WORK ON WOODSTOCK ROAD

More Than 10,000 Yards of Earth for Single Fill.
 The county is completing the grading of the highway that connects with the Powell's Valley road at the Kelly Cemetery and extends south to Woodstock. This is a heavy piece of work, the cuts being particularly deep where it passes Ivanhoe, but it is an important road, opening up the large section at Woodstock and the surrounding country. Near where this road Wins the Powell's Valley main road there is a fill that has required about 10,000 cubic yards of dirt to make, but just south of the embankment there is a deep cut through a hill from which the dirt is obtained. A considerable force has been at work on the embankment several weeks, and it is not yet completed. When finished it will afford a good grade to Woodstock.

 Via the Great Northern Route.
 Trains leave Portland 8:30 A. M. and 11:45 P. M., making direct connection at Seattle Union Depot with Great Northern trains for Vancouver, B. C., and intermediate points. For tickets and sleeping-car reservations call on H. Dickson, C. P. and T. A., 123 Third street.
