# GIVE QUIETUS TO MINING FAKERS

Committee of Able Men Will Draft Uniform Law for Purpose.

PRESS IT IN EACH STATE

Needed Not Only to Protect Gullible, but to Prevent Injury to Legitimate Mining by the Crooked Promoters.

DENVER, Aug. 17 .- (Special.) - A strong effort will be made during the coming Winter by the American Mining Congress to enact laws which will wipe out the faking concerns doing business throughout the country. Five prominent Western men have been appointed a committee for the purpose of drawing up a law to be presented to the Legislatures of the West. This committee is composed of Governor Pardee, Senator Dubois, Senator

Governor Pardee, Senator Dubois, Senator La Follette, Governor Folk and Congress-man E. W. Martin, of South Dakota. It is proposed to frame a law similar to that now in force in California, which will be sent to every state which has not already a strong law on the subject, and the Legislatures will be asked to pass it. Secretary Calbreath, of the Mining Con-

Secretary Calbreath, of the Mining Congress, has sent letters to the gentlemen named asking them to serve on a committee for the purpos eof framing such a law. It is believed all will serve, and a meeting is being planned for this city some time within the next few weeks.

The Legislatures will be asked to act favorably and promptly on the measure in the interest of their own citizens who may be in danger of being taken in by dishonest promoters. So serious has the matter become that the American Mining Congress finds it necessary to take this step, not only for the protection of guilible people, but in the interest of legitimate mining everywhere. People all over the country have been duped so much by the country have been duped so much by fake schemes that it is hard to get them interested in legitimate mining enter-

prises.
Mr. Calibreath is confident that the committee will be able to frame a bill which will be acceptable to the Legislatures of the various states. The standing of the members of the committee is sufficient guarantee that any law they may draft will be in the interest of the investing public.

#### WILL DAM JACKSON LAKE

Wyoming Water to Be Stored for Minidoka Tract.

OREGONIAN NEWS BUREAU, Washington, Aug. 17.—The Secretary of the Interior has authorized the Reclamation Service to construct a temporary dam at the outlet of Jackson Lake, Wyoming. The reservoir thus created will be used in connection with the Minidoka irrigation project in Idaho, It is expected that in 1907 from 8000 to 16,000 acres of land under this project will be ready for irrigation and the plans contemplate that the normal flow of Snake River shall be augmented by water stored in Jackson Lake.

It is proposed to erect a temporary OREGONIAN NEWS BUREAU, Wash-

PLAN TRIP TO ST. PAUL

Members Go East After Close of Seattle Session-Estimates Will Be Secured in Lieu of Actual Figures.

SEATTLE, Wash., Aug. 17.-(Special.)-

As soon as the conference with the Northern Pacific train officials ends, Railroad Commissioners H. A. Fairchild and John C. Lawrence will go to St. Paul to confer with the experts who have been at work determining the cost of constructing the Great Northern and Northern Pacific lines in this state. They will spend a week in St. Paul, going over the records. The Minnesota and Wisconsin Railroad Commissions are seeking the same infor-mation for their own states, and there is much confusion in the engineering of-fices of the two Hill systems, which the ashington Commission has found embarrasses the crew at work for this state. It has been insisted all along by the two Hill roads that there is no information available that will show exactly what it cost to build the two systems. For tha reason the Commission is trying to ascer tain what it would cost to duplicate them

Nor is the original Northern Pacific switchback to be added to that road's outlay. The fortune the Great Northern spent to do away with slides on the Coast line will not figure in the final estimates,

All such details, the Commission estimates, will be offset by prevailing high prices for construction, land and materials. The facts are wanted to give the Commission an estimate of the investment which should pay a reasonable interest incidentally the former will be ment which should pay a reasonable in-tagest. Incidentally the figures will be used by the State Tax Commission. The Bailroad Commission did not take up the Walla Walla rate hearing today. The Walla Walla delegation came in this morning and spent the day with James G. Woodworth, of the Northern Pacific, but no adjustment was effected. A con-ference will be held tomorrow with the commission.

It was stated positively tonight that the policy of the railroads toward the joint wheat rate order, which becomes effective August 24, will be determined by the O. R. & N. If the Harriman system wishes to resist the order the Hill lines will join. It is congeded the Hill roads believe it better policy to allow the order to go into effect, believing it will not be of any advantage to wheaterware and of any advantage to wheatgrowers and will react against the Commission,

Action on this protest would be affected somewhat by the O. R. & N.'s attitude. Neither the Great Northern worthe Northern Pacific has been informed of the O. R. & N.'s plans. The Northern Pacific is directly interested, and traffic officials of that road expected an announcement of policy this week.

Commerce Commissioner Clements Talks on Conference of Railroad Men on Rate Law.

WASHINGTON, Aug. 17 .- 'T am not surprised to learn that the attorneys of the railroads of the country are in onsultation in order to reach mon conclusion as to the interpreta tion of the new rate law," said Inter state Commerce Commissioner Clements in an interview today regarding the meeting of railroad officials in Atlantic City.

"Naturally, when the accountants, attorneys and traffic managers come together and confer as to what will be a compliance with the new law, many contrary views arise that will require advice from the legal departments of the roads. If the carriers were acting with an eye single to complete and bona fide compliance with the law, the traffic managers necessarily would have recourse to their lawyers. It would follow, in turn, that in order to insure uniformity the lawyers would want to confer among themselves. Whether or not this be justification for the report that they are conferring with a view to defeating the purpose of the law, I am of course inadequately

"It must be apparent to all, including those rallway men who in the past have been inclined to regard the railways as a piece of private property to be dealt with by the owners as they choose, that the time has come that what they do in their business, which involves the rights and interests of the public, must be an open book, so that they themselves may have the means of knowing whether or not they are protected, and I don't believe the welladvised railroad lawyers of the country will waste their time in attempting re sistance to this well-settled public pur-

Cossacks Absolutely Rule City, and Jewish Quarter Is Isolated. Street Fighting Continues.

WARSAW, Aug. 18.—(Special.)—The situation here last evening and at this hour (I A. M.) seems ripe for a Jewish masacre of dreadful scope. Cossacks are in control and practically rule the city. The Jewish quarter has been isolated. It is possible that any moment outrages may possible that any moment outrages may commence, in which Jews will be the vic-tims of the popular and military frenzy which just now seems to have swept over Warsaw like a fever. Street fighting continued yesterday af-ternoon and evening. Frequently classics occurred between hoodlums and military,

with many casualties on both sides. Hospitals received additional patients to already crowded accommodations. Late in the day, Cossacks determined to stop all traffic in the streets, and this was done. At the same time, pickets were thrown about the Jewish quarter, and since then ingress and egress has been denied to all, to and from the district.

The villagers sounded the tocsin on the church bell, whereupon a crowd of (30) peasants, armed with scythes and other rustic weapons, gathered and ad-vanced to the rescue of the prisoners. Undaunted by the Cossacks' whips and sabers, the peasants charged and forced the Cossacks to take refuge behind a

atone wall. A volley from the carbines of the Cos-sacks failed to check the pessants, and finally the Cossacks were obliged to flee. The peasants are reported to have fought more like wild animals than human beings.
