A New York Wholesaler's Entire Sample Line of Women's Hosiery

HEADS THE LIST IN TODAY'S GREAT PROCESSION OF BARGAINS

6000 PAIRS OF WOMEN'S HOSIERY MUST GO IN A DAY

A sweeping, merciless slaughter—that's the order; ignore values absolutely—that's the ultimatum! Phrasing is powerless to describe the unapproachable bargains. Thousands will share, will you be one. A brief paragraph of explanation will suffice. The values will talk so loud they'll be heard the length and breadth—and height of the city. The immense hosiery gathering represents the full sample line of one of the largest wholesalers of women's hosiery in America. For years, after their samples had done their season's stunt and served their purpose, they went, by contract, to a large Chicago department house. Last year, the contract with the Eastern store having expired, our New York buyer "got busy" and got an agreement with the "powers that be" who control the great wholesale depot to "switch" the sample lines to us. A clever coup that will bring here to Portland an annual sale for which thousands of Chicago's shrewdest women shoppers have waited to share in each year for a decade past. The values are remarkable. Hosiery is all of finest quality, only standard makes of leading mills renowned for quality of their product. Splendid wearing goods. All wanted colorings, embracing tans, browns, champagnes, navys, French blues, pinks, cardinals, resedas, emeralds, grays, blues, wines, mandarin and fancy combinations. Textures give wide choice, running the gamut of lisle, gauze, cobweb and gossamer weaves, lace effects, mercerized materials in daintily embroidered and plain styles, and—but—come! See the wonderful display! A gigantic gathering of the master hosiery looms of the world! We have placed the monster lot

On Five Great Tables Running Through Center of Entire Ground Floor of Main Building

FOR FRIDAY AND SATURDAY ONLY

And for convenience to the throngs divided the entire immense lot into 5 LOTS. EVERY LOT AN UNPRECEDENTED AND UNMATCHABLE BARGAIN.

VALUES UP TO \$1.25 A PAIR

BANKERS ARE RESPONSIBLE

Times Are Good, but Legislation Is Much Needed.

BLUFF POINT, N. Y., July 5.—Frank A. Vanderbilt, vice-president of the National City Bank of New York, was one of the principal speakers at the New York State Bankers' Association today. His topic was "The Currency." Mr. Vanderbilt said that the currency problem of this country is far from settled and declared it to be the duty of the New York association to take the lead in a consistent movement for the betterment of conditions. He said, in part:

"To my mind we are in a lethargy of success. We hear peans of prosperity sweetly sung on every side. Unexampled totals mark the measure of every phase of industrial and commercial life. We have engaged in expenditures of capital on a scale so vast that it makes the financial operations

of other days seem petty by comparison. Labor was never before so fully or so profitably employed; business was never so active; and, some of us say, there surely can be nothing wrong with a situation that gives such evidences of health and growth.

"If financial disaster should ever come because we have failed to enact proper legislation, the blame for that disaster will lie against the bankers of New York more directly than against any other group of people. The one thing I want to urge is the importance of providing a scientific bank note currency, if we wish an indomitable continuance of prosperity, and further to emphasize the responsibility which rests particularly upon the bankers of New York in presenting a plan for such currency.

"The plan may take one of half a dozen forms. Perhaps the best one, were it politically possible, would be the organization of a Government bank having the power to issue, whose sole business would be in its relation with other banks and whose chief operations would be the rediscounting for

other banks. I do not mean that any existing institution could be metamorphosed into such a central bank. It would have to be freshly organized from the beginning. Its control would need to be largely in the hands of the Government, and its ownership widely distributed among banking interests throughout the country. The principles of a scientific asset currency could well be worked out through the medium of such an institution, as the experience of Germany eloquently testifies, but they can undoubtedly be worked out in some other way.

"The fear which men so commonly have of giving a large power of note issue to small National banks will largely disappear when the opponents of asset currency have once fairly in their minds what the result will be of providing adequate redemption facilities. That a plan can be devised which will safely permit every National bank to issue a certain amount of notes not secured by Government bonds I have no doubt, and I am inclined to think that it is along that line that legislation is most likely to be obtained, although perhaps it is not the ideal solution.

"The thing of which I am absolutely certain, however, is that a solution of the whole problem can be attained wisely, promptly and easily if bankers would give to a consideration of the subject anything like the attention which it merits. The responsibility is on the bankers of New York. You cannot hide behind Congress to avoid the responsibility. You cannot shift the responsibility to the shoulders of your associates in the West. You are the financial leaders, and the responsibility of leadership is yours."

State Auditor Files Report.

OLYMPIA, Wash., July 5.—(Special.)—The monthly statement of the State Auditor has been issued for June. It shows a balance on hand July 1 in the state general fund of \$29,572.28. The total receipts during June for the general fund were \$19,454.00, and disbursements from this fund \$10,881.73. The state institutions cost \$73,035.47.

BATTLING WITH CHOLERA

Manila Bureau of Health Holding Disease in Check.

MANILA, July 6.—The cholera situation has improved. The report at 6 o'clock last night showed 19 new cases since midnight of July 4, and 16 deaths. The report for July 4 shows 28 cases and 19 deaths. Two Americans, Robert Lomberts and..... Hart, are dead, but to date only five Americans have been seized with the disorder. Thus far cholera has not appeared in the American section of the city. The Americans who have been stricken live in the native sections of Manila.

The Bureau of Health has refused to permit the sale of foodstuffs that may have been liable to infection. The efforts of the doctors engaged in combating the disease show results in the decrease in the number of new cases reported. While the disease started in

stronger than the great epidemic of 1902, the authorities believe they have the situation now under control.

For the week ending July 4 there were 115 cases and 89 deaths. For the 24 hours ending at 8 o'clock on the morning of July 5 there were 12 cases and five deaths in the provinces.

OFF FOR SPITZBERGEN.

Wellman Expedition Is Given Hearty Send-Off at Tromsøe.

TROMSØE, Norway, July 5.—The Wellman Chicago Record-Herald Arctic expedition sailed on the steamer Frithjof for its headquarters at Spitzbergen. The steamer King Helge, sailing tomorrow, will carry the remainder of the material for gas-making and erecting dwellings. The people of Tromsøe gave the expedition a hearty send-off.

WARRANT FOR MRS. NATION

Her Publication, the Hatchet, Used Language Unadorned.

GUTHRIE, Okla., July 5.—A Federal warrant was issued today by United States Attorney Southorn for Carrie Nation, charging her with sending obscene matter through the mails in her temperance publication, the Hatchet. Mrs. Nation is now lecturing in Texas, and Federal officers have been notified to place her under arrest. A recent issue of the Hatchet contained a lecture to young men and boys, in which Mrs. Nation used very plain language.

Cashes a Raised Check.

ELMA, Wash., July 5.—(Special.)—M. M. Wakefield, a merchant, cashed a check raised from \$24 to \$34 for H. A. Dearson, issued by the Service & Hilt Shingle Company. Dearson has left the country.
