Prespects in the Yakima country are also bright, according to the Yakima Republic, which says: 'There will be a good crop of the point of the Yakima this year if the present indication continues to hold out. Every grower who has been seen says that he will have the best crop in years. The vines are growing rapidly and the yards are in good condition. The weather has been good for the development of the vines, but the cloudy weather of the past few days may bring the lice out in force. As to the price that will prevail for this season's crop no one at present attempts to say. If will probably be along the 10 cent mark, as this is the basis of all contracts that have been made for this year's crops.''

The Kentish Observer of June 7 printed the first of its season. The gritched is too long to be republished here. Briefly summarized, it may be said the English crop on that date was generally backward and that the Aphis ity was present in most places. In some of the partesian, between the acreage had been reduced since last season, but the grubbing was not extensive, while at a few places a small increase in England appears to be about what it was in 1905, 85.067 acres, when the unusualty large crop of 605,845 cwt. was harvested. An acqually large crop is not locked for this passed over East Xent on June 1.

Fluctuations in the Chicago Wheat Market.

OPENING PRICES ARE FIRM

Two Reactions Brought About by Selling-Holders Influenced by Declines at Kansas City and St. Louis.

CHICAGO, June 22.—The volume of trad-ing in the wheat pit was small at the open-ing. The market was firm on a fair demand by commission houses. Smaller shipments from Argentina, which held the Liverpool market firm, also strengthened prices here. Toward the end of the first hour, however, the market weakened on selling by local holders who were influenced by declines in the price of wheat at Kansas City and St. Louis. Later, the market became firm on buying by shorts. Renewed profit-taking, however caused another reaction late in the day. The market closed barely steady. Spetember opened 180% higher at 84c, sold between 83% 23% and 84% and closed at 83% 25% and 83% 284c and closed at 83% 25%.

Light acceptances of the country caused a steady tone in corn early, but later the mar-ket weakened on general selling. On the decline, prices broke almost a cent. Much of this loss was regained on covering by shorts, but the close was easy. September opened a shade to %5% ic higher at 52% to 52%c, sold off to 51%c and closed at 52c, a

loss of % to la control of the contr clined to 35% 6% and closed at 35%c. July ranged between 28%c and 39%c and closed at 38% 6%c.

PROSPECTS GOOD

BOUNTIFUL HARVESTS ASSURED BY BREAKING OF DROUTH.

Exceptionally Heavy Volume of Business Throughout the Country. Railway Traffic Enormous.

Relief from drouth in many important farming sections has restored prospects of bountiful farvests. The business of the Nation has maintained a volume that is exceptionally heavy for the season. Winter wheat harvesting has begun, the usual complaint regarding the scarcity of labor being frequently heard. Railway carnings thus far available for June show a gain of 10.50 per cent over last year's figures and foreign commerce at this port for the last week exceeds the volume in 1905 by \$5.791,920 as to imports and \$2,515,452 as to exports.

retail business, except in the Southwest, reflects a lower temperature in great consuming sections. The railways are doing an unprecedented business for this season of the year and the volume of freight moving is very heavy, gross carnings for the first half of June exceeding a year ago by 12 per cent. Money is exater, but collections tend to slow up. Lumber of tow grade shows weakness, but building activity is still marked despite the enormous volume done in the first structure.

DOWIE'S FATHER ON STAND Iowa Man Accuses Prophet of Base

CHICAGO, June 22.—In the Dowle hearing today before Judge Landis in the Federal Court, John Murray Dowle, of Essex, Ia., testified that he is the father of John Alexander Dowle. He suid that he supported and carefully educated John Alexander Dowle at Edinburgh University, and later procured him a church in Australia. He asserted that the soldier killed in the Crimean war, of whom John Alexander Dowle claimed to be the son, is "a creature of the mind of Dowle."

HONOLULU, June 15, via San Francisco, June 21.—P. D. Kellett, Jr. former clerk of the first Judge of the First Circuit Court, pleaded guilty yesterday to one of the indictments against him for embezzlement of court funds, gross cheat and forgery, and was sentenced by Judge Lindsay to one year's imprisonment at hard labor. In commenting upon pleas for leniency, based upon the fact that the defendant's shortage had been made good, Judge Lindsay made reference to the remarkable prevalence of embezzlements here and said that it was probably due in part to the custom of the courts of overlooking embezzlements when they were made good. He declined to follow such a precedent and inflict merely nominal punishment.
