Labor Federation After Unfriendly Congressmen.

HAS WON MORAL VICTORY

Exults in Reduction of Littlefield's Majority and Will Raise Funds and Publish Campaign Textbook Against Others.

WASHINGTON, Sept. 18.-The executive council of the American Federation of Labor today adopted the report of the labor representation committee regarding its participation in the political campaign, and in that connection adopted a resoluand in that connection adopted a resolution advising the committee to continue
its campaign for the attainment of the
largest degree of success in the interest
of the protection and promotion of the
rights and liberty of working people and
the people generally.

The report of the committee refers to
the participation of the committee in the
campaign against the re-election of Congressman Littlefield, of Maine, and says:

It is true that Mr. Littlefield has been re-slected, but by so small a majority as comelected, but by so small a majority as compared to his previous election that it has indeed been a great moral victory and one which has much significance, not only in the coming election but on the standing of the Congressman in the future. At a former election Mr. Littlefield Fran immensely ahead of the other Representatives in Congress of the state and also ahead of his state ticket. Our fellow-workers in Maine faithfully carried on the campaign as our-lined by the executive council. lined by the executive council. The Federation has issued a textbook for the general campaign and the report recommends authority for another appeal

for funds for carrying on the campaign. The report continues: We recommend that representatives of affiliated organizations give their active co-operation in the coming campaign and com-plets plans to deliver addresses and participate in contests to carry out labor's plan of

Gompers Says Labor Federation Only Seeks Equal Rights.

WASHINGTON, Sept. 18.—"That battle in Maine, though closed at this time in the second district, is not at an end. The contest was merely incidental to the task which labor has set itself to accomplish," said President Samuel Gompers, of the American Federation of Labor, lest might at Typographical Temple, where a reception was given in honor of the labor

leaders, who fought against Representa-tive Littlefield's re-election in Maine.
"Not only Mr. Littlefield but 'Uncle
Joe' dared to reiterate that we stand for the licensing of criminal and unlawful conduct. We ask for equal rights before the law, as any other citizens. I have not in mind to say a word in criticism of the President, other than this: The right of petition is the right of the American citisen guaranteed by the Constitution, and neither the President nor Congress can take that right away from him. Labor is the only power in human society that represents the masses.

"Why did we begin the fight in Little-field's district? Because the election was hold there two months earlier than in the other states. If we had passed over this district, they would have said we were afraid. We were not afraid. We con-ducted a clean fight, and used no arguments or language that might not have been repeated in polite society. The la-boring people have outgrown the stooped-back and receding forehead of 'The Man With the Hoe.' They now stand erect. With the Hoe. They how stand erect. They are now waging a fight against capital and the white plague. By securing better hours and higher wages, they will find better conditions into which tuber-culosis cannot enter."

ONLY TWO ARE STILL MISSING Fireman Swims Ashore With Broken Arm_Officials to Rescue.

TOPEKA, Kan., Sept. 18 .- C. F. Bogue, of General Manager Cain's office, stated tonight that only two persons were still unaccounted for in the Rock Island wreck at Dover, Okla. These were a negro porter and one pas-

senger. Fireman Byrum sustained a fracture of the arm as the result of the wreck. His escape was miraculous, as he was compelled to swim ashore unaided with the broken arm. After floating five miles down the river on a piece of timber, the baggageman reached the shore.

A plledriver is tonight stationed at each end of the wrecked bridge, ready to begin the repair work at daylight. Officials here state that it will be possible to complete the repairs and have the line open and in operation again inside of 20 hours, providing the water in the Cimarron River does not get any

Neither the names of the dead nor those of the missing and injured have yet been received at the general office here. General Manager D. E. Cain and W. J. Tolerton, superintendent of motive power, will arrive at Dover about 10 o'clock tonight. Two of the cars are now piled on top of the engine in the water.

Southerland Asks to Have Naval Force Sent From Cuba to Squelch Disturbers-Have Both Re-

volts Same Backers?

WASHINGTON, Sept. 18 .- (Special.) -Just as the Cuban insurrection appears to be on the point of harmonious adjustment, the United States Government is confronted with a new outbreak in Santo Domingo. Commander Southerland, senior American naval officer in Dominican waters, reported to the Navy Department by cable late this afternoon that an insurrection is about to break out in Santo Domingo at any time. He says that the government has sent a force of 400 men to Monte Christo. The situation is declared to be acute. He fears that an uprising may take place. He requests that the Dixle, which is now in Cuban waters, be returned at once to Santo Domingo.

When the advisability of withdrawing

the naval forces from Dominican waters was discussed when the crisis came in the Cuban revolt, a suggestion was made that it might give encouragement to the insurgents in that island. It was finally decided, however, that the Dominican Government had matters well in hand and that no change was to be appreled with the present fleet of gunboats

in those waters.

The official belief is that the agency that has been back of the Cuban incurrection may be responsible for the threatened uprising in Santo Domingo, or that the insurgents, not understanding the completeness of the preparation by the United States to move an enormous fleet to land an army on Cuban sell, imagine that a revolt can be successfully conin those waters. that a revolt can be successfully con-ducted under cover of the Cuban opera-

SEATTLE, Sept. 18 .- Early this aftercon the commission named by Judge Frater to examine into the sanity of Esther Mitchell and Maud Creffield, held on charges of murdering George Mitchell, heard the last of the testimony to be introduced and within a few days will make their report to the court.

The two women prisoners were the last

to be heard and their testimony, while different from any they have previously Douglas, the negro porter, is still missing.

Gifferent from any they mave previously given, was very much alike. Statements were made by the women to the effect that they are glad they did the deed, would do the same thing again if the same circumstances presented themselves, and remarked month." He was trying to "beat" his are not afraid to die for the act, and would welcome death in any form. They also said that they have considered taking their own lives and would do so if called upon by God to take that step.

In this connection the women said they would kill any one if God told them to do so. Iney declared Creffeld had said on the night before his death that he was soon to be taken away and that after George Mitchell had done the shooting they at once began to mature plans for his death, if he should escape the justice of the courts. The testimony was to the effect that Mrs. Creffield was first called

to do the killing, but that afterwards it devolved upon Esther. The women denied statements made by them at the time of the trial, regarding the motives for the act, and said they had planned to make these statements beforehand in order to hide the real motive, and so protect their religion from the score of the people. Eather stated that in making the statement she had ex-pected it would provoke a mob violence and that she had desired to die in that manner. She stated that Creffield was to have been instrumental in bringing about the restoration, and that insemuch as this was his mission Mitcheli com-mitted a deed for which he must atone by death. In speaking of the possible consequences of the deed Eather Mitchell

said:

"I wanted to see my brother punished for shooting Creffield. When I was told it was my duty to kill him I was glad. It was not hard to do, for I was given strength. When we planned to shoot George we made all the preparations beforehand. We did not plan to escape afterwards, for we did not want to get away. I am not insane and never have been."

Tomorrow morning the commission will meet with Judve Frater, for the purpose of considering the manner of making the report. If it is desired to have the entire proceedings included in the report the commission will not be able to give its findings for some days, as it will require some time to transcribe the testimony. some time to transcribe the testimony.

GOING AFTER BACK TAXES

Umatilla County Has Employed a Clerk to Search the Records. Clerk to Search the Records.

PENDLETON. Or., Sept. 18.—(Special)—Umatilla County is going to make an attempt to collect all delinquent taxes, especially on personal property. In following out this campaign Clark Nelson, of Weston, has been appointed as a special clerk to hunt up the delinquent tax list and put it in shape to handle. He will begin his duties October 1 and will place all delinquent realty tax in a single book, going back in the records for the past 14 years. Personal taxes will be checked up for the past six years.

It is estimated that it will take two or three months to check up the books or three months to check up the books and arrange the new delinquent lists, and after that county officials will take legal action to collect the back dues when possible.

Fine Class of Students Register.

CORVALLIS, Or., Sept. 18 .- (Special.) -The second day's registration raises the number of students in attendance at the Oregon Agricultural College to an increase of more than 11 per cent over that of any former year. National Fire Insurance Company

Colonial Fire Underwriters Both of HARTFORD, CONN.

have nearly completed the adjustment and payment of all direct claims against them arising from the earthquake and fire of April 18th, and on policies amounting to\$2,228,064.50 have paid \$2,070,089.37, showing a discount for salvages, payment in advance of maturity, compromise of doubtful claims, and all other causes, amounting to only \$ per cent, leaving an average paid under each policy of 94 per cent.

These figures are sufficient refutation of the statements which have appeared in some papers that the National and Colonial are not paying dollar for dollar, the same as the other leading foreign and American companies, and we invite companies with the figures of any other company.

The National after reserving \$2.700,000 for its unpaid losses, and a surplus to policy-holders on the first day of July, 1906, of \$2,032,693.34, and to show this amount was not obliged to issue additional stock or assess its stockholders. M'NEAR & WAYMAN, Gen'l Agents.

"THE RULES OF THE GAME"

william R. LIGHTON OBER OF CLEVERNESS

JUST OUT An absorbing and dramatic tale of newspaper life, interwoven with a charming love story. Good poetry and excellent short stories fill the number. Among the contributors are Edna Kenton, May Harris, James Hopper, Owen Kildare and Theodosia Garrison, John Kendrick Bangs and Gelett Burgess. Maurice Francis Egan contributes a delightful essay, "THE FOOD OF THE HEROES."
