DIAZ MAKES READY

Revolt in Mexico Will Meet Vigorous Resistance.

DATE IS SEPTEMBER 16

Government Watches All Suspects and Orders Garrisons to Suppress Disturbance—Buying Horses in America.

CITY OF MEXICO, Sept. 6.—(Special)—Sunday, September 16, it is alleged, has been fixed by the opponents of the present administration for an anti-foreign uprising which is intended to discredit this Government in the eyes of the world.

In every city in Mexico the local authorities have been instructed to keep watch on all persons who are known to have anti-foreign views and have been instructed to quell immediately any disturbance that may break out. In addition, the troops in the various garrisons have been carefully sounded and their loyalty demonstrated. The commandants have also instructions to uphold the civil authorities at all times and Governors of states are to be held personally responsible for the protection of all foreigners.

Mexico Is Sending Troops.

Last night for Cananea. The soldiers seem poorly supplied with rations. Yesterday one soldier dropped from the ranks and soon died. There are 100 Mexican troops now in Nogales, Sonora.

A meeting of prominent Mexicans was held last night in a secluded room on the American side. Nothing was given out. The attendance of Sonora newspaper men at the conference excited some comment.

EXPECT TROUBLE ON BORDER

Mexican Jealousy of Americans Is Boiling Near Fighting Point. NOGALES, Ariz., Sept. 6.—(Special)—Despite optimistic reports wired from Mexico to the effect that there is no danger of an anti-foreign uprising in Mexico beginning on their national feast day, September 16, on the border it is believed that trouble must come. The uprising at the Greene copper mines is now believed to have been premature, and, according to men who are in a position to know, a general massacre of Americans is likely to take place during the festive season, if the Mexicans as a whole have their way.

For many months, American capital has been invested more and more each week in the borders of Mexico and it begins to look as though the Mexicans as a people are becoming jealous of this fact. It is argued in Mexico that, when Americans can pay dividends on stock on properties operated within the republic and still obey the law which compels the employment of 65 per cent native Mexicans, these properties must be much more valuable than appears on the surface.

It is stated, however, that so far as the head officials of the Mexican government are concerned, they are telling the truth when they assert they do not apprehend trouble. For obvious reasons they could not admit that they are not in control of internal affairs, and, therefore, could not expect that they would be advised of the bitter feeling against American capital that exists in Mexico.

Governor Folk Is Quite Ill. JEFFERSON CITY, Mo., Sept. 6.—Governor Folk was reported today to be not quite so well as yesterday. No one is allowed to see him.

Remedy for Diarrhoea. Never Known to Fail. I want to say a few words for Chamberlain's Colic, Cholera, and Diarrhoea Remedy. I have used this preparation in my family for the past five years and have recommended it to a number of people in York County and have never known it to fail to effect a cure in any instance. I feel that I cannot say too much for the best remedy of the kind in the world.—S. Jemison, Spring Grove, York County, Pa. This remedy is for sale by all druggists.

INVADERS THE SOUTH

Terrorist Agitators Starting Peasant Revolt.

AND INCITE ASSASSINATION

Cunningly Disguised, They Will Now Provoke a Flame of Revolt in Southern Russia—Effect of Stolypin's Plan.

ODESSA, Sept. 6.—(Special)—The chief of the political police of this district within the last 48 hours has received information that not less than 400 revolutionaries agents of the extreme and violent sections, to provoke agitation, have recently come down from the north and are distributing themselves throughout the southern provinces. They are said to be cunningly disguised, representing all sorts and conditions of people and of vocations from those of the mendicant pilgrim and the starving peasant to those of the doctor, lawyer and commercial traveler or of workmen in official uniform. The passports and other papers of these men are presumably counterfeit, but of course quite regular in form.

The object of this sinister invasion of the southern provinces is understood to be the instigation of simultaneous peasant uprisings in November and in the meantime the promotion of a campaign of assassinations against the leading authorities. Military, civil and prominent police officials are known to figure largely in the proscriptive lists of the terrorists.

STOLYPIN REVIVES HOPES

Programme of Repression and Reform Causes Advance in Stocks. ST. PETERSBURG, Sept. 6.—The firm note struck by Premier Stolypin in the official communication embodying the whole government programme published last night, with its warning to terrorists and revolution-

ists on the one hand that crime must and will be suppressed at any cost, and to the reactionists, especially the court circles, on the other hand, that reforms can not be abandoned nor deferred, met with a prompt response on the Bourse today. Prices were not merely firm, but were very strong.

The Premier's note not only stopped the steady decline in government securities, but started a boom in bank shares and in industrial securities generally, some of them gaining as much as five points, owing to the belief that the announcement of M. Stolypin is the prelude of better times. The official note appeared today in the Official Gazette and the semi-Russian press, but the attitude of the public has not yet developed. The note is the all-absorbing topic of discussion. While the course of the Premier is preconceived by the parties in pronounced opposition to the government, in whose sight all works of the Ministry are evil, financial circles, as indicated by the tone of the Bourse, are not so hostile. They are regarded with approval and their attitude will probably be shared by the Octoberists, peaceful regenerationists and other partisans of the policy of peacefully working out the problems before the country.

But the imperial decree authorizing the institution of field courts-martial throughout the empire is regarded with disquiet in most circles. It is practically the same measure that the Emperor rejected during Count Witte's administration after the approval of the Council had been secured, and while it is realized that it is justifiable and indeed necessary in dealing with the ranks of the contributors to the navy, peasants, etc., who hitherto have had no worse punishment to fear than imprisonment or deportation.

It has already thrown a panic into the ranks of the contributors to the revolutionary press and drafters of incendiary proclamations to the army, navy, peasants, etc., who hitherto have had no worse punishment to fear than imprisonment or deportation.

Moscow Stocks Also Advance.

MOSCOW, Sept. 6.—There was a strong upward movement on the Bourse today following the publication of the Stolypin programme. All the industrial securities advanced, including Great Brihanov and Sormovo establishments, which had been steadily declining on accounts of strikes, incendiarism and riots.

RETURNING TO DIE

Lovelorn Italian Will Keep Suicide Pact.

SWEETHEART TAKES LIFE

Rejected by Girl's Parents, Luigi Contarini Obeys Her Call to Commit Suicide, Ignoring His Brother's Entreaties.

NEW YORK, Sept. 6.—A dramatic scene occurred on the French line pier today just before the steamer La Provence left for Havre. Among the passengers was Luigi Contarini, 34 years old, who was bound for his old home in Lecco, Province of Lombardy, Italy, to keep a suicide pact to die on his sweetheart's grave.

Andrew Contarini, a brother of the passenger, created the scene and afterward told his brother's story. He said that Luigi became betrothed to Josephine Biallanti, a girl in his native town. Her parents opposed the match, preferring a wealthier suitor, and Luigi, with his sweetheart's promise to keep faithful, came to this country to seek his fortune. He established himself at Beaver, Okla., where he secured a farm.

Then he wrote for Josephine to come, but she replied that she could not; that her parents forbade that she intended to commit suicide and that she expected Luigi to join her in death. News that the girl had carried out her purpose followed and Luigi sold his property at Beaver and started for Italy to kill himself on the girl's grave. His brother, Antonio, lives in Paterson, N. J., and Luigi went to him, told him the story and made him farewell. Entreaties failed to avert the man, and on the pier Antonio made his final appeal. He clung to his brother, passionately imploring him not to go. Luigi shook his head. Antonio then half-dragged his brother to an open space on the pier, fell on his knees, raised a crucifix aloft and renewed his pleadings. Luigi could not

BURNED IN THEIR SLEEP

Conductor and Waitress Lose Lives in Hotel Fire at Needles.

LOS ANGELES, Sept. 6.—The Santa Fe

passenger depot and railroad hotel at Needles, Cal., were destroyed by fire early today. Conductor F. M. Carter and Priscilla Bastian, a waitress, were burned to death. Several other employees of the Harvey restaurant were severely burned. The victims of the fire were asleep in the rooms set aside for employees over the passenger station. The cause of the fire has not been ascertained. Owing to interruption of telegraphic communication, details of the fire have not been received at Santa Fe headquarters in this city.

Considerable mail and baggage was destroyed. The building was a large wooden structure, the first floor being used for passenger waiting-rooms, Harvey restaurant and baggage and express storerooms. The Santa Fe maintains a special fire brigade at Needles, but the fire spread so quickly that the efforts to check it were futile.

The fire started about 4 o'clock this morning. The sleeping occupants of the hotel were awakened by the night watchman, and it was with great difficulty that most of them made their escape. Half a dozen of the waitresses were more or less severely burned about the face and arms in getting out of the building. It was at first thought that every one in the building had escaped, but later investigation showed that Conductor Carter and Waitress Priscilla Bastian were missing, and

Catarrets

Relieve Nasal Catarrh, allay inflammation, soothe and heal the mucous membrane, sweeten and purify the breath. Best gargle for Sore Throat, 50c, or \$1. Druggists or mail.

Give instant relief in Sour Stomach, Heartburn, Nausea, all discomforts of indigestion and dyspepsia. Pleasant and economical. Medium size, 25c.; Large, \$1; Pocket, handsome aluminum bonbonniere, 10c. Druggists or mail. C. I. HOOD CO., Lowell, Mass.

a search of the ruins revealed their charred remains. The total number of injured is now said to be eight, six waitresses and two conductors, Hawes and King. Several of these are very seriously burned. Several loaded freight cars were consumed by the fire.

The Congo Free State has an area of 900,000 square miles, and an estimated population of no less than 20,000,000.
