such that Major Whyte withdrew his resignation from the Army handed in under the depressing effect of the hopeless diagnosis made of his case.
Early in January, 1906, while Major Whyte was at Southsea, another bed sore developed and grew rapidly worse, and blood poisoning set in, resulting in death. Although attended by a Christian Scientist during a part of this time, he also had in attendance a regular surgeon, and latterly, at the instance of his mother, doctor.

SOMETHING extraordinary is going on at the Heilig Theater.

There is no doubt about it, and it is going to try and tell you what it is. The surprisingly superb character of the musical entertainment there this week, and the moderate size of the audience last night constitute the astounding facts to which I allude.

It was almost on the point of saying that I would advise you to stay away, that you are right in not attending the performances of the Kendal Musical Company; that they are too good for the temporarily unreasonable (not to say sane) state of the public mind.

It is not an inconvenient distance from any urban domicile. But it will not walk up to your front lawn, and it requires a street-car ride to reach the average citizen's home. But that matter, the subject of the accessibility, is usually overcome without turning a hair by nearly every one when he really wishes to attend a show.

I believe the reason why some lethargy is displayed in crowding these performances of the Kendal Company as they are, is that the price of seats is not up to the usual altitude exacted by the ordinary touring musical comedy companies.

There were present a goodly number of wise ones—a fair-sized assemblage of inhabitants who know and like meritorious light opera and a goodly number of the vulgar multitude of music-lovers, the innumerable horde of people who enjoy music and fun, and who can better afford to attend small-scale theatricals.

Yet here are the facts: "The Telephone Girl," as everybody knows, is a pleasing, sprightly musical comedy, with a happy ending, but occasionally taking entourage, filled with pretty numbers, just the sort that has always been popular.

The whole length and breadth and substance of the opera and its fetching interpolations, together with the strikingly artistic efforts of the chorus thrown in, was more than good. It would make the people enthralled, and it was not a perfect singing of opera bouffe, but it is a positive treat to any one who likes music and really competent light-opera artists.

The biggest joke on the public is that some people who stayed away from last night's opening thought that the theater would be too warm. The Heilig was cool as one could desire. "The Telephone Girl" runs all this week, with matinees Wednesday and Saturday.

Defends Christian Science.
PORTLAND, Or., June 23.—(To the Editor.)—I enclose herewith to the Oregonian, published last Sunday's issue, the Rev. George Crowell Cressey's comments on the growth of Christian Science in England, and would make it appear that the death of Major Whyte in London, which occurred some two months ago, is a serious reflection on the efficacy of Christian Science treatment, notwithstanding the fact that the English medical record shows Dr. Adcock, who stands charged with manslaughter in the case, is not now nor has ever been a Christian Science practitioner.
