# HUGHES IS CALLED ROOSEVELT'S MAN

Parsons Stands Firm for Great Inquisitor for Governor.

#### WOODRUFF UP-STATE MAN

Republicans Spend Night in Trying to Find Man to Beat Hearst, After Formally Opening

SARATOGA, N. Y., Sept. 25 .- Anybody's prophecy may turn out to be true regarding the nomination for Governor to be made tomorrow by the Republican State Convention. It is by no means impossible that the convention may take another recess till later in the day or even until Thursday. At midnight the situation was, if possible, more uncertain than ever, in spite of a practically continuous series of conferences by the leaders since 4 o'clock in

The one apparent certainty was that Herbert Parsons, the leader of the New York county forces and from the begin-ning sponsor of the Hughes candidacy, was standing and would continue to stand fast for his man. Against him were arrayed practically all of the up-

The indications for the moment were that the up-state strength would be concentrated upon ex-Lieutenant Governor Timothy L. Woodruff, of Kings County. This proposition was the subject of a conference which began about then and was the first sign of a break in the confidence of the so-called Hig-

#### Hints Hughes Is Roosevelt's Man.

"The name of Hughes will be presented to the convention. You can bank on that," was the emphatic retort of Senator Page, Parsons' Heutenant.

'At midnight this statement was confirmed by Parsons himself in the same words. He was closely questioned by a group of correspondents as to the degree to which his attitude represented the views of President Roosevelt.

"I will repeat my question of today," he said: "Have you any doubt where the President stands in this matter" "Do you believe the President desires the nomination of Mr. Hughes?" He was

"I believe the President desires the nomination of the strongest man. "And do you think Mr. Hughes is the

"I do-but you must not jump too fast to a conclusion from that statement." The rumors that the National Administration was taking active interest in the convention was given some impetus by the presence here today of Assistant Sec. retary James B. Reynolds, of the Treas ury Department, who, however, denied that he was here for any special pur-

## Black Positively Declines.

An indication of the doubt in which the situation remains is the fact that no speakers have yet been selected to place candidates in nomination, but as matters stood this evening it would seem that the mination for Governor is still between Bruce and Hughes.

There were repeated revivals during the day of the talk about Frank S. Black, range a programme to secure his nominaion. Black from the first discouraged the use of his name and made his declination so positive that few of the up-state leaders believe he is really a possibility.

## EPISODES MAKE IT AMUSING

Hearst Boomer Interrupts Convention-Race Issue Interjected.

SARATOGA, N. Y., Sept. 25 .- The first session of the Republican State Conven tion lasted an hour and a half and was harmonious and comparatively uneventful. Two episodes, however, occasioned some comment and amusement. One was a brief passage between State Chairman Odeli, presiding, and Representative Herbert Parsons, heading the New York County delegation, and the other was the interruption of Temporary Chairman Driscoll's attack more Willern Puttern. coll's attack upon William R. Hearst by a young man standing before the front row of delegates, who exclaimed that Hearst had "sacrificed all." This was hardly rotted but he represent the control of th hardly noticed, but he repeated in a loud voice that Hearst had "sacrificed \$15,000,-The delegates were indignant and

the man was ejected.

Still another incident out of the ordinary was the adoption of a resolution deploring race hatred and mob law "at home or abroad." The resolution attracted the more attention because it was presented by a release of the laws to the control of the control sented by a colored delegate, Charles W. Anderson, Deputy Collector of Internal Revenue, Anderson asked unanimous consent to the reception of the resolution. By then the delegates had come to realize that the resolution applied not only to lynching and mob violence affecting the negro race, represented by Anderson, but also to the anti-Jewish ricting in Russia, and there was a clamor for its reception. Chairman Odell put the question and the resolution was carried amid

He assert-ed that the Democrats themselves, as the years roll by, are "enlightened by the logic of events and admit the wisdom of nearly all the important acts of their opponents." He also declared that the majority of Democrats secretly, if not openly, admit "the general necessity of the defeat of Bryan in 1896." "They also admit," said the speaker, "our wisdom in electing to the same exalted office that tireless worker and finished scholars, dantiless worker and finished scholars. ar, dauntless protector of the people's business before them, it would probably rights and incomparable, executive, the people's business before them, it would probably be 2 p. m. tomorrow before the convenition reconvenes,

He dwelt at some length upon the recent acts of Congress, for the achievements and faults of which he said the Republican party must bear the credit and accept the responsibility, since all the great measures could have been passed without assistance from the Democratic side, "and the fact that they approved and suprepried fact that they approved and supported them indicated on their part an un-usual degree of good sense and patriotism." He touched upon the punish-ment of grafters, the bringing to book of powerful offenders, the situation in Cuba, and incidentally expressed a

Cuba, and incidentally expressed a high opinion of Secretary Taft. Turning to state issues, Driscoll pointed out the importance of the coming election in New York State, "in view of the certain demoralization and disaster which would follow the triumph of one of our opposing candidates." He praised Governor Higgins as a man and public official and commenced his admirate action, through ended his administration through-

When Driscoll mentioned the name of Governor Higgins the convention cheered heartily, but a little later, when he spoke of the administration of state affairs having been "independent of bosses," there was a roar of laughter. State Chairman Odel, whose eyes were wandering over the audience, turned quickly and looked sharply at the speaker, but his face showed no emotion.

Driscoll's speech was frequently interrupted by applause. His mention of President Roosevelt brought the convention to its feet shouting cheering and waving hands and handkerchiefs. The cheers were dying out when the New York County delegation jumped to its feet and wound up the applause with three ringing cheers. When Driscoll mentioned the name of
