ing to Hong Kong, but the expected volume by the Japanese in anticipation of the increase in duty on October 1 has not yet materialized.

Government's Forecast Indicates a Record-Breaker.

up before that date the shipments will have to be made not later than the coming month, but up to the present time they have given no indication of liberalizing it.

DEMAND GROWING RAPIDLY

Last Year, Even With an Immense Yield, Export Prices at Calcutta Were 25 Per Cent Larger Than in Previous Season.

Bank Clearings. Clearances of the leading cities of the Northwest yesterday were:

PORTLAND QUOTATIONS.

WHEAT—Wheat holds back supplies. POTATOES—Future of market uncertain.

JUTE—Indian crop will be largest on record. WHEAT—New crop buying at spot prices.

FRUIT—Local and shipping movement better.

What effect this big crop will have upon prices remains to be seen, but from the experience of the past season it does not look as if values can be lowered materially.

The Jute acreage and production, according to the British Government's figures, in the past six years was as follows:

The local bag market holds firm around the 10-cent mark. Buyers for the season are about over, though there are still some farmers who have held off waiting to see if there would be a break in prices.

NEW CROP WHEAT PRICES.

Puget Sound Buyers Paying Same as for Spot Grain.

A LIVERPOOL cable received by a wheat exporter yesterday quoted the English market "very firm and Russian crop conditions favorable."

The local wheat market was quiet and unchanged. There has been some buying of new crop club wheat by Puget Sound interests at 71 cents, the same as quoted for spot wheat, which would indicate that no decline in new wheat prices is looked for.

In fact some dealers express the opinion that the bottom of the market has been reached and any change from now on will be in the nature of an advance.

The weekly wheat statistics of the Merchants' exchange show the American visible supply as follows:

MELONS AND CANTS ARRIVE.

Deciduous Fruit Held Back by Wreck Down the Coast.

Two cars of watermelons arrived yesterday and two cars of cantaloupes were unloaded.

The latter were not all in good condition. A car of bananas was also received that was too ripe.

Other heavy arrivals were a car each of lemons, oranges, and potatoes and melons. The wreck on the Southern Pacific has tied up a lot of produce, including two cars of green fruit, one car of lemons, one car of cantaloupes and two of onions.

Peaches were in only moderate supply yesterday, and were held firm. Some fancy Crawford's from Winters brought \$1.10 a box. A San Francisco wire states that fruit is scarce in California, as plums are giving out and it is between times in peaches.

Potato shippers are without definite information yet on which to base forecasts of the coming season. It is known the Oregon crop will be large, but what effect the unusual weather has had on quality is uncertain.

Some damage has been done to the California crop by frosts.

Eggs Move Better.

The cooler weather stimulated the local demand for eggs somewhat and with better shipping orders the market had a steadier tone.

There were no receipts of poultry during the day.

The butter market was without fresh feature.

Royal Annes About Cleared Up.

SAN FRANCISCO, July 16.—(Special.)—There were few scattered sales in Royal Anne at 7 1/2 and 8 cents. The market is nearly cleaned up.
