on second and third, the lanky twirler passed out to the next three batters the kind that go in the air and come down in an infielder's mit.

The Score in Detail.

Table showing scores for Portland and Fresno across various innings.

SCORE BY INNINGS.

Table showing scores by inning for Portland and Fresno.

SUMMARY.

Struck out—By Henderson 8, by McGregor 3. Bases on balls—Off Henderson 6, off McGregor 1. Two-base hit—McCredie. Double plays—Henderson to Sweeney to Lester. Stolen bases—Sweeney (3), Mitchell, McHale. First base on errors—Portland 2, Fresno 0. Left on bases—Portland 7, Fresno 7. Time of game—One hour and 35 minutes. Umpire—Knell.

POOR EXPOSITION OF GAME

Cravath Makes a Three-Bagger, but Does Not Keep Eye on Ball.

SEATTLE, June 17.—Seattle and Los Angeles broke even in a double-header. It was the poorest ball played here in two weeks. Blanton of Los Angeles was put out of the grounds for disputing a decision.

Cravath made a three-bagger, but thought Walters caught the ball and was put out near second base. All Los Angeles players fell on their faces and Cravath pulled his hair. The scores:

First game—Seattle 1, Los Angeles 0. Second game—Seattle 0, Los Angeles 0.

Batteries: C. Hall and Blankenship; Bergeman and Eager.

Seals Won Both Games.

OAKLAND, June 17.—Bunched hitting by San Francisco and Oakland's cross won both games for San Francisco today.

Morning game—San Francisco 10, Oakland 5. Afternoon game—San Francisco 4, Oakland 1.

Batteries—Hitt and Wilson; Reddy and Ellis. Umpire—McDonald.

NORTHWESTERN LEAGUE.

Butte 6, Spokane 1.

BUTTE, June 17.—Timely hitting gave Butte an easy game today. Spokane had an off day in the field and Simmons was no puzzle to the locals, although he was hit no harder than Bandelin. Bandelin was strong at critical points and with a fast field behind him pulled out of several tight places.

The visitors did not score until the ninth when they earned one. The game was played on a muddy field which was re-

sponsible for all the errors made. The score:

Table with columns: Butte, Spokane, Batteries, Umpire.

Tacoma 6, Gray's Harbor 4.

HOQUIAM, Wash., June 17.—Tacoma took today's game and the series. Goodwin had the visitors blanked for five innings and then Baker's error gave Tacoma life and the Tigers batted out a victory, assisted by a decision on a passed ball, which ran and scored the home team. The disputed point will go to President Lucas for adjustment. Both sides did some heavy batting. The score:

Tacoma 6, Gray's Harbor 4. Batteries—Higginbotham and Shea; Goodwin and Beettiger. Umpire—Derrick.

Maroons Defeated at Woodburn.

WOODBURN, Or., June 17. (Special).—The Woodburn baseball team defeated the Maroons, of Portland, this afternoon. The score was 4 to 7. Huddleson, of the home team, made a home-run, and McCannan, of Woodburn, did some star playing.

POLICE AT THE BALLGAME

FIVE PLAYERS AND OFFICIALS ARRESTED AT BROOKLYN.

Test to Be Made—Voluntary Contributions Made to See Sunday Professional Games.

BROOKLYN, June 17.—Sunday baseball played by professional teams yesterday defeated Brooklyn, after the police had made five arrests, in order that a test case might be made in the courts. Those taken into custody were President Charles Ebbetts, Manager Park Donovan and Pitcher Malcolm Eason, of the Brooklyn club; Manager Edward Hanlon and Pitcher Charles C. Fraser, of the Cincinnati club.

Eason had pitched but two balls when a police captain and several detectives walked upon the field and made the arrests. The accused men were taken to a nearby police station and admitted to bail for a hearing before a police magistrate tomorrow morning. The game then proceeded without interruption. Fully 12,000 persons attended and practically all of them placed contributions in convenient boxes at the various entrances. It is upon the question as to whether or not these voluntary offerings constitute a subterfuge for paid admissions that the legality of Sunday ball-playing in Brooklyn hangs. Scanlon finally pitched the game for Brooklyn today and Ed Ewing was in the box for Cincinnati. The score:

Cincinnati 7, Brooklyn 3. Batteries—Ewing and Schiel; Scanlon and Bergen.

AMERICAN LEAGUE.

St. Louis 7, Washington 2.

ST. LOUIS, June 17.—Opportune hitting, following errors by Washington, won for St. Louis today, 7 to 2. The score:

St. Louis 7, Washington 2. Batteries—Howell and Spencer; Hughes and Heydon.

Chicago 3, Boston 1.

CHICAGO, June 17.—Chicago bunched their hits here today and defeated Boston. The score:

Chicago 3, Boston 1. Batteries—White and Sullivan; Harris and Armbruster.

Skamokawa Team Defeats Astoria.

ASTORIA, Or., June 17.—(Special).—By far the best game of baseball played on the local grounds this season took place this afternoon between the Skamokawa nine of this city and the Skamokawa team. Thirteen innings were played, the visitors winning by a score of 4 to 2.

FOUR MAY COME IN

Suburban School Districts Vote on Annexation Tonight.

ALSO ELECT OFFICERS

Two Mount Tabor Divisions, Woodstock and Arleta to Settle Their Allegiance—Statistics of Their Population.

In addition to selecting school clerks and directors, four suburban school districts will this evening, at the regular annual meeting, vote on annexation to

RESIDENCE OF GEORGE W. TILLEY, LAUREL, NEAR TWENTY-FIRST, PORTLAND HEIGHTS.

Portland district. The four districts are 5, Mount Tabor; No. 4, South Mount Tabor; No. 47, Arleta; No. 25, Woodstock. At Mount Tabor district the situation is somewhat complicated, inasmuch as by the recent election the north half and a slice on the east were annexed to Portland and Portland district No. 1 by virtue of the majority vote, while the south half is out by virtue of a special act of the legislature. However, all this will be remedied if the district votes favorably to annexation to the Portland district at the meeting this evening, which will be held in the West Avenue schoolhouse.

South Mount Tabor, Arleta and Woodstock are outside the territorial boundaries of Portland, but they can become part of the Portland district if there is a majority vote in these districts and also in Portland. They are close to the Portland boundary, and are really part of the Portland district. Their grammar-grade graduates attend the Portland High School. Except Arleta, they have schoolhouses ample for some time. Arleta has several small buildings and a large attendance, nearly 600 pupils.

Montavilla, No. 18 does not vote on annexation, because it becomes part of the Portland district by virtue of the majority vote cast at the June election.

Directors are the judges and a majority of their rules.

LAW EXPLAINED.

Wife or widow under 21 years, if otherwise qualified, can vote.

Wife or widow of a man who has only declared his intentions of citizenship (first papers) can vote, if otherwise qualified.

A plurality vote elects.

Property purchased or inherited after March 15, last preceding the election, does not give a property-right to vote.

WHEN WOMEN CANNOT VOTE.

Property owned by A-B only, does not give his wife a right to vote.

Property owned by C-D only, does not give her husband a right to vote.

The fact that A's wife furnished part or all the purchase money for property held by him does not give her a right to vote.

Evidence of stock ownership in corporation, or copartnership, or other document should be produced by voter.

All voters must be in the state six months, and 30 days in district.

Number of names on clerk's sheet and number of votes cast must be the same; if not, new votes must be taken.

When voter is challenged he should first be sworn, then questioned by the judge about his qualifications as a voter.

Statistics of the Schools.

If annexation in the four suburban

A Hot Weather Breakfast

It Is An Important Question and Here's a Little Help for You.

As we have previously said in these columns, our food has a tremendous influence on our lives, and this is especially true in Summer when the body does not have all the vigor that it possesses in the Winter. We must exercise care, as to what we eat, and the value of our food not so much on the amount of nutrition it contains as on the ease with which it is digested and the nutrition taken up by the blood. That is the one final test of a good food.

We feel safe in asserting that no other food so fully meets the demands of the human body as the year around, and especially during the hot months, when we cannot afford to waste our strength on the digestion of a lot of heavy food. Tabor is Malta-Vita, that delicious malted whole wheat food. This is because Malta-Vita is so rich in nutrition. It contains all the food elements of the finest white wheat flour, and best barley malt extract, and is easily digested, giving perfect nourishment to body and brain alike and never overheating the system.

Malta-Vita is the whole wheat flour, malted and cooked until the starch is gelatinized, then freely mixed with pure barley malt extract, which converts the gelatinized starch into maltose or sugar. Physicians recommend maltose, and Malta-Vita is rich in it. Baked crisp and brown, Malta-Vita is the most healthful food. All grocers.

school districts carries in the districts and the Portland district. The proposed district No. 1 will be thrown around five outside districts. Following are the buildings and population in these districts: Mount Tabor, No. 5, Mount Tabor, is a three-building, 600 enrollment, school population 1000, bonds outstanding \$1500; No. 4, South Mount Tabor, five teachers, one building, manual training department, no debt, attendance 144, school population about 375; No. 47, Arleta, ten teachers; four small two-room buildings, enrollment 294, school population about 600, no debt, attendance 160, one building, debt \$250, to be reduced \$1500. Montavilla, which comes in without a vote, has 18 class rooms, 10 teachers, enrollment 425, and population about 500; bonds outstanding \$3000. The total school population of the three districts is 2327.

LECTURES ON HAWAII.

Albert O. Hushaw Gives Interesting Talk at Y. M. C. A.

The beauties of Hawaii were described and illustrated in a lecture given by Albert O. Hushaw at the usual Sunday afternoon management of men at the Young Men's Christian Association yesterday. Mr. Hushaw has spent several years doing missionary work among the Chinese in Honolulu and will soon return to the Islands. He is familiar with conditions on all the islands of the group and gave a graphic description of the natives and their customs, which was supplemented by a large number of stereopticon views.

The pictures shown included views of some of the picturesque scenery of Hawaii, glimpses of Honolulu and other cities and illustrations of the industrial and social life of the people. The pictures showing the luxuriant tropical vegetation of the country were especially good. Views taken among the natives and Chinese show that they have been advancing rapidly since the annexation of the Islands to the United States and under the influence of Christianity.

Smith Defeats Anderson at Golf.

CHICAGO, June 17.—Will Smith, open golf champion of the United States in 1899, and at present open champion of Mexico, defeated William Anderson, four times champion of the United States and present holder of the title, by 3 up and 2 to play in a 36-hole match today at Wheaton.

Smith made a 73 in the morning round, a new mark for the links with the tee set back, and in the afternoon his card was 77. Anderson made 80 and 78.

Head's Sarsaparilla brings back health and gives strength after serious illness.

BESETTING SIN OF JUDAS

Lesson Drawn From His Downfall Through Avarice.

Dr. Jordan, pastor of the Central Baptist Church, preached yesterday morning upon "The Betrayal and Repentance of Judas." He pointed out the traits of the betrayer of Christ, which he thinks apply to all humanity, and said that the love of gold would cause many who live today to repent his crime.

"Most people have an exaggerated estimate of the character of Judas," he said. "They regard him as a monster and not as a man. They put him outside the pale of humanity and deprive themselves of any lessons that may be learned from his life. No man has ever lived from whose life lessons of warning, at least, may not be learned. Judas was a bad man, but there are many men in the world today just as bad as he. He loved gold more than he loved his God. His besetting sin was avarice."

"His love of money increased more rapidly than his money. This is always the case. He was elected treasurer of Christ's little band not because he was a good man, but because he was a good financier. Goodness alone does not qualify a person absolutely for a position of responsibility. Many good men are not good financiers. The position of Judas gave him opportunity to steal; it also gave him a chance to resist temptation, curb his ruling passion, and make a man of himself. But he lost his opportunity and fed his passion by taking from the common treasury a little at a time. He knew his weak point and should have been on his guard. Here is a lesson for all."

Judas never would believe Christ. He was sure that the Master would establish a temporal kingdom and dispense offices of honor and trust to his favorites. This belief was shared by all the disciples; Judas thought he saw a good chance for becoming rich and honorable. When he saw that Christ was going to the cross all his hopes vanished. He cared more for money than for Christ. Seeing that selling Christ was his last chance for making money out of him, that his office as treasurer was gone, he resolved to make the most of his opportunity and went out to close a bargain with his master's enemies. Disappointed, and smarting under the rebuke, he resolves upon the worst, and sells his Lord for 30 pieces of silver. Many a man has sold his Lord for less than that."

"Let us learn, first, never to take the first step in sin, and we will never take the second; second, to repent quickly upon every warning; third, to resist stubbornly every temptation; fourth, to guard well the weak points in character; fifth, that if a man is lost it is his own fault."

TARIFF AND REVISION.

A Democrat Makes Comment on Various Measures.

PORTLAND, June 15.—(To the Editor.)—Referring to your editorial in the Oregonian of June 9, headed "Democratic Plans," will you please say as a Democrat, some of the things you have regarding some of your statements and their necessary conclusions? You speak of the Republican party as having a policy of revision and reform, and, of course, you refer to its tariff policy. Webster's defense history and historic as "An accurate and a statement of facts"; policy as "A settled method by which the affairs of a nation are administered."

Now, since the Republican party came into power in 1860 it has formulated and carried into effect three definitely named tariff acts, although there has been hardly a single session of Congress, under its control, but there has been some tinkering of schedules. They were the Morrill or war tariff act, with an average of nearly 50 per cent, and the present Dingley act, whose average of duties is about 35 per cent. Now, I beg to propose that every specific instance that you can show me in the McKinley schedules wherein the Morrill duties upon manufactured articles were lowered, I will produce a like instance. Also allow me to affirm in addition that the McKinley schedules were full of inequalities, infamous in nature, because almost invariably the highest duties were against the consumer least able to pay.

Now, further in the line of the Republican party's "policy of revision and reform," did you in the Dingley act lower the excessive McKinley duties or even up any of the inequalities? Allow me again to affirm that for every instance you can show me of a reduction, or an evening-up, I will produce ten wherein the duties were raised or the inequalities made greater.

"The Wilson bill bristled with inequalities." Well, I can assure you that the average Democrat gets pretty sick whenever he hears it called a "Democratic measure"; but allow me to call to your remembrance that the first Democratic National Convention held after the enactment of the Wilson bill overwhelmingly refused to stand sponsor for it, or in direct anything else pertaining to the Cleveland administration.

I quote again from you, "If possible it (the Wilson bill) was more favorable to the trusts than the Dingley act. It was a . . . injurious to the consumer and beneficial to

FATHER SEEKS VENGEANCE

THREATENS VIOLENCE TO LITTLE DAUGHTER'S ASSAILANT.

Slight Clew to Identity of Brute Who Abused Gertrude Lavery and Escaped.

Police protection against summary vengeance will be necessary if the assailant of Gertrude Lavery, the three year old daughter of Harry Lavery, is found by the father of the infant. Lavery declares with stern emotion that the perpetrator of the assault will suffer dire consequences if caught by him. He believes that he will recognize the man who assaulted the child Saturday afternoon.

Police detectives believe they know who the child's assailant is, and are making every effort to locate him. From descriptions furnished the chief, it is believed that the brute, who made the assault, was one of the followers of a circus which appeared in Portland a few weeks ago. At that time Fred Johnson was arrested on a charge of enticing a little girl into the woods, but was acquitted in the municipal court because of lack of evidence.

Although weak from her revolting experience with the fiend who made the assault on her little Gertrude will recover. She is being cared for by a physician and it is thought that she is in no danger.

Capitain Bruin and Chief Gritzmacher are making every effort to locate the perpetrator of the crime. He will be taken into custody, the police declare, if he has not left the city.

Although Police Detective Day, who has been detailed on the case has been working hard tracing the child's assailant, he has no trace of him could be found yesterday.

In an order to all officers Chief Gritzmacher instructed that a most vigilant search be made for the perpetrator of the crime. Chief Gritzmacher believes that the offender is Johnson. Johnson is now a woodchopper, and was arrested by Sergeant Burt. He has attempted to entice away a little girl, Johnson is a Swede. When arrested he said he had worked in Oregon City. Many however, believe he came to the city with the circus.

BESETTING SIN OF JUDAS

Lesson Drawn From His Downfall Through Avarice.

Dr. Jordan, pastor of the Central Baptist Church, preached yesterday morning upon "The Betrayal and Repentance of Judas." He pointed out the traits of the betrayer of Christ, which he thinks apply to all humanity, and said that the love of gold would cause many who live today to repent his crime.

"Most people have an exaggerated estimate of the character of Judas," he said. "They regard him as a monster and not as a man.
