Fourteen Years of Pain Mrs. G. H. La Beaumme,

"I have recommended Duffy's to my friends, who are now using it. I shall always have some in the house, for it has certainly done wonders for me."—Mrs. G. H. La Beaumme.

Mrs. G. H. La Beaumme, De Sota, Mo., praises the wonderful health - giving qualities of Duffy's Pure Malt Whiskey.

For fourteen wearisome Winters grip and the "tired feeling" were her constant companions. Duffy's restored her to vigorous health.

In gratitude Mrs. La Beaumme

writes: "I have been a sufferer from Grip for 14 Winters. When cold weather sets in I would have those miserable aching pains, and a tired feeling which never left me till warm weather. Just before Xmas last I had a terrible time with Grip and a cough, also a severe pain in my left side, I had often been advised to try your Malt Whiskey, but as I had often tried various remedies I was skeptical and concluded there was no relief. However, as I was made a Christmas present of two bottles of Duffy's I used it, and before I had finished using them I felt so much better that I used four more bottles, which stopped the aching pains, the cough, the pain in my side and made me feel like a new person generally.

Duffy's Pure Malt Whiskey

If you wish to keep strong and vigorous and have on your cheeks the glow of perfect health, take Duffy's Pure Malt Whiskey regularly, according to directions, and take no other medicine. It is dangerous to fill your system with drugs; they poison the body and depress the heart, while Duffy's Pure Malt Whiskey tones and strengthens the heart action and purifies the entire system. It is the only whiskey recognized as a medicine, and contains no fusel oil. This is a guarantee. Duffy's Pure Malt Whiskey has stood severe tests for 40 years and has always been found absolutely pure and to contain great medicinal properties.

CAUTION—When you ask your druggist or grocer for Duffy's Pure Malt Whiskey be sure you get the genuine. It's the one absolutely pure medicinal whiskey and is sold only in sealed bottles—never in bulk. Look for the trade-mark, the "Old Chemist," on the label, and make sure the seal over the cork is unbroken. Price \$1.00. Medical booklet and doctor's advice free. The general estimate Reports to the Shingle Mills Bureau today show that the first estimate that 60 per cent of the "star" mils had been closed by the striking shingle weavers is overdrawn. Complete detailed reports will not be had until Monday and the strikers' committee will not have any definite information for several days, but

go out on the sympathetic strike. In the Arlington, Standwood, Snoho-mish and Sedro-Woolley districts the union men refused to strike. The numof mills closed in these localities is

very small.

The strike has closed a number of mills that refused to join either the Shingle

insurance fund. In Snohomish, a mill owned by f man who led a fight among the mill men for recognition of the unions and vetoed the strike insurance fund was closed. One-sixth of the mills shut down in the strike are not in the membership of the Shingle Mills Bureau, while the mill owned by Dan W. Bass, president of the Shingle Mills Bureau was not closed.

The story has gone out that the union weavers might be locked out in the mills not already closed. This is not true. The not already closed. This is not true. The story is probably based upon the fact that the mills were considering a two-weeks' close-down to steady the market for star shingles. If such a close-down were ordered it would not be a move di-rected against the strikers and both the manufacturers and union leaders real-

ize it.

The strike itself may solve the question of curtailment without a close-down.
