STREET.

Besides branching off into this new field of legislative endeavor, the present session has made itself important ' in other ways. It has added one, and perhaps two new states to the Union, and by so doing has disposed of four territories.

Panama Canal Puzzle Solved.

By a deft turn of legislative points of view the questions that have perplexed Congress for some time regarding the Panama Canal have been settled. The President may dig a lock canal as fast as he pleases. A joint resolution was agreed to requiring canal supplies to be made of American manufacture

Congress has not dealt with the foreign situation to any extent. An act making a much-needed reorganization of the Consular service was passed. Nothing was done in the Santo Domingo controversy, and the legislation affectin our colonial possessions was meager and unimportant, although tariff revision for the Philippines received the attention and approval of the House, and an act was sed revising the tariff collected by the Philippine government. A coinage act for the islands also was passed.

Talking Record Is Broken.

But Congress talked about our own tariff laws. It broke the record for words. Thousands and hundreds of thousands more than have been uttered at any other | ency shown was to grant full citizenship ssion were compiled in the Congressional record. publicans gratify the ambition of Gover nor Cummins to keep in the political limelight by electing him for another term. in violation of the unwritten law of the state?

Third-Official extravagance. Why have taxes gone up during the Cummins administration?

Scores Railroad Domination.

The campaign of Governor Cummins Is based on the contention that his opponent Mr. Perkins, is being supported by the rallways of the state; that they are managing the "Standpat" campaign, and that they are seeking to secure absolute ontrol of the next state administration This is his "corporation domination

Issue. The Senatorship as much as the Gover nor's chair is the stake for which the rival factions are contending. In the immediate foreground is the ancient feud between Governor Cummins and Secretary Shaw, revived and intensified by the prospect that the serious illness of Senator Allison may culminate in a vacancy either by death or retirement.

A triffe more remote, but still looming large, is the Presidential situation and the ambition of Secretary Shaw to secur an indorsement from the Hawkeye state A Cummins victory would mean political death to Secretary Shaw, so his friends and enemies alike declare, and for that reason the Cabinet official is as vitally interested in the outcome as are Governor Cummins and Perkins.

"Standpatters" Have the Machine.

"The "Progressives" have the delegates but the "Standpats" have the central committee. From the point of view of the Cummins men that is the Iowa situ ation in a nutshell tonight, while from the position of the Perkins stalwarts the first assertion is fiction and the second fact It is still a matter of controversy and the end is not to come until the conven tion August 1.

Figures That Do Not Jibe.

Although there is a prospect that the "Standpats" will bring contests in over a dozen countles, the Cummins leaders maintain that there are only three in which the opposition has acted regularly They are Wapello, Jasper and Jefferson. Great discrepancies appear in the returns as figured by the opposing sides. The "Standpats" concede between 650 and 700 delegates to Cummins, at most a full hundred short of enough to nominate, whil the "Progressives" claim 857

The comparative strength of the two candidates, as shown in the Cummins ta ble, is as follows, the Rathbun delegates

and those from the uninstructed counties being given to Perkins: Cummins, sor Perkins, 656; in doubt, 94.
