Members of Trust Indicted for Conspiracy Under the Sherman Law.

LICORICE PASTE MONOPOLY

Government Has Letters to Prove Combination to Kill Off Independents by Raising Price of Necessary Material.

NEW YORK, June 18.—The Federal grand jury today handed down an indictment charging the McAndrews & Forbes Company, the John E. Young Company, of Baltimore, and the presidents of the two corporations, Karl Jungbluth and Howard E. Young, with violation of the Sherman anti-trust law.

It is alleged that the John E. Young Company, of Baltimore, under the agreement, supplied the independent manufacturers with the paste at prices fixed by the trust, and that the subsidiary corporations of the combination, the Continental Tobacco Company, the American Tobacco Company, the American Snuff Company, the P. Lorillard Company and the J. J. Reynolds Tobacco Company, were supplied by the McAndrews & Forbes Company.

As a result of the complaints, Henry W. Taft, a brother of Secretary Taft, of the War Department; Felix H. Fry, E. P. Greener, of New York; and E. J. Hill, of Boston, were appointed special Attorneys-General of the Department of Justice to conduct an investigation, and later the United States Supreme Court sustained every contention of the Government.

Indictment Charges Conspiracy.—The indictment returned today charges that the accused knowingly engaged and conspired in a combination in the restriction of trade and commerce, destroying competition and maintaining arbitrary and noncompetitive prices in the sale of licorice paste.

The indictment contains a long correspondence signed by the accused, both as corporations and individuals, all showing a control of the licorice paste market and a constantly increasing price to be charged to the independent manufacturers.

also disaster, it is feared that the bids on the new building will be more than \$12,000, and as this is the sum which the district is bonded, a meeting was called for July 13 to decide whether to build this year if the bids are higher or wait until the building can be built for the amount bonded.

HORRIBLE FACTS KNOWN

Troops Joined in Slaughter.

He also holds that the participation of the troops has been completely proven. He quotes Deputy Stokhelin as saying that this is clearly shown by the demoralization of the soldiery consequent on the removal of all restraint. The correspondent declared that not only the soldiers, but their officers also, participated, and that he was a witness as late as Saturday of the shooting down of a Jewish girl from the window of a hotel by Lieutenant Miller, of the Vladimir regiment. The Governor of Grodno, who happened to be passing at the moment, ordered an investigation.

PILLAGE AND MURDER CEASE

Occasional Shooting by Rebels. Telling Trouble to Douma. ST. PETERSBURG, June 18.—(2:45 A. M.)—A dispatch from Bialystok to the Associated Press dated at 8 o'clock last evening, but delayed by the censor, says: "The day passed without any important renewal of disorders. Pillaging and attacks on Jews have ceased, except in isolated cases. The troops apparently are in full control of the situation, but small bands of armed revolutionists are still making a fight against the troops, firing occasional shots, but without casualties. Funerals have proceeded throughout the day without even the procession being escorted from the hospital to the cemetery outside the town by a detachment of troops.

"A force of Cossacks and dragoons, with horses saddled, stands constantly at the entrance of police headquarters, in instant readiness to rally forth at the first alarm. Normal life is being resumed at Bialystok. A few stores have opened, provisions have arrived and a few cabs are appearing in the streets. "The committee from the lower house of Parliament, in returning to its hotel this evening, found its way blocked by a crowd of Jews and Orthodox Christians wishing to relate piteous stories."

COUNTED 290 JEWISH DEAD.

Correspondent Shows It Was Massacre, Not Battle. ODESSA, June 18.—The Nevost of this city published a dispatch today from its correspondent at Bialystok, saying: "I personally counted 290 Jewish corpses, a great number of which were horribly mutilated. Only six Christians were killed and eight wounded."

Urge Britain to Intercede.

LONDON, June 18.—Leading citizens of this city met yesterday to discuss the situation at Bialystok and the possibility of bringing pressure to bear upon the Russian Government. Later in the day Lord Rothschild called at the Foreign Office and discussed the matter with Foreign Secretary Grey. Lord Rothschild, in an interview last night, said that nothing had been finally decided upon. Sir Samuel Montague, however, said he had hopes that the government would intervene. The government, Sir Samuel said, did not favor financial pressure upon Russia, because it would adversely affect French holders of Russian bonds.

Navaho Too Heavily Handicapped.

HELGOLAND, June 18.—In the Dover-Helgoland yacht race for Emperor William's cup, started Saturday morning, the American-built yawl Navaho, owned by George W. Walton, of Bremen, crossed the finish line at 8:16 tonight. The British cutter Alisa, owned by Mrs. A. H. AGRIAN DEBATE IS ENDED

Douma Plans to Work All Summer and Ignore Recess. ST. PETERSBURG, June 18.—The long debate on the agrarian question was ended at this morning's session of the lower house of Parliament with a strong speech by Michael Stackavitch, of Orel, in which he virtually declared that the government must recognize the principle of the partial expropriation of private land holdings in order to satisfy the peasants. He appealed for peaceful co-operation between the House and government in arranging a settlement of this great question. It was then decided to send the agrarian question to a committee, and after recess the question of the composition of the committee was considered. The size of the committee, which will be elected tomorrow, was fixed after the debate at 9, or 11 more than originally planned.

OUT OF BUSINESS

EILERS PEOPLE VACATE THE BIG WASHINGTON-STREET RETAIL SALESROOMS.

Will Occupy Upstairs Premises in Same Block in the Fall—A New Eilers Piano House Retail Before Winter—Improvements and Alterations to make it Best Appointed Store in the Union—City Offices in Old Location but on Mezzanine Floor.

Things around the old Eilers' Piano House presented a rather topsy-turvy appearance yesterday, when the remnants of the many pianos and organs sold during the closing out sale of the retail department were being distributed to the big warehouses occupied during the past six weeks were formally vacated yesterday. Though the piano subscription instruments will have to be carried on for another 36 hours, it does not seem to be generally understood that Eilers' Piano House is now practically out of the retail city business. As stated, we were fortunate in securing at the very last moment a new five-year lease on the upstairs of the block, but the upstairs work is being carried on by Portland's leading business college, for which institution a fine new building is now being erected on the corner of Tenth and Morrison streets. When the new building is completed we are to take possession of the old premises on Washington street, and also talking machine parlors will be some of the noteworthy features.

The upper or western portion of the block formerly devoted to Aeolian Hall will be remodeled and an entrance to the new upstairs salesrooms, a portion, also, being devoted to show windows erected on the private offices of the various managers. In the old Aeolian Hall is now located temporarily the Eilers' piano library, and in the front portion will be found the Oregonian Premium talking machine record distributing department.

Offices Will Remain. But until these many changes are completed and possession has been secured, Eilers' Piano House will remain the main part of the retail piano trade. As soon as possible after October 1 we shall commence work on the upstairs premises. Convenient stairways and a modern elevator will be installed. Several very nice parlors, in either or single will also be provided. We shall have a fine rental hall, twice as large as our present parlors, and also talking machine parlors will be some of the noteworthy features.

Out Until Then. But until these many changes are completed and possession has been secured, Eilers' Piano House will remain the main part of the retail piano trade. As soon as possible after October 1 we shall commence work on the upstairs premises. Convenient stairways and a modern elevator will be installed. Several very nice parlors, in either or single will also be provided. We shall have a fine rental hall, twice as large as our present parlors, and also talking machine parlors will be some of the noteworthy features.

The new arrangement will not necessitate the removal of the upstairs wholesale offices to our wholesale quarters at Thirteenth and Northrup streets. A clever architect has planned the possible as to their location by erecting a mezzanine floor in the north and western portion of our main building, where the city bookkeepers, and also the general and wholesale accounting departments will be located. A burglar fire and burglar proof safe deposit vault is to be installed in another part of the premises. In the Fall the establishment of Eilers' Piano House will be as complete, and as thoroughly equipped as any other store in the city, probably equal to the very best of them in attractiveness.

Saves \$39,000 Rent. And best of all the new arrangement will mean a saving in rent to Eilers' Piano House of over \$39,000 for the five-year lease, an average of \$7800 a year. This benefit alone will enable Eilers' Piano House to purchase pianos and musical merchandise on more advantageous terms than ever heretofore. Telephone number remains as heretofore, "Exchange 33." City collections will be paid at the old office same as before, only that during the summer months will have to be shifted to various portions of the hall. It will be the aim of contractors to cause as little inconvenience as possible to callers. Dust and dirt will be carefully avoided, and our bookkeeping work will proceed with the very least interruption. The old street "33" will be retained in reality it will be 23 1/2 Street.

Instruments will be supplied for concert, for rental, and occasionally for sale, through our main building, Tenth and Northrup streets, but all appointments must be made at our downtown offices, 331 Washington street, as above at the corner of Park—Eilers' Piano House—always the biggest, busiest and best piano store in the city in every important Western city.

administration positively declined to publish the evidence, alleging that Secretary of State Taft was acting on the suggestion of the Congo Reform Association, who desire fresh material for their anti-Congo propaganda.

The administration also held that no foreign power had the right to interfere in behalf of Congo natives.

Likes Democratic Spirit of Norsemens and Wins Hearts by Encouraging It—Enthusiastic Welcome to American Delegation.

CHRISTIANIA, June 18.—King Haakon and Queen Maud journeyed from Molde to Christiansand today and were received everywhere with enthusiasm. Their greeting at Christiansand was particularly warm. The municipality of that city extended a formal welcome to the sovereigns, presenting the King with an address and begging him to be the city's guest at a banquet, at which the health of the new monarch was enthusiastically pledged. Crowds thronged the streets and cheered the King and Queen whenever they appeared.

Wins Hearts by Democracy. During the King's speech at Molde yesterday, in acknowledging the welcome extended to him, he said: "I thank you in behalf of myself and wife." The fact that the King used the word "wife" instead of "queen" has attracted considerable attention.

The King is greatly pleased with the success of the Norwegian party, which has generally been marked by informality, resulting in a marked increase in the popularity of the sovereign.

Welcome to Americans. An interesting feature of the day was the arrival here this morning of the Norwegian delegates from America to the Communes of Sleean, Smyehove and Konopliet, in the valley of the Sazava River. Sixty houses were demolished and dams, bridges and roads were swept away by the flood, fields were covered with water, and many thousands of much livestock perished. Seven persons are missing.
