An electric railway from Portland to Tacoma and Scattle will be built and operated by the Portland & Seattle Railway on the old Portland & Puget Sound grade and work between Portland and Chehalis was begun yesterday Official announcement of the construction of the new line was made at Tacoma yesterday by President C. M. Levey, of the Portlad & Seattle. The road between Portland and Chehalls

will be completed first. The old grade to the Sound, abandoned years ago by the Portland & Puget Sound, which was formed by the Great Northern and Union Pacific to build a joint line to the Sound, has been acquired and deeds conveying the title from the Northwestern Improv ment Company to the Portland & Senttle have already been filed in Pierce and Thurston Counties and similar dec uments will be placed on record at once in all the counties of Washington through which the line runs,

The Northwestern Improvement Co pany acquired the interest of the Union Pacific in the right of way when that company and the Great Northern stopped the building of the grade fo the joint line in 1891. The Great Northern held on to its interests. The Portland & Scattle has since acquired the property from both these companies. The consideration named in the deeds flied yesterday in Pierce County was

President C. M. Levey, of the Portland & Seattle, corroborated the story of another Hill line between Portland and the Sound cities in answer to inquiries from The Oregonian last night.

Work Already Begun.

Work on the new line has already begun," said President Levey, "A crew of men went to work on the grade be tween Chehalis and Portland this morning. The full details remain to be worked out, but we expect the line to be operated by electricity. The Portland end will be in operation first.

"The Portland & Senttle has acquired the property and we propose to improve it. This is as definite as I can make our appouncements at present."

It is expected that the completion of the Portland-Puget Sound line will be simultaneous with the operation of the Portland & Seattle road from Kennewick to Portland, and that the projected electric road will be given up to passenger trafsic, while the present Hill line will be utilized for freight hauling almost exclu-

BERLIN, June 28.—The Cologne Gazette oday printed a number of complaints on he subject of the treatment German goods have been subjected to by the Unit-ed States since March 1, when Germany agreed to extend the most favored nation clause of the tariff to American goods, in return for alleviations in the American customs. The paper says the United States promised Germany milder treatment in the application of ad valorem duties, and that instead of this the United States is valuing German goods higher

than ever.

This has caused a check in the export of certain kinds of goods. The Gazette therefore demands that the German government adopt retaliatory measures, and says it must immediately instruct the German Embassy at Washington to insist upon justice being done.

PICNIC HAM POISONED.

Seven Members of Wilkinsburg Congregation Will Probably Dic.

PITTSBURG, June 26,-(Special.)-A score of persons were poisoned, seven of them probably fatally, by eating boiled ham at a picnic held by the Swissvale Avenue Methodist Episcopal Church, of wilkinsburg, at Highland Park this even-ing. Seven victims, who the doctors say cannot recover, are: Rev. J. E. Morrison, pastor of the church (quincy P. Stahlman, his wife and Syear-old son, Paul; Mrs. S. D. ESTHER MITCHELL'S WORK

Dead Prophet's Former Adherents Secretly Cherish Idea That He Will Return to Earth-Jury Not Yet Secured.

BY GEORGE WHITE. SEATTLE, Wash, June 26.-(Staff Cor-espondence.)-All day the tedlous, humfrum work of selecting a jury to try George Mitchell for his life on a charge of murdering Edmond Creffield was kep When the Superior Court adjourned for the day there were 13 talesmen in the jury box; all passed for cause. Were all these to be accepted in the morning, the taking of testimony could be proceeded with. To all outward appearances there is no reason for objecting to any of these talesmen. All have answered the questions put to them satisfactorily to both prosecution and defense. All have the equisite legal qualifications.

But in their capacities as students of iuman nature the attorneys in the case ndoubtedly have formed prejudices. Watching each talesman intently every oment they have weighed each person allty and studied the psychology of each man with whom they must rest their hopes of success or chances of defeat. By this weighing and judging of men they have formed their opinions as to the desirability of each talesman as qualified. Hence, when court convenes again tomorrow morning, peremptory challenges will

It is known this evening that at least two of the talesmen now in the jury box are to be challenged in this manner. Probably more may be similarly dealt with. It is not altogether improbable that the box will be entirely emptied and a new

their way with utmost care and caution. Legal maneuvering has already begun, each side seeking to outflank the other on some point that may seem unimportant to the lay observer but may develop significance later in the trial

Late this afternoon, Attorney Will H. Morris, representing Mitchell, recited all the morbid details of Creffield's fanatical teachings and of his dealings with the prisoner's sisters prior to the shooting. He brought out these facts in the examination of F. M. Townsend, one of the last talesmen of the afternoon, at a time when the jurybox was filled with men who had qualified to erve. The effect of the story was easily apparent. As the nauscating story of Holy Rollerism was unfolded several talesmen grew deeply interested in their own feet. Others sniffed covertly, and one or two made no effort to control their emotions as the

in the guise of a question the objection could not consistently be sustained under previous rulings made by the court. In his word picture of Holy Roller-em and its practices, Mr. Morris told of Creffield's first meeting with Mitchell's sisters, Mrs. B. E. Starr and Esther Mitchell, when they were devoted to each other and to the other member of their families. He contrasted this with the subsequent estrangement, the desertion of her husband and three

During the recital of these things young Defendant Mitchell displayed the first real emotion that he has shown since the trial began. As the names of his sisters were spoken he lost his passive, stoical The muscles of his face worked convulsively. His head dropped forward and his eyes became riveted on the carpet at his feet. He did not look up until some minutes after his attorney was done speaking, and then he seemed restless and il at ease, shifting his position frequently and drumming nervously on the table in

The recital of these bideous facts and their apparent effect on the talesmen and spectators are believed by those following he case to give a fair insight into the strength of Mitchell's cause. It is not beleved by many people that 12 men can be cotten together who can hear recited the details of Creffield's pernicious practices and yet consider the case calmly, without emotion and in accordance with the letter of the law, which says with ley logic; Mitchell killed Creffield, premeditatedly, Mitchell is guilty of murder"

Public opinion in Seattle appears to be, for the most part, with Mitchell. There are many, however, who cannot reconcitheir sympathy for the defendant with the idea of personal assassination; who believe that no man has the right to take the law into his own hands.

Women Offer Sypmathy.

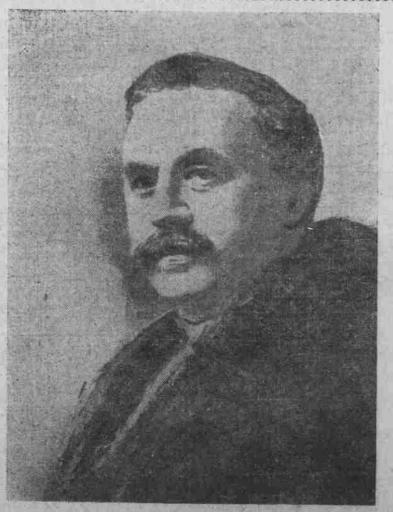

During a recess of court today the young prisoner received a visit from a group of women, all of them ejderly or past middle age. They said that they did not know Mitchell, but assured him that he had their deepest sympathy and best wishes. Mitchell also received a visitset of talesmen brought in. Rarely bus the case against any pris oner moved with more rapidity than did the proceedings today which ended in Thaw's formal commitment to the Tombs. Save in this unusual and almost frenzied haste, the routine followed and the treatment accorded to Thaw differed in no respect from that meted out to any pris oner charged with a capital offense

Thereafter, awaiting his turn in the long line of petty criminals arrested during the night, he was photographed and his measurements taken on the Bertillion system.

Again in the patrol wagon he was taker to the Criminal Court building, where a great multitude gathered to tatch a passng glimpse of him, and was arraigned in the Police Court. There the proceedings were of the briefest, and after the bare formality of arraignment had been undergone. Thaw was remanded to the custody of the Coroner and on his order committed to the Tombs, to await the result of his trial.

NEW YORK, June 26 - (Special.) - From all the confusing mass of conjecture and surmise in connection with the murder of Stanford White by Harry Kendall Thaw, husband of Evelyn Nerbit, it appears that the act was due to insane jealousy. White knew Miss Nesbit before Thuw met her In White's studio there is a small nude bust of Evelyn Nesbit, and detectives employed by Thaw have been unable to se-

White had been warned twice within a week that Thaw was going armed, with the intention of killing him, but laughed at the warnings, saying Thaw was a dope fiend and would not kill anybody.

Mrs. Thaw has informed intimate friends from time to time that White has continued to communicate with her many times since she gave a pledge to her husband that she would never voluntarily see him again. It will be this alleged persistence on White's part that will be dwelt upon, when the case comes to trial, as the thing that caused Thaw's murderous
