"There never has been so little suggestion of a change of policy in the Government. The dissatisfaction in the labor world does not arise from want of employment at a profit that enables the wage-carner to live well and save something, but arises from a belief that the worker is not getting his share of the profits of production; and the dissatisfaction regarding transportation arises from the belief, more or less well founded, that the

carrier discriminates between shippers, But, in the aggregate, the charges for transportation in the United States are less than elsewhere in the world and have been decreasing through a long period of years.

Basis of Our Civilization.

"The average man never was so well educated, so free, so well fed, well housed or well clothed. Society never was better balanced than now, nor was the American Republic ever so well established at home and abroad, or more beloved by its people.

"Our civilization rests on the hustling of the human unit, and when you take away the material benefits which come from individual effort you destroy civilization. If that he Socialism, there is no danger of a Socialistic America. There is certainly no effort for Socialism in this country voiced in Congress, and I don't believe there ever will be, so long as we continue to have a government of and by the people.

Troubles Due to Rapid Progress.

"I have been hearing predictions of the downfall of the Republic and the enslave ment of the people all my life. These are the mere mouthings of demagogues,

"All our troubles come from the rapid development of the country. We have been so busy developing it that we were bound to wake up and find that abuses had crept in. The American people have a capacity for self-government, and they will see to it that, without interforence from any man or group of men or corporations, every existing evil will be reme dled."

TOOK HIS STOCK WITH GUN John Day Cattleraiser Buncoed by

an Idaho Buyer.

VALE Or., June 18-(Special.)-The stockyards at Ontario were the scene of stockyards at Ontario were the scene of plots and counter plots Sunday. Joe Combs, one of the main stockraisers of John Day; John Sebrey, a stock buyer, of Caldwell, Idaho, and Handley & Par-sons, of Harney County, made the third party to the trouble

bs sold to John Sebrey a band of cast by women.

Combs sold to John Sebrey a band of his cattle, who agreed to turn over to Combs the money for them as soon as he delivered them and had his money for them. Sebrey in turn sold the stock to Handley & Parsons and skipped the country. Joe Combs was loser \$3300 and he immediately took position at the stockyards and with a six-shooter kept the men in charge of the stock from shipping them.

The P. Burns Company has just placed an order in Portland for a 40-horsepower gasoline boat to carry meat to the camps along the Portland & Seattle construction shipping them. The cattle were not shipped and Combs seperated his from the other stock and placed them in a corral of his own. Law-yers have been employed and a legal batfrom this point as far south as The Dailes. INSISTS ON INVESTIGATION

Tillman Wants to Know What Banks Gave Campaign Funds.

WASHINGTON, June 18 .- Senator lilinan again today called up his res-lutions-providing for an investigation f National banks' contributions to political campaigns, and also relative to the recent failure of the Chicago Na-tional Bank. He said Senator Aldrich had waived aside the resolution on the ground that the Senate had recently pussed a bill prohibiting the banks from making campaign contributions, but he contended that such action on but he contended that such action on the part of the Senate was not suffi-cient. Believing that the banks were the principal source of revenue of the Republican political committees, he did not believe that the House would pass the bill prior to the election of next Fall. Hence, he still felt the necessity for the investigation provided for by for the investigation provided for by his resolution. He insisted that the resolution should be retroactive, but confessed that he had little hope in that direction.

The bankers will get an immunity bath for past offenses." he predicted. Speaking of the Chicago bank failure

Tillman charged that the Controller of the Currency had known for months be-fore the failure that the bank had in effect loaned \$15,000,000 to its president in violation of law.

Senator Hopkins replied that Tillman had been mieled by irresponsible Chi-cago men, and declared that the South Carolina Senator's "tirade" had proved another illustration of the fact that "a little learning is a dangerous thing." He charged the South Carolina Senator with a desire to injure the Chicago banks, and to exploit himself. No action was taken by the Senate.
