mand; hens plenty.

MEATS—Veal and light hogs in denand; lamba firm.

market for old potatoes. Dealers who have watched the movement of this product for the last year, and have kept in close touc with Oregon farmers, now state that much larger stocks will be left in growers' hands held on past the time when good-paying ces were offered now regret their action, as more than one heavy dealer asserts. The stocks simply are burning themselves up in bins. As to the chances remaining for dis-posing of these held-over potatoes, all dealers agree in saying that but little outside inquiry is made for old stock. One firm has a letter of advice from its San Francisco correspondent in which it is stated in that city there still remains much larger stocks than can be moved at prices showing a profit. No less than nine carloads are on the tracks there, with no bidders in evidence. There has been no inquiry from Los Angeles for some weeks.

and will soon take the place of Californiaown. The southern state is about a month ahead of this state and the early crop is drawn on for supplies for Portland local and shipping trade. Very fine, large, early Oregon-grown potatoes are appearing now, and a few days more will find the local displace the California vegetable.

Advices from California give not the best report on condition. In the Valley some of crop was either washed out or the ground became so saturated that the tubers rotted before sprouting. The ground re mained too wet for replanting in many le calities, which fact worked a double hard ship-prevented bringing the crop up to

The best informed firms in California decline to forecast prices for next month, when in competition. Without the California quotation the opening price here is not obtainable. The price depends on weather condi-tions and the acreage replanted in the southern state between this date and the aturity of Oregon crop.

Dealers who have received reports from the growing districts of the state predict a crop at least equal to last year's, and are siready looking about for additional out-Many are turning their attention to Alaska market, as the 7%-cent through rate will bring the far porthern trade to this city to great measure. Arrangements are being perfected to crate potatoes for that market rather than sack them, as they

that market eather than sack them, as they can be placed on sale there in better condition in crates, bring better prices and make a better appearance.

WOOLGROWERS SATISFIED.

Condon Sales Averaging Below 19 Cents Acceptable.

About 700,000 pounds of wool was sold here at the last sales. The prices ranged from 19% cown as low as 16s. The top notch price was received by George Hardle, who sold a good-sized city for 19%. The wool was of the average grade, but some of it was dirty and damp, which accounts for come of the low prices that were offered. There were 34 clips in the warehouses and all were sold except two. The average price paid was 18c. and the entire amounts paid out will come close to the \$150,000 mark. The buyers came. In of a special car, and among them were. E. Blike, who bought for Jordan, Judd & Rout; Charles Green, for Koshiand & Co.; A. Harris, for J. M. Russell & Co.; George Abbott, for Botany Worsted Millar William Eliey for Howell. Donnelly & Co.; George Abbott, the Sheppmen are well eatified and the market and sales concidered a decided success.—Condon Times.

Stock Market Fluctuations Unsettle Speculative Element and Prices Go Weak on

Prices Current Locally on Cattle, Sheep and The following livestock prices were quoted in the local markets yesterday:
CATTLE—Best ateers, \$3.75@1.85; medium, \$1.25@3.50; cows, \$2.75@3; second-grade cows, \$2@2.50; bulls, \$1.50@2; calves, \$4.96.50.

This was a reversal of the recent form of the market and gave great encouragement

England the "window dressing" requirements of the private discounts. But the decline in discount rates both in London and Paris showed the influence at work of the redis-tribution of the funds accumulated for those purposes. Arbitrage brokers had bids for stocks in the open dealings in New York with a view to reselling in London, which caused an almost immediate rise to the London parity. The consequence was that uncovered bears The consequence was that uncovered bear found their positions somewhat cramped a the outset and they scrambled to secure stocks the outset and they scrambled to secure stocks. This was the active period of the day.

Later advances were effected on greatly reduced business. The New York money market showed the benefit of the returning flow of the dividend and interest money, and call and time loans were reported easier. The confirmation of earlier reports of an engagement of gold in Australia was confused by means of an additional engagement. Discus-

means of an additional engagement. Discussion was hopefully renewed of probable engagements in London next week.

Reports of an intended issue of New York Treasury bonds toward the end of the month made a had impression in view of the many other known requirements. The Journal of Commerce estimates new capital issues in June at \$104,000,000, of which nearly \$97,000,000 were of bonds. This compares with a total of \$127,500,000 in May, but the aggregate for the first six months of the year is brought to \$227,000,000, which is less than \$42,000,000 under the new capital issues for the whole of the year 1905.

Ies Company stocks were weak on account of the success attending prosecutions in various parts of the country. Allis-Chalmers stocks were under pressure on reports of the heavy discount allowed to underwriters of the new bond lessue.

There was some disposition to construe the

Easier Market.

NEW YORK, July 5.—The London tin market declined over the holiday with apot there closing at 1176 2s 6d and futures at 1172 15s. Locally the market was easy in sympathy with the decline abroad and closed at 38.37 is 638.75c.
Copper also was lower in the London market, although the decline was slight. Spot closed at 581 7s 6d and futures at 580 7s 6d. Locally copper was unchanged with lake quoted at 18.006519c; electrolytic, \$18.25618.625c; cast-Lead was unchanged at 5.75@5.80c in the ocal market, but declined 2s 6d to 116 11s

as \$3.00696 in the local market.

Iron was 35 higher in the English market with standard foundry quoted at 49s 10d and Cleveland warrants at 50s 18d. Locally the

25-gallon lots, 1c less The buying, although comparatively light, was dullest periods of the morning during the

the market and gave great encouragement until the late reaction and corresponding depression came. The largest part of the new demand was attributed to the uncovered support and in the rise in prices this element was driven to buy stocks to cover.

The rise had its impulse from abroad, where prices of Americana rose during the holiday interval here. The weak return for the Bank of England is a measure of the strain of the semi-annual settlements, which include in England the "window dressing" requirements of the private discounts. But the decline in

new bond issue.

There was some disposition to construe th tone of Mr. Vanderlip's address before th New York State bankers of the necessity of currency reform as containing an alarmist now This conduced to the later reactionary tendency of the market, which was aggravate also by the reduction effected in the short it terest and the withdrawal of just so muc potential support from the market. The weak needs of Brooklyn Transit was due to report

of proposed fare regulation.

The market closed weak near the lowest.

Bonds were irregular. Total gales.

CROWD SEES THE RESCUES Girls Jump or Are Carried From Burning Building.

NEW YORK, July 5 .- In a spectacular factory fire on the East Side last night, a holiday crowd estimated at 40,000 persons saw thrilling rescues. ing. On the upper floors about 198 men and girls were at work in a cloakmaking establishment. So quickly did the flames spread that escape by the stairs was cut off, and they had to fiee to the roof. Many jumped down the 20 feet or more to an adjoining build-ing, while others were brought down by rescuers. Three were slightly in-jured.

There are several crowded tenements in the neighborhood where the fire oc-curred, and at the height of the blaze curred, and at the height of the blaze the tenants fied in panic. Two young men were arrested for attempting to rob one of the deserted homes. They were interrupted at their work by an old lady, 65 years of age, Mrs. Betsy Kaegel, whom they tripped and threw down a flight of stairs. She was taken to a hospital suffering from concus-sion of the brain.

Revenge for Sailors' Jest.

Sylph, name not known, was stabbed late last night by an Italian, who had been annoyed by the Sylph's men. The sailors from the Sylph threw several bundles of firecrackers among a passing party of Italians. An hour later the Italians returned and one stabbed the sailor in the left side, several inches below the heart. Another Italian shot at the sailor, but missed. The sailor was taken on board the Sylph.

Chicago Wheat Market Droops Under Weather Reports.

CASH HOUSES BIG SELLERS

Liberal Corn Receipts Cause Slump That Is Turned Upward by an Active Demand From Shorts. .

CHICAGO, July 5 .- The wheat market was weak most all day. There was free selling by cash houses and local longs, and support came principally from shorts. The chief fac tor responsible for the selling pressure was the generally favorable weather conditions in the United States, the Weather Bureau reporting clear weather both in the Winter and Spring wheat sections, the exception being in fallen.

mainly by liberal acceptances from the coun-

Late in the day the market experienced a fair rally, which was due to reports of rust in the wheat fields of North Dakota and Canada. The close, however, was easy, Eeptember opened %0 to 160%c lower, at 79%0 19%0, to 79%0, sold up to 79%060c, and then declined to 79%c. The close was off %c at 79%0.

Liberal local receipts and weakness of wheat caused a slightly easier tone in the corn market at the start, but prices quickly responded to a lively demand by shorts and made a fair rally. The firmness was maintained throughout the remainder of the session. Shorts were driven to cover by the almost total absence of acceptances of bids Late in the day the market experienced a

sion. Shorts were driven to cover by the almost total absence of acceptances of bids sent out by cash houses. Weather conditions were favorable to the proper advancement of the new crop. The market closed firm. September opened &c lower to %c higher, at 51% @51%c, sold up to \$2%c and closed %6%c higher, at 51% with the set of the market exhibited considerable weakness. Weather conditions the past few days have been ideal for the maturing of the new crop, and the outlook now is said to promise a fair yield. There was heavy selling by a prominent long and pit traders also sold freely. Buying was scattered. Septembers opened %6% to 150%c lower, at 35%c35%c, cold up to 35%c35%c and then reacted to 35%c. The close was %c lower, at 35%c35%c.

Provisions were quiet, but the market showed a firm tendency. An advance in the price of live hops caused considerable bullish sentiment among pit traders. At the close September pork was up 25 55c; lard was up 24c and ribs were unchanged.
