BOYS ACT AS THE JURORS

Novel Expedient Adopted by Judge Frazer in Juvenile Court.

Back to the old Colonial form of administering justice went Judge Frazer, of the Juvenile Court, last evening, when he selected three of the boys who had been summoned as witnesses in a neigh-"stone-throwing and boy-scrapping" episode to sit as jurors and pass udgment on the merits of their playfellows' respective contentions. The result of this experiment was that a verdict of "not guilty" was returned, by a two to one viva voce vote, and Clerk Mrs. M. E. Daggett, of the court, was instructed to enter this verdict upon the records, while the court proceeded, in its usual persuasive manner, to shame the bevy of youngsters for the hostile demonstrations toward each other and caution them not to repeat the offense against the peace and dignity of the community in which

This was a case in which the parents of one 10-year-old boy brought complaint against the child of a neighboring family, accusing the latter of throwing stones at and chasing their child, while, on the other hand, countercharges of "calling think that the public has no rights whatbad names" were entered

Jury May Bring Scaled Verdict.

The case of Moritz Schwarz and others against John Kennedy was submitted to a jury in the United States Circuit Court about 4 o'clock yesterday afternoon. Judge Wolverton instructed the body that he would hold court open until 5 o'clock, and in case no agreement had been reached, that it could bring in a sealed verdict fater on and report to him this morning at 10 o'clock. Shortly before 5 the jurors filed into court and asked for further instructions relative to the measure of damages to be awarded plaintiffs, indicating that they had agreed upon a verdict favorable to the latter. After receiving the instructions the jury retired, and Judge Wolverton adjourned court until this merning. mitted to a jury in the United States

norning.
It is indefinite what amount will be given the plaintiffs, although they sued to recover \$2800 on account of an al-leged breach of contract relative to the sale of 86 bales of hops near Wood-burn, Or., in December, 1903. It is believed, from the nature of the instructions requested, that a smaller amount has been agreed upon.

Lauren Pease's Suit Continued.

The case of Lauren Pease against the St. Paul Fire & Marine Insurance Com-pany, transferred from the State Circuit Court of Multnomah County to the United States Circuit Court, was continued yes-terday for the term by Judge Wolver-ton upon motion of Milton W. Smith, attorney for defendants.

Stockholders Inspect the Road.

NORTH YAKIMA, Wash., June 18.—
(Special.)—George Donald, who is building the North Yakima & Valley Ralway, up the Nachez Valley, made the first run of his new passenger cars today by taking the leading stockholders from the East to an inspection rour. Those in the party

(Continued From Page L) good to come before you and ask that you rialize the Legislature or the District Attorney.

Made Easy for Gas Company.

"It is my belief that there has never things have been made so easy as for this one. For 47 years it has been operating under the powers given Mr. Green, and the first thing to be determined is what this company paid for its plant. It is my charge that when Green and Leonard transferred their plant through promoters to the present company the latter did not pay a solitary dollar for it. All they did was to issue \$1,000,000 in bonds and \$1,000,000 in stock.

"The amount they paid in bonds and stock we do not know. When Mr. Adams was asked about this he told us that it was none of the people's business. But we have a right to know whether it was a bona fide investment. When they first came here they said they would tell us all; that all of their business had been fair and above board, but when we ask a vital point we are told that it is none of our business by arrogance that would credit Vanderbilt, the 'public-be-damned,'

Why Did Not Adams Answer?

"Why did not Mr. Adams answer that question? Simply because he knew that the answer would be against him. If he replied truthfully he would have implicated himself in business that was dishonorable, in my opinion. They are perfeetly willing to talk of the reorganization, but not of the organization. If it was rotten in the first place, it was rotten all through.

"In 1901, when they reorganized, the stockholders and bondholders were largely the same. They reduced the bonds from \$1,000,000 to \$500,000, and say that they put in \$250,000. We have to take their word for the \$250,000, but if it was actually advanced it was the first capital to be put up, and the public was called to pay all the time interest and dividends on \$2,000,-900 in stock and bonds."

Excessive Charges Made.

After concluding with this part of the evidence, Mr. McGinn proceeded to show that the company has been charging excessively. He read testimony where Mr. Adams had stated at various times during the trial that the cost of gas to the company was 71,97 cents and 82.9 cents. Both figures, he argued, were above the real price to the company, and read in the evidence where an employe of the company had testified that in San Francisco gas was manufactured for 50 cents by the new company, and that the old one bought The suit involves a claim for \$31,000 it out for \$6,000,000 to do away with the damages alleged to have been sustained by plaintiff on account of criminal proceedings against him for the alleged embeddings against him for the alleged embeddings and the statement of Mr. Adams depreciation was bezzlement of several thousand dollars placed at 14.45 cents, whereas in other cities it is put at 7 cents. In addition to this, he showed where the Portland concern has included an item of \$186,000 for the loss on the plant.

Conclusion by McGinn.

ney Cole has begun an action in the Federal Court against P. A. Brady and Douglas Weaver, bondsmen for William testimony of dozens of witnesses, who

James Cole, Assistant United States
District Attorney, yesterday filed informations in the Federal Court charging
Ta-tas-hama, Wo-Cat-See and Andrew Barnhart, three Umatilla Indians, with a violation of section 2129, of the Revised Statutes by selling whisher on the case for the gas company in a speech, in which he evaded the issues outlined by Mr. Mc-Ginn, and deplored any reference to the organisation of the company or the question of the franchise. The committee, the asserted had been appointed simply elected. asserted, had been appointed simply reservation. An additional information, to look into the charges for and quality embracing two separate counts, was filed of gas, and the matter of the franchise against Barnhart, accusing him of assaulting Little Salmon and James Pond, we ask," he said, "is that the members of the committee treat our interests in dicks and has found the way to choke him the same way they would expect us, as off. gentlemen, to act if their interests were at stake."

Mr. Teal's Argument.

gonian itself admitted that the value of the plant is not less than \$2,000,000. We have asked the committee to inspect the plant. I do not know whether it has done so or not, but will repeat that re-

C. E. S. Wood closed the argument in a brief speech in which he entered into the testimony and attempted to show that the bonds and stocks have at present full valuation. He also entered the franchise matter briefly, saying that even if its transfer was illegal, it could not be taken by the state but that if the ruling prevailed, the most that could be done would be to cause it to revert to the original

In discussing the present price of gas, 90 cents, he said that the cost in Bo was 95 cents, and in New York, 80 cents. as fixed by commissions, and manitained that comparatively the price in Portland was less.

Is Doing Its Best.

Mr. Wood admitted that the gas company had made errors in charges and that the quality was not always the best but said that the company was doing it best to remedy defects. He asked that the committee make whatever recommendations it desired and suggest any regulations it should see fit. He concluded by saying that the gas company was not adverse at any time to investigation of its affairs, but that it believed in the present instance it had been attacked up-

The Council committee will now take up the task of reviewing the evidence and will report to the Council as soon as possible. Its first session will be held Monday. Before making its report it will inspect the plant of the gas company,

LAST OF EDWARD ADDICKS

Cannot Hope for Election When Allee's Term Expires.

OREGONIAN NEWS BUREAU, Washington, June 18.-The election of Henry A. Du Pont as United States Senator from Delaware but emphasizes the fact, long apparent, that the little state on the Atlantic seaboard will not send J. Edward Addicks, gas magnate and political corruptionist, to represent her in the upper branch of Congress. The election of Du Pont and the strength he showed in the Legislature are indicative of the declining power of "Gas" Addicks. Du Pent is not an advocate of the election of Addicks and, when the Legislature next chooses a successor to Senator J. Frank Allee, the strength of the new Senator will be cast for Allee or for some other Bepublican who is opposing Addicks. Allee, once an Addicks leader, is a can-didate for re-election, and in his fight he will have the bitter opposition of Addicks, because Allee lists Summer came out with

because Allee last Summer came out with a public denunciation of Addicks and a declaration that the latter could never be elected to the Senate. Allee owes his seat in the Senate to Addicks, it is true. Three years ago Delaware had no repr sentation in the Senate. Addicks was then a candidate, but he realized that his election would be impossible. So he fixed up a deal whereby he would be permitted to name one Senator, L. H. Ball, of the opposing faction to be given the Under that agreement, Addicks insisted upon the election of Alice, and the deal went through. Ball served but two years and retired March 4. Alice's term expires on March 4, 1907. The fact that Addicks will oppose him may bring about the re-election of Allee, but it is consid-ered a dead-sure thing that Addicks cannot be elected next winter.

If by any chance Addicks should ever

break into the Senate he would be the most disappointed man in Congress. His reputation is such that he would be shunned by self-respecting Senators; he would be frowned upon by the Administration and he would be absolutely without influence. His recommendations out influence. His recommendations would count for nothing; his vote would not even be solicited, and, should he attempt talk to empty seats. The Senate has turned the cold shoulder to other Sen-ators in times past, but it never froze any that the price was still too high, ending by repeating his previous recommendations to the committee.

Mr. Teal first took up the case for the gas company in a speech, in which he wealthy corporations which they serve but none of them ever came out openly in an attempt to break into the Senate by the corrupt use of money. The worst of them made a pretense at being honestly elected and, having done this much, they would not associate with Addicks.

But unless an unexpected upheaval should occur. Addicks will not come to the Senate to succeed Alles or any one else. Delaware has had enough of Ad-

GLACIER REFRIGERATORS

There are many different styles of refrigerators which are good preservers of food, but are most expensive on account of the tremendous quantity of ice required to keep them in operation. To the "Glacier" belongs the distinction of being the most economical of all refrigerators. The "Glacier" principle of refrigeration is the result of scientific study in refrigerator construction. It is so arranged and constructed that there is always a constant circulation of dry air of uniform low temperature in the air chamber, which continues in one direction, passing out after coming in contact with the foods and condensing and purifying itself on the ice, thus preventing contamination. The many styles and sizes of the "Glacier" line adapt them for all purposes. Zinc and enamel lined. We have them from \$8.50 up to \$65.00. Special terms covering all styles and sizes. \$1.00 DOWN AND \$1.00 PER WEEK.
