

## DECLINE IN WOOL

### Fourth Series at London Opens With Lower Prices.

## TRADE EXPECTED THE DROP

Boston Market Turns Its Attention to the New Clip—Australian Yield Reported to Be a Record Breaker.

WOOL—London sales open with lower prices. FRUIT—Exceedingly heavy demand. VEGETABLES—California tomatoes are slow. POULTRY—Strong inquiry for Spring chickens. EGGS—Show and barely steady. BUTTER—Cremery grades unchanged. TEA—Second crop Japan will be higher.

Local wool dealers received private cables yesterday announcing the opening of the London wool sales. According to these cables, prices showed a decline of 5 per cent. At the Antwerp sales, a few days ago, the market dropped 5 per cent and cross-country sales down to 10 per cent. This slump in the foreign markets did not occasion much surprise to the trade here, as they have been looking for a change for some time past. It is said that the high prices abroad were due to the cleaned-up nature of stocks at the opening of the season in the hands of both merchants and manufacturers. As in this country, the goods trade complained loudly of the steep values prevailing and just as soon as the scarcity was relieved the importation of manufacturing cloth prices were depressed.

The foreign news naturally had a weakening effect on the local market. Buyers of Valley wool would not quote over 23 cents, and east of the mountain grade were also quoted weaker. At the Shanks sale yesterday prices were about 1 cent lower than at the previous sale.

The Associated Press received the following report of the London sale:

LONDON, July 10.—A large number of buyers attended the opening of the fourth series of the London wool sales here today. The offerings amounted to 10,116 bales. Cross-breeds and secured alps were in limited demand and 50 per cent of the offerings of good Hope wools were in great demand at an average decline of 5 per cent. The home trade bought cross-breeds and alps at the opening of the season in the hands of both merchants and manufacturers. As in this country, the goods trade complained loudly of the steep values prevailing and just as soon as the scarcity was relieved the importation of manufacturing cloth prices were depressed.

BOSTON, July 10.—The wool market is moderately active with deep interest manifested in the opening of the fourth series of the trade is turned toward the new clip. Prices are held firm. Traders are in connection with the increased demand for wool, the coming Australian wool clip, which is reported as the largest ever shorn there. Territory wools are steady. Pulled wools are in constant demand. Foreign grades are neglected. Territory quotations are as follows:
