From a close inspection of conditions in Oregon will not only have a record-breaking cear will be exceptionally good, and, taking crop as a whole, better than that of last The volume of the crop is gratifying. as it will mean that much more profit for the and even if they are not, more money will circulated by harvesting operations among class where it will be most needed.

But of even more importance to the hop in Oregon has been meadily forging to the erior grade of hone and its reputation la well established in all the consuming ountries. Last Winter it was quality that carried the Oregon market through the darkng several cents below the cost of produc Should a crop of choice or export grade able, the growers of Oregon will have a de-cided advantage, as the conditions are not so good in the other American states as here, and the foreign crops are seriously threatened by the lice plague. All the hope needed in the world can be grown in Oregon, and robably will be when the population is large nough to take care of the crops, to attain hat end, but the quality of the product must ntinue to show a superiority over that of other sections. Therefore, It behooves the farmers to watch closely the insect visita-

The market presents no new features, as the unsold supply is in such small compass. that trading is naturally restricted. Only one transaction was reported yesterday, the purchase by A. J. Ray, of 14 bales from John B. Swan, of this city. The hope were grown at Aurora and brought 10% cents.

### VALLEY WOOL MOVES PREELY.

#### Pools at Airtle and King's Valley Bought by Salem Firm.

Wool dealers report free offerings of Val-y wools. Country merchants are buying readily from growers at the present prices and the latter show a readiness to accept the reduced market quotations. Two large pool lots were bought in the last few days by William Brown & Co., of Salem, at 23% cents, which is a shade better than the bids of the Portland dealers. One lot at Airlie comprised 4000 fleeces, and the King's Valley

Stock Market Supported by Standard Oil.

### **FAVORITES ARE FORCED UP**

Decline in Copper Later Breaks Amalgamated, Which Carries the Entire List Down With It. Advance in Interest.

NEW YORK, June 25.—The stock market gave evidence today for a time of some efforts at benevolent control. This had the efforts at benevolent control. fect of putting restraint upon the pressure to sell which was so prominent last week. The tone, nevertheless, was one of dull depression, and there was no attempt to inaugurate any

and there was no attempt to inaugurate any actual rise in prices.

The principed influence in the market in its effect on sentiment was the evidence of support for atocks which are reputed to be the favorite medium for market operations by supitalists in the so-called Standard Oil group. Movements in the general market responded quite closely to the action of these stocks. St. Paul, Amsignmented Copper, Union Pacific and Southern Pacific are conspicuous examples. The notable weakness of these stocks on Saturday arounced fears in the ranks of the habitual speculative element that prosincks on Saturday aroused fears in the ranks of the habitual speculative element that pronounced weakness in the stock market was to be the reflection of the administration plan for prosecution of the Standard Oil Company which was formally announced at Washington last week. Today, Uunion Pacific and St. Paul showed evidence of aggressive support, advancing at one time a point or more, and amalgamated Copper was lifted again and again to above par, where it closed on Saturday. This had the effect of creating an impression that the Standard Oil group intended to offer support to the market against the depressing influence of the hostile intention of the administration.

The period of strength in these stocks was identically with that of the greatest roelsting power in the general market, and the whole list went off to the lowest of the day, when Amalgamated Copper gave way late in the day and showed signs of an abandonment of support. The comparative firmness of United

day and showed signs of an abandenment of support. The comparative firmness of United States Steel and of Pennsylvania were of sympathetic benefit to the rest of the market.

While sentiment was affected by these speculative considerations, there was no change in actual conditions affecting stocks. The weekly reports of the railroad traffic officials admitted some contraction in the shipments of merchandies, which was attributed to the severality uncertainty over the shipments of merchandies, which was attributed to the prevailing uncertainty over the
crop outlook. Saturday's rumons of a preposed steel combination to rival the United
States Steel Corporation had some elaboration,
but a stiffening tendency in the foundry iron
market was of more influence. The commodity markets were still unsettled by varying
reports of crop damage. The approaching adjournment of Congress was cited as promising
relief frum some of the factors of depression
in the stock market. Interborough Metropolitan made another downward plungs on account of the call made upon mismbers of the ount of the call made upon members of the vidicate for a payment of 90 per cent of

Interest rates for time loans continued to advance and the six months' bills were raised from 5 to 5½ per cent and for seven and eight months. 5½ per cent was the askins raise, with 5½ per cent strangly bid. Foreign exchange continued to decline in compliance with the demand for money, but the London sevent advanced syntactive measures by ad-

market.

The weakness of the copper market in London was believed to have some special effect on Amalgamated Copper, the break in which proved finally effective in weakening the whole market and the last prices were near the lowest of the day and showed general declines for most of the active leaders of 1 to 2 points and in a few caues more.

Bonds were heavy. Total sales, par value, \$1,105,000. United States bonds were all unchanged on call.

Chicago Market Weakened by Persistent Selling.

## LONGS UNLOAD THE WHEAT

Sentiment Is Bearish Most of the Day-Unfavorable Weather Reports Offset by Decline at Liverpool-Corn Drops.

CHICAGO, June 25 .- The news of the day in the wheat market was strongly in favor of the bears, the only bullish feature being heavy rains in the Southwest which are interheavy rains in the Southwest which are interfering with harvesting and reports of damage by hall and the appearance of rust in several localities. The market opened easier because of a decline of 1/4 to 1/4 in Liverpool and heavy shipments from Russia. It was fairly well supported, however, on the decline by a number of prominent bulle and a few commission house. Prices finally gave way under persistent selling by several large local traders and as prices declined there were continuous sales of long wheat which weakcontinuous sales of long wheat which weak-ened prices still further. September opened at 53%254c, which was a shade to %9%c under the close of Saturday, sold between 82%c and 84%c and closed %9%c lower at 82%c. July opened %6%c to %9%c lower, at 83%688%c, sold between 82%c and 83%c, and closed at 82%c.

SING. July opened 168% to 168% lower, at 83% 63% c, sold between 82% c and 83% c, and closed at 82% c.

The corn market ruled dull for the greater part of the day, with only a moderate trade. Late in the day the market was influenced by the weakness of wheat. The demand for cash corn was amail and from 1/2 to le lower. The close was easy with prices close to the lowest point. September opened 16% lower, at 51% 51% c, ranged between 51c and 51% c, and closed 1/2 lower, at 51% 651% c, ranged between 50% and 51% c.

The oats market was easy partly on favorable weather for the crop and in sympathy with wheat and corn. The close was steady. September opened 16% 10% lower, at 34% 155c, sold up to 35% c and as low as 34% c. The close was 16% for lower, at 14% 53% c. The close was 16% 16% lower, at 16% and 16% c.

Provisions were steady, chiefly because of a firm market at the stockyards, which was

firm market at the stockyards, which was due to smaller receipts than expected. There were liberal shipments of all products and active buying of lard by local packers. At the

Mrs. Le Doux Confesses Taking Drug Throughout Her Trial.

STOCKTON, Cal., June 35.-Mrs. Emma Le Doux, convicted of the murder of A. N. McVicar, this morning turned over to her attorney in the visiting-room of the

County Jail six quarter-grain tablets of morphine, at his request, and he in turn gave them to the Sheriff.

Mrs. Le Doux told the Sheriff Sunday that she had a grain and a half of the poison, but refused to disclose its hiding place. The Sheriff demanded the poison, but the refused to give it up without she but she refused to give it up without see

ing her attorney.

Mr. Fairall advised her, to give it up, which she did. She said it was the morphine which kept her up during the trial. The poison the woman secured from Dr. Dillon, of San Francisco, which she is alleged to have given McVicar, was in half-grain tablets.

Government Sues Railroad.

The case of the United States against the Southern Pacific Company was argued and submitted in the United States District Court yesterday before Judge Wolverton. The suit involves two causes of action against the railway corporation for a violation of the safety appliance act of Congress approved March 2, 1893, in having hauled cars over its tracks in this city on or about September 13, 1905, while the coupling pins were out of repair and inoperative. Damages to the extent of \$100 on each count are demanded by the Government.
