SOCIETY SUFFERS SHOCK

Owners of Disreputable Resorts  
Maintain High Places on Taint-  
ed Money—Names and In-  
comes Are Exposed.

CHICAGO, Aug. 28.—(Special.)—Because of an incident which occurred at the Brunswick Hotel in Adams street last Thursday at midnight, which almost ended in a tragedy when young woman jumped from the second-story window to escape the unwelcome advances of her male escort and was almost killed by her fall into a paved court, a general crusade by the police has been begun against all hotels of this sort, of which there are over 100 in the loop district.

Under orders of Chief of Police Collins, 100 policemen in plain clothes split up in squads of five and six, descended upon it of these hotels tonight and ordered them cleared. When this order had been complied with, the police arrested all employees and the march to the Police Station began. In nearly all cases there were bondsmen at the station to meet the arrested persons and they were soon released.

CHICAGO, Aug. 28.—(Special.)—A sumptuously-furnished opium den, which both men and women in fashionable Chicago society are said to have frequented, was raided by a detective from 233 Calumet avenue. The den was found to consist of an entire flat of six rooms on the third floor, furnished and equipped throughout in Oriental hangings and most costly furniture.

REBELS SLOW TO GIVE UP

First Band Surrenders—Rushing  
Troops to Fight Guerrera.

HAVANA, Aug. 28.—In the absence of news of fighting between Government and rebel forces, the Government's offer of clemency to those of its enemies who will lay down their arms and return to their homes, while the press and public regard the offer as an important incident of the conflict, the result thus far has not been what the Government seemed to anticipate.

Citizens generally are willing to predict its results, and it is criticized especially in many quarters because it does not set a time limit for the laying down of arms, thus giving the insurgents time to test their cause, while longer and still reserve the opportunity to quit their cause when they are satisfied there is no chance of success.

Residents of the country districts of Havana and Pinar del Rio provinces uniformly speak respectfully of the slow and conduct of the insurgent band, and it is asserted that the people of the more remote districts are unquestionably with them. The forces of the revolutionary sentiment do not appear as yet to have greatly diminished and there are no signs of laying down arms, but it is too early to expect that response to Secretary Montalvo's order.

Enlistments and other war preparations proceeded more rapidly than ever today. Scores of horses have been impressed into service, their absence being one of the most noticeable signs of the war. More volunteers have started for Pinar del Rio, and the force in Pinar del Rio now is about 60, while that at San Juan de Martinez is 80. Extra precautions are being taken to guard the railroad between Pinar del Rio and San Juan de Martinez, in anticipation of Guerrera sending a force against it. His strength is augmented so much that he may undertake to carry out his threat of destroying bridges and wrecking trains. No special precautions have been taken as to other railroads, as they are not threatened with Moles Station.

The forwarding of troops and ammunition to Havana gives rise to the belief some insurgents have landed on the south coast of Western Pinar del Rio. Captain Ascher's band is reported today near Havana in considerably larger numbers. The people of the central and southern portions of Havana province are greatly excited by this band, as its behavior thus far has been excellent.

General Botancourt, commanding the troops in Matanzas Province, reported today that Matanzas was clear of insurgents. News from Santa Clara Province comes in slowly and is less reliable. The insurgents in the Southern and Eastern parts of that province received such severe blows in recent fights that they seem now more quiet.

The Governor of the province wired tonight that the insurgents in the vicinity of Racho Veloz are surrendering. The Governors of the Provinces of Puerto Principe and Santiago telegraphed that those provinces are perfectly quiet. Major Gomez is moving from Colon toward Yaguajay, Santa Clara Province, pursuing a strong force of insurgents, and a battle is expected shortly. There is considerable discussion as to how Pinar del Rio force will continue to exist. Food crops are not raised to any extent in the province of Pinar del Rio, the soil being entirely devoted to the cultivation of tobacco.

Very little freight of any sort is going westward, and commissary supplies have been despatched in that direction for the sustenance of the troops, but there is a fair supply of food in the City of Pinar del Rio. The soldiers there are reported to be suffering from fever, supposedly caused by a poor supply of water. The construction of earthworks for the defense of the city of Pinar del Rio is being pushed. It is stated that a considerable number of insurgents have deserted and gone to their homes, asserting that they were deceived by those who induce them to join the revolt.

Insurgents Fire on Train.  
PINAR DEL RIO, Cuba, Aug. 28.—

(Special)—A passenger train on the Western Railroad was fired upon today by 40 mounted insurgents near Alquizar. Several bullets struck the train, passing through coaches and shattering the windows. The government guards on the train did not return the fire.

WEIGHT DISPUTE SETTLED

Gans and Nelson Agree After Long  
Wrangle.

GOLDFIELD, Nev., Aug. 28.—At an informal meeting this morning, at which were present the officials of the Goldfield Athletic Club and those interested in the Gans-Nelson fight, a lively discussion ensued over the ring-side weight articles, in which the two managers took decidedly opposite views. Nolan stated that Gans should enter the ring at 2 o'clock on the day of the contest weighing 133 pounds, clad in his fighting garb. Sullivan, on the other hand, maintained that Gans, according to the articles of agreement, should make the specified weight, entirely stripped. Siler, however, declined to pass on the subject, beyond quoting pricing rules, and referred the matter to the club officials for adjustment, if possible.

Both Gans and Nelson took their customary jaunts on the roads this morning. After an eight-mile run Gans jumped on the scales and weighed exactly 132 pounds. Nolan stated that Nelson's weight was over 160 in the loop district. The exact fighting money was placed today.

REPUBLICAN NOMINEE FOR GOVERNOR OF NEBRASKA

George L. Sheldon.

LINCOLN, Neb., Aug. 28.—(Special.)—George L. Sheldon, the Republican nominee for Governor, is 38 years of age. He was born on a farm near Nebraska, in Cass County, and grew to manhood on the old farm. Mr. Sheldon is State Senator, having been a member of the Senate from Cass County for two terms. He attended the University of Nebraska, being prominent in all matters pertaining to the school as a student. Later he attended Harvard University, graduating there with the degree of B. A. He was commissioned Captain of Company B, Third Nebraska Regiment, in the Spanish-American war and served with his regiment in Cuba. Senator Sheldon has stood for railroad rate legislation, and for the election for the direct primary law and other measures endorsed by the last Republican state convention.

Henry Hodson, a miner, betting \$2000 to 10 to 8 on Gans, and another miner named Swamp betting \$500 on Nelson at the same odds.

Siler visited both fighters today and talked with them about the rules governing the fight, laying special stress on the breakaway clause. Siler says the men must break when he says, or there will be some disqualifying.

After two hours' argument at a meeting of the club, Gans offered a compromise on the weight question, which was accepted. The matter is now settled once and for all.

President Rickard announced that the meeting was punctuated with personalities, and states that in one instance Gans and Nolan all but came to blows.

FARLEY RUSHING  
ARMY WESTWARD

Sends Another Trainload of  
Strike-Breakers to  
Golden Gate.

ALL MEN HEAVILY ARMED

San Francisco Strike Came Sooner  
Than Expected and Necessitates  
Haste—Farley Says Federal  
Troops May Be Needed.

NEW YORK, Aug. 28.—Another special train loaded with strikebreakers was started for San Francisco last night by James Farley, who has been employed to put an end to the street-railroad strike in the Golden Gate city.

Three Farley trains are now trying to cross the continent in four days, saving a day on the average passenger schedule. Another train will leave Jersey City tonight, and still another may leave tomorrow night.

Like General's Headquarters

Farley's headquarters resembled the headquarters of a General in the field yesterday. His expedition, being equipped with ammunition, medical supplies and surgical attendants. Seventy-five rounds of cartridges have been ordered for the men, 1000 revolvers of heavy caliber have been furnished, and only the pick of men seeking adventure or high wages has been selected.

Farley will send a New York surgeon, who will go in with a staff of assistants. He has already commissioned an agent to provide for the men at New York and at cities between here and Chicago, while other commissary agents will look out for the men west of Chicago.

May Call Federal Troops

The strike came a day or two before it was expected, and Farley had barely reached New York from San Francisco to begin calling his force to the places of assembly, when he received a telegram from his hotel here that the strike had been ordered.

"The condition in San Francisco is a very serious one," Farley said last night. "I fear that it will be necessary to ask for the Federal troops. It is not only serious in the point of menace to the peace of the city, but also in its menace to the future of the city. Unless the street-car travel is resumed at once and kept up, hundreds of merchants will fail."

All Men Well Armed

A fast automobile was kept at the disposal of the chief of the strike-breakers yesterday, because every second counted. Telegraph messengers poured in and out of his office, and his clerical force was doubled. Badges, policemen's clubs, cartridges and cases of pistols were sent to the various points of the city to supply the men being recruited here, while the men in charge of stock and the trains with food were busy with the whole sale grocers, ordering what was needed. The movement of his army of strike-breakers is not being accomplished without opposition from the unions, for only a few union men attempted to pass as would-be strike-breakers, but were ejected from the trains and his recruiting agents and lieutenants have been instructed which are being used to prevent agents of the union from coaxing the strike-breakers to abandon their jobs. As soon as the men are recruited, they will leave New York on a fast train for the Coast.

GARMEN STANDING FIRM

OFFER OF UNITED RAILROADS  
CONSIDERED TOO VAGUE.

Mayor Schmitz Talks About Arbitration—Try to Effect Agreement  
Between Men and Company.

SAN FRANCISCO, Aug. 28.—The three principal developments in the street railway strike today were the receipt of a report that Thomas M. Farley had left New York with 700 strikebreakers; the statement of Thomas Mullalley, assistant to President Calhoun, declaring that the United Railroads was finding no difficulty in engaging men to fill the places of the strikers; and the meeting of ten union men connected with electric and cable roads, including ironworkers and teamsters, who decided fully to support one another in the present controversy.

The committee of the carmen today issued a statement in the form of an appeal to the public, declaring themselves unwilling to return to work unless upon some offer more definite than is conveyed in the communication of President Calhoun, inviting them to return to work pending a consideration of their demands.

No official statement was made by the railroad officials during the day, and it is not expected that any other offer will be made to the men under the present conditions. It is a general impression that the company will not wait more than a few days for the men to return to work, and in some quarters it is believed that an attempt will be made to operate cars within the next three days.

There was but little improvement in the conditions affecting the general public during the day. Mayor Schmitz has announced that he will tomorrow attempt to arrange for a conference with representatives of the United Railroads and the striking carmen. The Mayor has expressed a belief that the existing differences can be most speedily settled by arbitration, and has declared himself in favor of general arbitration board of arbitration, to which may be referred adjustment all difficulties of this character.

The Carmen's Union tonight issued a long statement, replying to President Calhoun's invitation to return to work. The answer is a firm refusal and a notification that the company in its further negotiations must deal with the union and not with the men as individuals. President Calhoun said tonight:

"We will operate the cars, but I cannot say when."

Press Club Convention Asked to Resolve Against Dramatists' Asinine Personage—Really Are Prosperous Men and Women.

DENVER, Aug. 28.—The 16th annual convention of the International League of Press Clubs opened here today. President T. J. Kennan, of Pittsburg, Pa., presided and delivered an appropriate response to several addresses of welcome made by city and state officials and Edward Keating, president of the Denver Press Club.

President Roosevelt, who is an honorary member of the Denver Press Club, sent the following reply to an invitation to attend the convention:

I am sorry it was impossible for me to attend the convention of newspaper men in Denver, but while I am not with you, in person I am with you in spirit and wish you all the joys that can come to such a gathering.

Mr. Belva Lockwood, of Washington, D. C., was elected an envoy from the

league to attend the coming peace conference, at Milan, Italy.

Stage Reporter Untrue to Life. It was nearly 4 o'clock when the afternoon session was called to order. After a spirited discussion, Birmingham, Ala., was selected as the meeting-place of the league next year.

James R. Nolan, of Denver, introduced the following resolution, which was referred to the committee on resolutions: Whereas, There are stage productions in which the newspaper reporter is portrayed as a silly, asinine personage without brains and as his presentation has a decided tendency to cheapen the craft in the eyes of the general public, be it resolved, That the International League of Press Clubs in convention assembled agrees as an association and as individual members to discourage all stage productions in which the newspaper writer is caricatured, and be it further resolved, That the International League of Press Clubs in convention assembled request writers of magazine stories and others in general to portray newspaper reporters as intellectual, prosperous women and men of real life, rather than the pernicious cast of past fiction, whose only aim in life has been made to appear the designing of credit or the procurement of one meal a day.

Election on American Spine. The business session will be completed tomorrow and the election will take place on the crest of the continent, on the Merit road.

President Keenan is seeking re-election, and Edward Keating, president of the Denver Press Club, is his most active competitor.

Tonight a literary and musical symposium was given to the delegates and their friends at the Broadway Theater. Late tonight the Denver Press Club entertained the visitors with a stag party in the rooms of the local club.

Home for Old Newspaper Men. Simon Guggenheim, of the American Smelting & Refining Company, tonight sent a letter to Edward Keating, president of the Denver Press Club, in which he made an offer to contribute \$2500 to a fund to establish a home for aged and worn-out newspaper men. Mr. Guggenheim said he would prefer

to see the home established in Colorado, but that this contribution would stand, whatever locality was selected. This matter will come up at the convention of the league before final adjournment is taken.
