the money market was essential to enable it to meet the October 1 demands upon it. The belief that such measures were imminent was general late in the day and contributed largely to the improved tone of the stock market. The late recovery became decidely strong but the only stocks to yield any considerable net mains were the Harriman Pacifics, Atchleon, Rending and Amaigamated Copper. Bonds were easy. ## WHEAT MARKET FIRM.

# Farmers Not Selling Readily on the Ad-vance-Outs Moving Well.

A fair degree of activity is reported in the wheat market, but farmers have not been selling readily since the advance set in. The tone of the market yesterday was firm. Barley rules rather dulet, as buyers are holding off.

The oats market continues strong with a lively movement in the interior, where some sections are being well cleaned out.
