First Issue of \$30,000,000 Subscribed Several Times Over.

ALL BIDS ARE AT PREMIUM

Average Premlum of Nearly 4 Per Cent Offered-One Firm Offers to Take Whole Issue-Inter-

est 2 Per Cent.

WASHINGTON, July 20.-Blds were opened at the Treasury Department late for the \$30,000,000 10-30 Panama Canal bonds, bearing 2 per cent interest, under Secretary Shaw's circular of July 3 and, although no awards will be made until tomorrow or later, it is evident that the entire issue has been subscribed for at an average of from 102.94 to 102.96. Mr.
Shaw and other officials of the Treasury
Department expressed themselves as
highly pleased and entirely satisfied with the figures obtained.

The total number and amounts of bids made will not be ascertained until tomor-row, but it is apparent that the whole issue has been subscribed for several times over. The largest and best single offer was that of Fisk & Robinson, of New York, who made six bids of \$5,000,000 each at an average of 103.55. Smaller bids at higher prices, however, will probably reduce the amount which will likely be awarded to them to about \$15,000,000. One bid of 106 for the whole issue came from a man named Lindsay at New Orleans, but on account of conditions named and for other reasons the bid was not considered. Several telegraphic bids were received too late to be considered, but the prices named were to small to be

The Secretary having stated that the bonds would be numbered serially begin-ning with the highest bid, one offer was made at 125 for \$1000, thus securing to the hidder bond No. 1. An examination of the best blds shows that offers of 104 1-16 and up aggregated \$15,349,880; 104 to 104 1-16 aggregated \$1,100,880; 103.75 to 104 aggre-A bid of 100.55 is the lowest at which any of the bonds can be awarded.

PLAN OF NEW ORLEANS BIDDER

Proposed to Organize Bank Which Would Buy Bonds.

NEW ORDEANS, July 20.-Dr. J. M. Lindley, of this city, who bid 106 for the entire issue of Panama Canal bonds, said tonight that he had stipulated that he could pay for the issue at the rate of \$10,000,000 a month only, and that the plan of himself and others behind this bid was to pay for the bonds by organizing an institution in New York City, to be known as the Panama Bank & Trust Co., which would issue depenture It was also expected, he said, to sufficient revenue with which to lish a chain of National banks.

WASHINGTON, July 20 .- The executive much difficulty in the application of the President's order to report violations of the eight-hour law by Government conwill be called upon to pass many opinions on the application of the law to the different classes of employes. The question has been raised as to whether the decision affects work on naval vessels in private yards. The contractors insist that the law does not operate outside of a Government reservation and that the ship is their own property until it is turned over to the Government. The Navy Department officials appear to believe Department officials appear to believe that, as the Government pays installments of money for the ships as the work progresses upon them, it is the actual owner of the vessels. This matter is so important that a test case is certain
