The surveys and examinations already made show that at least \$100,000,000 could be used to advantage in various parts of the arid West. The total fund which will be available from the proceeds of sale of public land for the years 1901-05 is esti-mated by the General Land Office to be a little over \$41,00,000. In order, therefore, to continue the work, it is necessary that this money, or as much of it as possible be invested in works which will begin to yield returns to the fund at the earliest possible date, so that the money may be used over again as soon as possible for HAND SAPOLIO FOR TOILET AND BATH Fingers roughened by needlework possible date, so that the mony hay of used over again as soon as possible for the construction of other works. In several of the projects a number of years must elapse before the works will be completed. Such projects will not be rev-enue-producing for some years. On the other hand, in Nevada the work has ad-unced the a point where unwards of 50.000 catch every stain and look hopelessly dirty. OREGON CITY, Or., July 22 -- (Special.) -The body of an unknown man was found in Sucker Lake, near Oswego, this morning. The Coroner's jury reported a verdict of drowning. It was impossible to determine whother the case was one of accidental drowning or drowning with suicidal intent. The body had been in the water for shout three weeks

suicidal intent. The body had been in the water for about three weeks. The man was about 60 years of age, and weighed about 160 pounds. He was bare-footed and his coat was found on the bank of the lake. An unexplained cir-cumstance with the finding of the body was that the crown of his straw hat had been cut away and the band of the head-gear had been pulled over his head and encircled his neck.

Dr. John Madden, an eminent and life long student of physiology, especially the effect of alcohol on the human system, lectured to a fair-sized and appreciative audience of men at the Y. M. C. A. auditorium yesterday afternoon on the subject of "Alcohol and Brains." Dr. Madden began his lecture by giv-ing a short history of the American Medical Association for the Study of the

medical Association for the study of the Effects of Alcohol, which was formed in 1372 and meets each year with the Amer-ican Medical Association. He is a mem-ber of the committee on hygical in-struction in the public schools and he spoke highly of the work of Mrs. Hunt, of Brater and of the attiluids of the

of Boston, and of the attitude of the medical men of Great Britain toward the teaching in the public schools of the effects of alcohol upon the human sys-

state in this Union." Coming to his subject he propounded the question. "Is alcohol a stimulant?" "No substance which does more in-jury as a whole than it does good can be regarded as a stimulant," was his answer. To prove that alcohol is not a true stimulant, he quoted from some eminent medical writers, referred to the results of experiments on 1350 people, and flus-trated by diagrams of these experiments and of brain cells treated with alcohol.
